Do you know anyone who's tried the KDG-SR100? It's been out for a
while now and I haven't heard from anyone who's purchased one. I
already have a TecTec RX-320D. It's very nice and is probably about as
far down the SDR road as I'm willing to travel.

OBSTRUCTING JUSTICE FOR AMERICA

Tony Snow "The executive branch is under no compulsion to
testify to Congress because Congress, in fact, doesn't have
oversight abilities."

IT LOOKS like they are going to attempt making the move of
BLATANTLY TREASONOUS war criminals acting to measurably now
destroy yOur Freedoms in godless America. The Satanic
neocon's 'faith', is in that YOU as an American, will watch
the same corporate drivel that offers next to nothing to
empower YOURSELF to speak Justly for a dying America. Instead
of demanding 24 hour, wall to wall news coverage, of war
criminals going down one by one by the will of Man to Justice,
CNN, CBC, and FOXNEWS will broadcast your blind 'belief' that
you are only a impartial viewer, who doesn't really care about
dying right in front of yourself for the zionist's riches, and
great worldly power of tyranny through lawless nazi bushite
censorship.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

MY government? Now that's entitlement. And you thought George Bush didn't have a vision for America \ \

Hitler, the mad man, wasn't as insane as our demon enemy George Bush Jr. is.

/ / The [BUSHITE ENEMY] US has said it would refuse any request by Italy to extradite the accused [satanic bushite torturers of completely INNOCENT PEOPLE]. \ \

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women

and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life on Earth, sacrificed in cowardice to the real demon antichrist, and see if we, the true, strong, and free, care. The Son of Man SCREAMS before coming home to GOD'S America: We are coming to destroy Satanically lawless bushite enemies, all for the love of God, we shall succeed my friends, we shall succeed. I will not willingly live in a forsaken world with LIAR zionist war criminals conning US to believe, God is not Great, True, Strong and Just.

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC
zionists, actual treasonous LIARS, actually smile to dying
Canadian soldiers with only true contempt. CBC kills Canadian
kids, with their intentional demon lies, trying to subvert
Justice for God and Johnny. In fact, yesterday, they did a

demon LIAR, all the space to pontificate it's hatred for

To Kill a Bushite, is to be Heroic

To further murder as these ungodly bushite liars do today as our suffering Mankind, is to blindly swear public allegiance to the for real DEMONIC antichrist THIEVES. Bushite enemies are evil nazi dumfuk scum, liars who cowardly watch America in her weakness be high jacked, and squeak nothing for Just words in our REAL defense for dying. Play pretending their actually real men, because to really be so, requires real strength. Not bush bitch Marines "WHORES YEAH!" strength, where they cowardly can't figure to defend America from ungodly war criminals. War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. By Satanic command, 'inconceivable' to see the bushmob up on high treason charges... Oohh. Yeahhh.. I can see that going for real - quite excitedly I am about saving innocent lives. So, let's get done what needs to be a doing to save ourselves, so we can get this talking all behind us now, and reach for something truly breath taking as awarding,

Your Servant,

King Johnny Wizard

Why should WE continue to silently die unjustly victimized?, for the bushite's contempt of Mankind censored?, the Eternal Son of Man to GOD forever answers correctly. We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt. Bushite tyranny is a dead end road paved with missed opportunity. change your evil ways in other words, and join the living side that's light to know what we are, in deed, looking at here under the dying spoils of bushite, "we pay" misfortune. To hell with Satanic demon devil worship by the President of the United States, We, the People answer, for now anyway, we have some really serious business just presently, and we really don't need to be any more reminded about Mr. Bush's satanic Devil, demon whoreship, of, "Molech",

a religion practiced to deceive America into sacrificing our kids for cash with YOUR blood.... Tricked. Tricked. Tricked.

Nationless bushites who blindly war Life as the neocon enemies, war for the 911 perpetrators to escape American Justice. that is why I, as of GOD, cheer to hear the deaths of these pro torture, pro theft, pro Satanic enemies of Man. They confess freely to targeting INNOCENT People for murder.

Hillary "[DEMON] Bush pulled out the inspectors."
[DEMON] Bush declared, "and he wouldn't let them in."

In Hell

Firstly, the White house doctored the NIE in an act of HIGH TREASON.

Two:

CNN with Hillary acknowledges that the demon Mr. Bush pulled inspectors out of Iraq, but then... how is this not HELL to pay?

/ / Bush declared, "and he wouldn't let them in. And, therefore, after a reasonable request, we decided to remove him from power." \ \ HE LIED. Not the 'NWO', George Walker Bush, who Alex Jones tells US to look away, because he's only a puppet. Should not Bush be held accountable to the criminal actions he is PERSONALLY responsible for Christ asks YOU?

/ / So, there was indeed no imminent threat posed by Saddam to Amerka, and inspectors had complete unrestricted access throughout Iraq without delay prior to the, bush demon's further war crimes. So, what was the reason for all the pointless mass murder and destruction again? Oh right.. to sacrifice American soldiers so terrorist bush's war profiteering can feed off themselves as family without leadership present as spoken for.[...] it's only the dummy American People bid payers again left unaccounted to DIE intentionally. \ \

The Haditha perpetrators, if convicted, are looking at serving, maybe, a couple of years, for freely confessing to the targeting MURDER, of innocent women, men, and infants.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man. - The Son of Man, as the Man of Men,

PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? I do, that they recognize that the death of innocent people could shake our will," the President explained. \ \

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Our Mr. Bush Jnr. "The war is for you or for us [neoCONS] to win. If we [neoCONS] win it, it means your defeat and disgrace forever."

Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

War and the Police State: Complicity of the American People
http://www.globalresearch.ca/index.php?context=viewArticle&code=THO20070421&articleId=5454

/ / On September 11, 2001, corporate media and the government elite launched an aggressive political and media campaign upon and against the American people. \ \

SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?"

MSNBC told YOU when interviewing Tom Daschle in discussion of the official public contention, that immediately after the terrorist act of 9/11 in New York City, (where thousands of American People were murdered,) bush and cheney frantically, desperately, INTENTIONALLY, worked paid overtime to close 9/11 (the justice-freedom thing) Investigations on who or whom planned to get away un-apprehended with the still living as freely wealthy General Ahmad. \ \

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. Each day we hear of near hundreds of US murdered by the godless Satanic THEIVING "American" forces in Iraq. without near a peep of concern by "America". Lawless bushite mercenaries torture rape and murder, paid to do so by the WILLING American tax payer, and near 300 million "People" (the NAZIS) can't find the effort to pick up a princely phone and call the ENEMY pro child killer George Norry, (who broadcasts every day across America nationally for the IRRATIONAL neocons,) to air any real concern for our Lives. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. So, get to it fukhead, JOHN is growing angry with americans of EVIL ignoramuses escaping the bushmob for crimes against MY HUMANITY. The Son of Man States: Death to the bushite, death to our MURDEROUS

enemies, who lie cheat and steal to assist in the further criminal escape of the ungodly bushmob for 911 as TRAITORS.

As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as

the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite enemy and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children pratically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones. \ \

Art Bell, "the thief", is really fuking evil to GOD as America.. being a blatant naked LIAR to the American Patriot Warriors

The Pentagon's Power to Jail Americans Indefinitely

Look, demon enemies of Christ torture innocent people for fun,
paid for by the silent American tax payer. Americans refuses
to bother making a simple phone call to Coast to Coast to
raise some concern. THEY don't. They refuse to hunt bushite
down in their streets for death to defend the innocent held
indefinitely against GOD'S will. Death to the bushite, death
to Johnny's godless, lawless, fascist enemies of FREEDOM.

pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending

with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real

Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / The Mujahideen aren't students of power and don't compete for power like others do. We are students of truth and work for establishing this truth and for this cause we sacrifice our power \ \

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

2005 designed to clarify [to the dumfuk bushite demon liars]
that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of
bushite rapists though, so has worked to deny Justice for
female grunts by denying all requests to the 'Pentagon' from
American Police Departments. [and you thought he was fired!]
Why? because, they, the very weakest intellectually of
America's - do what they're told teen kids, ALL don't have
rights anyone in bushite corporate america is willingly strong
enough as a dedicated Leader to speak in demanding defense of,
for innocence.. Why? because they soullessly advocate
continuing bushite war crimes for a stolen dollar. Stuck that
way apparently. Support my rise to speaking publicly for open
challenge on the rights and privileges of all concerned
parties. Rapists and torturers must not be allowed to rule
our pirated authority through defending the further 'escape'
of the bushmob for 911. I would like to form a global posse
of sleuthers to identify on international open line radio, all
guilty INDIVIDUAL parties by evidenced conclusion on our
highest of priority issues, and get started with the nothing
to hide from anyone global arrests, with PUBLIC court
proceedings, done all for our public interest as the refusing
to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush:
"If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win."
http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating

bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

Did you know Blair had arrested the reporters who reported this initially? Didn't think of defending children, no sir. For, the commentator, who gives the play by play, while masturbating, has been given forgivence because it's an heroic "Christian". Not publicly executed. This must change for the better. ARE YOU TALKING TO ME?

George W. Bush:

"If the absence of violence is victory, no one will ever win."

But for those of us who would believe protection to be a heavenly good thing actually he means? What the. does he mean?? Find out!, in the new candid, let's talk politics interview, with no other than, PRESIDENT GEORGE W. BUSH. (talk about having connections!) Have your mind blown on his TRUE wisdom, seldom since ever, so wisely articulated in a more private setting, than this: The Story of the Millennium.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of Man doesn't have to wipe out the entire human race after all.. With Bush co-operating now, I personally believe, no, I know, we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of Humanity to be gloriously publicly executed to defend the innocent lives, they once again, have indiscriminately murdered in Afghanistan without a sliver of evidence, but for to say, some dumfuk had a 'rumor' that a single individual SUSPECTED to be an anti-heroin pro-child defending Taliban supporter, granted the bombers of NATO to wipe out an entire village MURDERED indiscriminately by the TRUE demonic enemies of LIFE. Please, if you must forsake me in your personal cowardice and self loathing, don't forsake GOD and America by not killing with PRIDE, these bushite dumfuks of NATO the first chances you get. Love liberty as if it were your own, and kill a lawlessly murderous bushite nazi savage for your love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book is out there? Don't miss out on picking up a copy for yourself, or your loved ones. And did you know, I'm trying to get on international radio without a censor to thunder my audience back into submission. I HATE HANNITY. All I want is free open debate to resolve this crisis, that doesn't have to be so ruining our dying worlds without questions forwarded by the dumfuks. Justice is Paramount through reason to be so. The Bush Administration have been up to no good, escaping for

911, that New York City should sue for. Hire me on as legal consultant buddies, cause I'm like near starving broke here, with supreme court challenges failing my cost factor, and hunger pangs slowing our progress on fighting unjust incarceration. I desperately need money, like now, as a gift, or an advance on a industry paid private consultant gig. Or, instead, maybe you'll idly watch some innocent person willfully be sent to prison by liars in your demonized name, to defend the ungodly evils of war criminal traitor, our Mr. Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

P.S. someone tell Hannity, I got a beef with his demon lies to sacrifice our guys. I'm calling Hannity out to explain himself freely to US now, as a demand for an immediate match between him and ourselves in the dug pit of his utter contempt for our free to be alive communications.

'A military judge ruled last week that Watada cannot base his defense on the war's legality.'

the godless bushite enemy, continued to shoot innocent People
indiscriminately for a distance of six miles, while likely,
secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God
and America, who's word, as Oath, means as much to them, as we
do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead
for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from
murder, (the innocent whom any pro-bush corporate professional
hold in total self contempt,) you save REAL peoples lives, and
you defend God's good name to love God as ourselves committed
to true Liberty. Bushites are enemies of freedom, enemies of
God, and worthy of death, before allowed to further bomb
people indiscriminately like the commanders of NATO order day
after day without risking instant frag because, bushites are
blind cowardly thieving nazi fascist savages, brain damaged,
who believe as satanic demon whores of Molech, they can con
all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the
government building destroyed by the Oklahoma bomb has called
for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest
of those who told America the victim committed suicide, when
clearly, due to autopsy photos, the individual was tortured to
death as the innocent. So, the 'officers' responsible for the
fraudulent claims, need to be arrested for accessories to
MURDER. The torture will earn them both the death sentence,

if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the

unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

unspeakable bonanza of the "Pearle Harbor" like event that 911
was. What the peenackers publicly stressed they would crave
to fool US into Iraq and beyond as glorified war criminals.
911, New York City, where thousands of Americans were
murdered, and millions polluted. killed like now American
teen soldiers with the Iraqis. Led by a Sattler, or Mattis,
Blount or Russell, who order the murder of women and children
openly, and 'they', the actual soulless minions of the demon

antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

-

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like

the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal

of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

CONTACT

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

My friends, People are dying because the magic radio and TV wont broadcast our publicly available findings. Police findings. People are dying needlessly, illegally, irrationally like meaning really stupidly on Bush's behalf, for they claim, we don't want to be 'embarrassing ourselves', leaving our forsaken Johnny Wizard's Wild Wow World of Wonder Wording Wees!.. mostly just appreciated by myself as sole surprised spectator, because you people seem to not be there for God when the chips are down, and truth is plain to see..

911 was an inside job, and CBC with CNN don't want to tell us about it, but will watch our LOVED children lied to, to go out and die further for a causeless war of criminality unparalleled in it's wickedness.

Do you expect yourself to fail trying?

It's all up to You my friend, it's all up to you.

This is why the Son of Man through God begs the Peoples of Humanity to kill on sight, the enemy bushite betrayers to Life. Ourselves, the innocent. These soulless grunts don't destroy such deserving commanders, Like Blount, Sattler, Russell, Wuterich, Pantano or even Kimmitt, and instead, as in Fallujah, murder every woman and child present, while stealing all our given monies for desperate life saving help. Anyone in the Air Force deserves to be justly put down, for, I've NEVER seen any legitimate bombing campaign, but for to kill People indiscriminately like NATO regularly does with radio-active toxic waste, while then sending in the dumfuk Marines, or the 'from the coast' Canadians, who of course, rightly get killed on the ground in retaliation for such blind evil stupidity. Please, I beg, help Iraqis, and kill the bushite thieves to defend our forsaken God. American children, help me my loves. Please don't allow the bushmob to escape for the treasons against America on 911, for, bushites are OPENLY traitors, as the TRUE enemies of evidenced Justice, as the Freedom to do our own things loving God on our own. Besides, most bushites aren't even registered American citizens. Bushites need to be hunted down for destruction -

by the Loyal Christian American Patriot Soldier, the ones who war to win against those who torture US innocent to death as the ungodly Satanic LIAR enemies. Save the Humans, kill a bushite false accusing traitor of American Freedom To-day, and become a real Man in the presence of Johnny America, an actual Man of Men, Lord of Lords, and King of Kings.

McCain is insane

/ / The proposal, which Sen. John McCain is planning to introduce on Wednesday, also would require ISPs and perhaps [!?!] some Web sites to alert the government of any illegal images of real or "cartoon" minors. Failure to do would be punished by criminal penalties including fines of up to $300,000. [...]

What images must be reported? Illegal images of minors, which includes clothed teens in "lascivious" poses, according to the Justice Department. Obscene "cartoons" and "drawings" also qualify. (18 USC 1466A) \ \

Alert the USER! not tyrannical leaderless dumfuk thievers, for it is the expresser who, if any, that is guilty of a determined illegal expression. McCain is a demon enemy of Life ourselves to promote the arrest of all the goodness that beauty brings in the heavenly art of our clothed teens. to bother. It's the reason I first picked up a guitar, it's the reason I did my early plays, then monster movies, and it's the reason I praise the orchestra of the Heavens in Dream, and well.. it's just the reason for everything. I speculate sometimes perhaps slyly that G was kinda lonely all by ourselves for zillions of years, whom, for entertainment, loved us up on the entranced exit starting - before a beginning without ending, yet, as outer there, is still the insider here, forever being we sorta, and gave us this foolish boy for the mental gymnastics. All in good fun. Rocking on to leave all as Mystery, never realized forever and a day in Eternity. You are a Servant, as so I am. Quite a place eh kid? So as it looks now presently, we're here still barely hanging on striving to survive against Mr. Bush's continuing unfair irrational tyrannies of clear injustices committed in Your Name against our Humanity, or, end ourselves dying without true representation, left falling further forsaken. [Home is home sweet home as in Chicago, as we always was going to with or without our loves heaven bound. Well, gee, Iran has no nuke program, in anyway, shape, or form, but Israel wants to murder more of humanity for their ungodly lies anyway. The enriched uranium Iran is making, can not be used for a bomb because it's only enriched to 2 percent, and to get the bomb making stuff, you need a COMPLETELY different technology. But science?, in bushite america? Nazi America would rather be nazi chauvinist pigs, before admitting the Son of Man exists, or to go to the trouble of phoning someone who refuses to take our public

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is

going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People like in Fallujah or Somalia with land mines and mini nukes

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy

bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

/ / Once the document was declassified after the war it became known that it contained 40 caveats - including 15 uses of "probably", all of which had been removed from the previously published version. Tenet further ingratiated himself by remaining silent about the OSP. "That's totally unacceptable for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON. Could it be any higher? Deliberately caught misleading whore-dumb Congress to wage his immoral neocon 'escape' with a unjustified criminal brutality against God as all of our Humanity. A great deal more than a million innocent people have been victims to the 'targeted' Zionist killings of the irrational bushite enemy. Lawless enemies to Creation, spreading their toxic waste who thieve, rape and murder without reprimand from corporate news america, shall, I pray daily, die justly in vengeances by the will of a real undying Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted killing of innocent children is fair game in their worlds, and as confessed, they 'got away' committing the same Satanic acts - going house to house in fallujah murdering more than two hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler. Bushite corporate america, has stated in silence, the bushite enemies of Haditha will never face public execution for such offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Let US demand open radio
communications on the mathimatical facts to save our own selves further victimhood to their personal contempt for the

true value of YOUR life. Thanks.

Can you help us speak this outrage to your local media outlets?

thanks again bud.

See? It's admitted that the zionists planned to STEAL the rights of Afghans for Enron, by LYING to SOLDIERS to get them killed as the American Pension thieving bad guys. Too COWARDLY parasitic to hunt those responsible for murdering thousands of "Americans". So, as a consequence, they, as loveless bushite drones, die cowardly with the once great America as enemy corporate fascists to Freedom's Justice, Our Living God.

John's truth. Killing a THIEVING bushite is to save the lives of the innocent they target for murder. The cowardly bushite, dies sacrificed - all to help IT slavishly escape those responsible for 'getting away with' murdering thousands of Americans in New York City on 911. Sorry George W. The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. Death to the godless bushite, death to America's lawless enemies.

AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN,

10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy

documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

3.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

Daschle, "Did the vice president call you and urge you not to

on Jan. 28 the president himself at one of our breakfast

and by Mr. Bush four days later, but "on other dates
following" as well.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen
Mahmud Ahmad sought retirement after being superseded on
Monday, the truth is more shocking. Top sources confirmed
here on Tuesday that the general lost his job because of the
"evidence" India produced to show his links to one of the
suicide bombers that wrecked the World Trade Center. The U.S.
authorities sought his removal after confirming the fact that
$100,000 were wired to WTC hijacker Mohammed Atta from
Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of
General Mahmud [Ahmad]. Senior government sources have
confirmed that India contributed significantly to establishing
the link between the money transfer and the role played by the
dismissed ISI chief. While they did not provide details, they
said that Indian inputs, including [Omar Saeed's] mobile phone
number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

13.

The honorable Argentinean oil company Bridas' relationship can not be understated as the Bush Administration's primary motive on criminal invasion of Afghanistan to save his biggest corporate backers, the American pension thieving Enron.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . Well, not completely, for Bremer shipped 19 billion to Greenspan early on, then, hundreds of millions were sent back.

"To be truthful about it, there was no way we could have got the public consent to have suddenly launched a campaign on Afghanistan but for what happened on September 11..."

Tony Blair Speaking To House of Commons Liaison Committee

36.

The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite

Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

Hmm... It seems that the post I sent never materialised in this ng.
Anyway: No, I haven't heard of anyone in my area (Scandinavia) who's
bought one. Maybe Germany. Here's a link that compares the SR-100
with the Flex-Radio SDR-1000. Those who don't understand German should
get the picture anyway. The hardware requirements are roughly the same
- especially the need of a high-end soundcard. The RF Space SDR-14
and SDR-IQ are much more modest in that respect.

I suppose the RX-320D is not a "real" SDR but a PC-controlled
receiver.

It seems as though Cuba's frequency usage has increased as relations between the US and Fidel's friends such as Hugo Chavez have deteriorated. Even worse, they tend to be right next to BBC freqs, wiping out the weaker Beeb signals coming from other parts of the world. The Beeb uses 6005 in Africa, the Cubans use 6000 (although to be fair 6000 has been dominated by Cuba for a LONG time). Beeb is on 11765 at 0500, Cuba is on 11760. Those frequencies are practically the only usable ones in the US for The World Today, at 0300 and 0500 respectively, so Cuba has to be nulled, which is nearly impossible given how much power they're feeding into their tx's just a short distance from America. I notice little difference between the old Yaesu tabletop and the little Degen portable in this regard-they both have problems with Cuban splatter. A few years ago, the Beeb had a Spanish language relay using the Delano tx, only a couple hundred miles from me, and they just blew the Cubans out of the water. I think that Cuba and Britain have been chasing each other on SW ever since, even though the decision to put BBC Espanol on 5995 was probably made by the US government, which runs Delano via VOA.

It probably happened to be in the grayline, which is the only reason
you got it at all. I think that the sun is rising in South Korea
around 2000. I can usually pick up Quranic chanting from Saudi Arabia

I would think that having a Rothschild on any of the kook shows would be the holy grail. Forget global warming, the main topic of conversation would be the control of the world by the secret banking cartel, with lots of references to tracking devices in digital watches and such. I wonder if David Rothschild had any idea that he would be walking into a chainsaw massacre when he agreed to appear on Info Wars. Hey, if a US Congresscritter doesn't know who Michael Moore is, how is a British Rothschild expected to know anything about Alex Jones?

Well, it wasn't greyline propagation as I'm nowhere near that at 2000. Sunrise enhancement, perhaps?

Around 2020 or so, and sunrise in Taiwan (where the transmission originates from) right around the same time.

That's not true. The original allegation was mine, and was that
since the ear is a device with an "output" which doesn't change
linearly with linearly changing input amplitudes, it's a non-linear
device, is incapable of _not_ producing harmonics and heterodynes
and, as such, is where the mixing occurs.

My contention was that zero-beat was the difference frequency
between two input tones close to unison, and I still maintain that's
true and that that difference frequency is in there. However, your
contention that zero-beat is the result of the vector summation of
two tones close to unison is also valid, since a non-linear detector
is capable of doing that summation well enough to allow that be the
dominant phenomenon as evidenced by the fact that the ear is
incapable of directly detecting (say) a 1Hz tone but is fully
capable of hearing the 1Hz amplitude warble which would result from
the vector addition of the two tones.

>Incidentally, if mixing did occur in open air or inside the ear, you
>would not be able to comfortably listen to hi-fi music, as all you
>would hear would be intermodulation products.

All you would hear?

That's grossly untrue. What do you think would happen to the
played notes?

They'd all disappear in a cacophony of chaos just because some
lower-level cross-products were being produced?

Nonsense.

In fact, contrary to what you may believe, the ear _is_ a non-linear
detector and, consequently, _cannot_ help but heterodyne its inputs.

That's why, after thousands of years of experimenting with what
notes sound good when they're played together and which notes don't,
music is written the way it is.

Something else you may not be aware of is that musical instruments
are inherently non-linear and, as such, will generate harmonics of
any fundamental notes played on them and heterodynes if two or more
notes are played simultaneously.

I have also read this accounting, but from what I've been able to determine it lacks mathematical and phenomenological support. Here's why. As two audio frequencies are moved closer and closer together, there is no point where an average of the two frequencies can be perceived. There is however a point where no difference in the two frequencies is perceived. Obviously if we cannot discern the difference between 220Hz and 224Hz (as an example), we are not going to be able to discern half their difference either. I suspect the notion may have originated from a trigonometric identity which has what could be interpreted as an average term in it.

sin(a) + sin(b) = 2sin(.5(a+b))cos(.5(a-b))

A plot of the function reveals that cos(.5(a-b)) describes the envelope. The period of the 'enveloped' waveform (or the arcane, beat modulated waveform) then can be seen to vary continuously and repetitiously over time - from 1/a at one limit to 1/b at the other.

At a particular instant in time the period does in fact equal the average of the two. But this is true only for an instant every 1/(a-b) seconds.

An interesting related experiment can be performed by setting a sweep generator to sweep over a narrow range of frequencies. The range can be adjusted as well as the sweep time. One can then study what sorts of effects are discernible.

I have found that it is very difficult to fool the ear in some of the ways that have been suggested. It does not appear, for example, that the claim for 'perceiving the average' is valid for two arbitrarily close frequencies any more than it is for any two other frequencies. But I would appreciate learning of any contradictory research that you might be able to cite.

Regards,
jk

[ver 1.1]

With respect to the London, UK car bombing attempts:

??????????????????????????????????

Would it not be more geopolitically efficient for Islamic Liberation Fronts
to destroy the BBG-VOA-RFE-RFA shortwave transmission facilities in

* Morocco (Tangier 3, although it may be nowhere near that city)
* Sao Tome
* Kuwait
* Sri Lanka
* Philippines
* ...

??????????????????????????????????

====================
As a geopolitical strategy -- would it not be disadvantageous to allow
BBG-VOA (owned) relay sites to continue operation in the developing world?

Islamic liberation fronts have no transmission facilities to speak of, so
one could argue this tactics change would merely be creating a level playing
field.
====================

Note:
-- Most of VOA's shortwave transmitters are made by companies that have shut
down or left the shortwave transmitter business: MARCONI and ALLIED-HARRIS
(now just Harris Broadcast).
-- Most of the BBG external broadcasting money is flowing into Television
[[not Radio]] -- specifically Shortwave and Mediumwave.
-- BBG-VOA probably needs to move over to ALLISS transmission technology to
allow it to have instant international crisis reaction times in the 15
minute range -- like RADIO FRANCE INTERNATIONAL.
-- BBG-VOA is so raft with nepotism, favoritism, kickbacks etc ... that
replacing its transmitter infrastructure may take 5 years or more.
Potentially once all the shortwave facilities are destroyed, they would
never be rebuilt.

Assumptions:
* All the BBG-VOA transmission facilities outside the US could be destroyed
in 5 weeks, each by a different method.
* I am assuming that only the transmitters would be destroyed -- destroying

the antennas takes more time.
* RIZ, CROATIA -- could only provide one portable 300 kw SW transmitter per 4 months at best -- as Continental and Thales-Grass Valley don't do portable SW transmitters.
* It could be assumed that an operation to destroy a transmission facility would be around 100,000 EUR per facility (averaged, developing world cost).
* I could assume 70,000 EUR for Sao Tome, but 300,000 EUR for Thailand -- and around 150,000 EUR for Sri Lanka.
* BBG-VOA would not be that heavily impacted as there is a glut of SW transmission capacity in Eurasia that is up for lease at a moments notice (for Eurasian targets, Oceania aka Australasia still has -350% undercapsity).
* There would no impact in the Americas if BBG-VOA lost all of its 'Old World' transmission facilities.

Pros and cons of NICAM vs DVB vs DAB (original design)

Disadvantages

NICAM
-- J.17 Emphasis curve
-- 32 kHz sample rate
-- 14 bits vs 16 bits of modern systems; requires resampling for 16 bit origin material

DVB (aka AAC)
-- Codec complexity, coding time
-- Ogg Vorbis may have a better FFT

DAB (Musicam)
-- Not as efficient as AAC
-- FFT and filterbank perhaps too simple
-- Does not support 24 bit audio, only 16 bits

Still, if one were designing a DAB system in the mid-1980s ... NICAM is near perfect.
-- IF AND ONLY IF "RDS" datastream is added

Yeah, that's what I meant. I tend to think of everything where the tx

The Quran has its roots in the oral histories once chanted/recited by
the Arabs, long before they adopted written language. Virtually every
culture from the start of the human race to the widespread use of
writing had what the English language calls "bards". Their histories
were somewhere between singing and what we would think of as prose
recitation. "Chanting" is only a rough description.

"Recitation" is the closest thing we have in English to the meaning of the Arabic word "qur'an". It is not exact, however. What we think of as "chanting" (ie Gregorian chants) is more like song than the Arabic chants/recitations. We don't have anything like the Quran in English, somewhere between singing, chanting, and reciting. The Jewish Bible (Old Testament) was originally written in the same fashion as the Quran, meant to be recited, not spoken. The New Testament was written in Greek prose, however.

Sorry. 15170. I can hear it on my little Degen 1102 in California. It's a great opportunity for Americans to hear the Quran as it was meant to be delivered, by voice. It WAS delivered as such for the first century or two of Islam's existence. It was only after multiple, contradictory versions emerged that an effort was made to write it down. But even now it is considered a great accomplishment among Muslims to memorize the Quran and deliver it by voice. The best reciters can recite any Sura that is suggested. Even the Jews have mostly lost this ability.

It would be easier to take them over, and more politically advantageous. The jihadist movement is the most effective user of propaganda since the Nazis. Why blow up a transmitter when you can seize control and have it pumping out jihadist invective to the world?

This basic fact is why revolutionary movements around the world have salivated over gaining control of a Western relay transmitter. During the Cold War, the VOA and its sister broadcasters in Western Europe frequently lost transmitters in the third world, taken over by local revolutionaries to become The Voice of the Popular Revolution-albeit at greatly reduced power.

The old Soviet network is pretty decrepit too, so I'm not sure they're a real alternative, or that Russia would let us have access. (Some of their former satellites, such as Ukraine and Poland, might, but they don't put out much of a signal.) In general, the world's shortwave transmission capacity is pretty worn out, except in China. As transmitters kick the bucket at increasing rates, shortwave broadcasting will likely take a steep fall as governments decide not to replace transmitters that take oodles of power with little return, unlike during the cold war.

The former Soviet Bloc has little money to buy transmitters, NATO (including the US and UK) has little incentive to replace theirs, and the various decrepit transmitters in the third world simply will not be replaced when they die. Sometimes the efforts to keep the old warhorses alive is nothing short of heroic-look at the Lao govt's efforts to keep Sam Neua running, despite the ever present threat of the studio burning down. But eventually reality will have to be faced, and then much of the world will simply go silent, including the US.

I think that eventually the jihadists will look at transmitters in places like Morocco and Kuwait as excellent opportunities to spread their message, and will take them over. Morocco's government is not exactly stable-it was nearly overthrown in the early 90s, and any jihadi revolution there would mean that their tx's would be seized. The Philippine government has the Muslim rebels pretty well bottled up on a few islands. Yes, the fighting on places like Mindanao is fierce, but the rebels have a difficult time leaving. An island is easy to secure, especially a small one-surround it with boats and shoot anybody who tries to sail out. For that reason I think that the Philippine tx's are safe.

Sri Lanka is divided between Hindus and Buddhists, with very few Muslims. They won't try there. I don't know anything about Sao Tome, except that it's hard to get to. Other possibilities are the BBC facilities in Oman, a location which must make the Beeb extremely nervous. I think the Beeb also has a Cyprus location, another iffy proposition.

I thought it was more like 10th century. I'm not sure when some of the oldest Muslim universities, like al-Azhar in Cairo, were founded. I know that Azhar was around by 1000 AD (11th century). Islam didn't have much of a presence in Europe, except Spain, for quite a while-the Balkans weren't Islamicized until well after 1000 AD. The Balkans were controlled by the Christian Byzantines for centuries. I'm not sure that Islam ever conquered the Basques, even when they had the rest of Iberia. Hell, not even the Christian Spanish managed to conquer them. Eventually Madrid simply gave the Basques autonomy so they would stop blowing people up.

By the way, I just checked BDXC, and they say that the Quran service on 15170 at 0300 has ended. The earliest Quran service is now 0600-too late for Americans. The Quran can be heard on several other Muslim stations.

It is my view that, becuase the MOC owns and runs (or runs only outside Russia) the former Shortwave Relay network of the former USSR -- that the transmitters are in good health.

Assumptions
1. All USSR era transmitters seem to have been CLASS-B [Push-Pull] before the final power tube
2. Like western transmitters -- most moderized USSR era transmitters probably have 3 to 5 power tubes (just like in the west)
3. Due to DRM being introduced on SW, most 100kw+ transmitters in Russia have been shortlisted for DRM conversion ... albeit I don't expect to see DRM conversion rates as high as 40%
4. I assume that the USSR may have stolen outright PDM front end amplifier designs -- and re-used them in their SW relay network. PDM and PSM amplifiers were and are stratigic designs, for transmitters > 100 kw (as a design simplificaiton).
5. Russia is sourrouneded by parts of the world that are much poorer than itself, so AM (but not AM-DRM) shortwave is still a stratigic necessity for many more decades to come
6. Only the Jamming network of the former USSR bacame decripit, as the transmitters did not need to transmit normal audio
7. The USSR won outright the SW and MW transmission war during the Cold War -- thus there are many spare transmitters that have spare parts ... up to 30 years worth (post 1995 startpoint)
8. Post 1997 (Hong Kong handover) demands on the SW spectrum have allowed the MOC to mothball up to 2.5 megawatts of un-needed capsity at its existing

relay stations. Mothballing = can be brought back into operation in 3-7 days.
9. I would be slighly more worried about the health of the MOC antennas, as the relay network probably is running at about 30% of the staff it had in 1988.
10. Russia makes its own Shortwave, MW an LW transmitters -- no need to by western transmitters (even from RIZ, Croatia -- they produce transmitters very similar to what Russia produces)

... probalby I could go on to 15 reasons, but these 10 here are adiquate

Ok.

The period of the 'enveloped' waveform (or the arcane, beat

??

How do you come up with anything but a period of of the average of the two
for the enveloped waveform?

The Chinese have been putting money in Cuba and radio transmissions have
improved. Less splatter and better audio from them these days.

If you have two values, a and b, the average is (a+b)/2, which is precisely the frequency in your above equation. So the sin(.5(a+b)) term is at the average frequency.

The sin's term amplitude is modified by the cos term, 2cos(.5(a-b)). This does not change the timing of the zero crossings of the sin term in any way. Therefore the period of the resulting waveform is fixed.

The cos term does add a few additional zero crossings when it evaluates to 0, but there is no continuous variation in the period as you have described.

Hopefully?

Is a spectrum analyzer linear?

You didn't know a spectrum analyzer is nonlinear.

There have been attempts to remove the carrier but receivers could not be
manufatured at a reasonable price that would demodulate the signal with the
fidelity of an AM BCB signal. Probably could be done today but what would
you l do with all those AM rx that suddenly dont work when the transition is
made.

You know, as often as you say it, you'd think he'd tire of hearing it.

Which, more than anything, sort of underscores your point.

14 bits and 32Khz near perfect? Even CD players managed 16 bits 44.1
Khz in the mid 80s. You're also forgetting that NICAM has virtually
sod all error correction. The slightest dodgy signal and its off into
wax cylinder audio mode (though you won't here it on most TVs , they
mute or switch to the FM sound as soon as the bitstream goes wonky)

MP2 has no error correction either, you dummy, they add the error correction
prior to transmission.

I was refering to the whole transmission , not just the codec.

I see Jimmie talked all around your question.

I'll answer it AGAIN, though I'm still sure your only a troll.....

DSB says nothing about the carrier; DSBSC is still DSB.

You can have DSBSC (Suppressed Carrier), DSBRC (Reduced Carrier), and DSB
with Full Carrier. You can look up the abbreviation for the latter if you
need it.

Broadcast medium wave radio, slang term "AM Radio," is DSB with full
Carrier.

Obviously, since it has both sidebands. What it's
missing, vs. "normal" AM, is the carrier.

The error here is in assuming that the sin and cos terms in the equivalent expression are representative of individual waves. They are not. The resultant wave can only be accurately described as the sum of the constituent waves sin(a) and sin(b), or as the function 2sin(.5(a+b))cos(.5(a-b)). That function, plotted against time appears exactly as I have described. I have simply reported what is readily observable.

Well it was designed for distribution and for that its very good and

What you said here:

"You're also forgetting that NICAM has virtually
sod all error correction. The slightest dodgy signal and its off into
wax cylinder audio mode"

suggests that you were trying to say that NICAM having "virtually sod all
error correction" means, for example, that it would be worse than DAB, which
doesn't make sense because MP2, MP3, AAC etc etc don't have any error
correction either, it's added prior to transmission.

Interestingly, ~0300-0315 UTC 10 July (i.e. Monday evening) in the
Vancouver area of SW British Columbia, there was no sign of RHC on
11760, 9550, or 6180 (and mebbe others that I couldn't be bothered to
check)... nor was Rebelde on 5025 which is a marker of reasonable
reception.

A re-check past 0400 showed the same situation, tho 4930 was showing
VoA Botswana as well as could be expected. That suggests conditions
were normal.

Mebbe Fidel's minions didn't pay the power bill?

Yeah, and if you lie down with Zeke, don't be surprised if you get

Now, here we have the liberal, all accepting Canadian, trying to
prove the superiority of his all-accepting world view, and liberal,
politically correct ways, with his best insult: implication of
homosexuality between two members of the group.

Doesn't that just take all.

Turn in your bong, Bubba. You're now a Southern Democrat.

Obviously a reference carrier is required..... So what's your point? "DSB"
tells us NOTHING about the carrier; is it suppressed, reduced, or full in
the transmitted signal?

Maybe you should read an entire post before replying.

I did not ever say AM broadcasters are wasting money by generating a
carrier. Get your story straight.

You need a reference carrier for generating sidebands, but you do not "need"
to transmit the carrier unless it's required by a specific service.

Read the sentence just above your above sentence. A transmitted, full
carrier is required for the broadcast service. Other services don't require
it.

From the same page..note how the original poster left this out.

==========
Although Canada is a top five user of marijuana, its use among high school students in Ontario declined 19 percent between 2003 and 2005. Cannabis use amongst 12th graders in the U.S. declined 18 percent between 1997 and 2006, and is 38 percent lower than it was at its peak in 1979, the report said.

Cocaine Use Twice as High for U.S. Students

Canada may have cornered the North American market on marijuana use, but U.S. teens are twice as likely to use cocaine as teens in the rest of the world, according to the report.

About 4.8 percent of U.S. 10th graders have used cocaine compared to an average of 2.35 percent of 15 and 16-year-olds in South America countries and an average of 2.4 percent of similarly aged students in European nations.

It's important to know when a statement like: "There's no mixing
happening in the air. compression of air is very linear" is nearly
correct (because it's never precisely correct), and when it's really
pretty incorrect. You can call that a "red herring" if you like; others
might call it "knowing what you're talking about".

There's no advantage to DSB-SC that SSB-SC doesn't have and several that
SSB-SC alone has. Getting rid of one of the redundant sets of sidebands
halves the required bandwidth, for one. Also, if the two sideband sets
of DSB-SC experience differing phase alteration due to propagation
effects (not too uncommon), the signal can become unintelligible; that
effect is minimized with SSB-SC.

If all broadcasters used SSB-SC and precision frequency control (easy
and inexpensive these days) then SSB-SC receivers are pretty easy. But
that doesn't solve the problem of all those AM receivers...

Things seem to be moving in the direction of digital modulation and even
more complex receivers; whether that's a Good Thing or not, I'm not sure.

I'm not splitting any hairs. You implied that because NICAM doesn't have "built-in" error correction then it would be unusable as a digital radio format. It would be unusable as a digital radio format due to its bandwidth, but not because it lacks error correction, because the other codecs don't have that either.

I was assuming he meant as-is. Ie same transmission system, albeit
different frequency, as well as same codec. In which case it would be
unsuitable.

889. Why Islam? The question "why?" demands a rational answer

Newsgroup: rec.radio.shortwave
Date: 2007-07-11 12:42:33 UTC
From: ab214@hotmail.com
Message-ID: <1184157753.366857.104840@57g2000hsv.googlegroups.com>
Source record: 118078

Why Islam? The question "why?" demands a rational answer.

It is true that one cannot have an adequate mental picture of some mathematical and scientific facts. For example, one cannot have an adequate mental or visual picture of the curvature of space, or one of the mathematical concepts of infinity. Nor can we really have an adequate mental picture of the way in which certain animals experience things, such as the way in which bats 'see' by using ultrasonic waves. However, know these concepts to be true because of solid evidence and not because of some non-rational ideas. Therefore we can say that we do indeed comprehend them.
Now what about the concept of a singular, all-knowing entity which has created the universe. It is impossible to have any mental or visual picture of such an entity, for evidence tells us that this entity must be unlike anything in the universe because this entity must be independent of space and time. The evidence for the existence of this single intelligence lies in the design of nature itself, which we can freely examine; hence, such an ideology is rational. If one realizes this - through confirmation - then one can proceed to answer the question: Why Islam?
One of the main problems with an atheistic ideology is that it cannot explain intelligence in the processes of the universe. Another problem is that it tends to deprive life of meaning. Furthermore, we know that human beings are naturally inclined to be honest; however, in atheism there is a denial of an ultimate originator and of anything beyond death, which creates a contradiction and leads to an inconsistency in behaviour - on the one hand a person would be inclined to be honest, and on the other to be dishonest 'to make the most of this world'. [If everyone insisted on 'making the most of this world', society as we know it would not exist. As a case in point, let us suppose that all those who wanted to 'make the most of this world' resorted to thievery. If this happened, no one would be producing the goods (growing food for instance) that the rest of us could steal. Hence it seems that 'making the most of this world' as system of action is doomed to failure. Could it then be a viable system of belief?]
Broadly speaking, with regard to theistic ideologies we have the revealed, the distorted and the man-made. One can easily say that a way of life communicated to humankind by the creator of this universe is preferred to man-made ideologies. If one wants to follow the advice of that which has made the universe and all that it contains - regarding what is beneficial or harmful - then it is better to refer to pristine communication from this originator, than to that communication which has been fabricated or distorted by man.
Those ideologies claiming to be based on revelations can be subjected

to a number of tests, the first and most important of which is that of consistency. We must look for two types of consistency: internal and external. Internal consistency means that a statement made in a book must not contradict another statement in the same book. External consistency means that a statement made in a book must not contradict facts as we know, be they psychological, physical, chemical, historical, geographical, biological and so on. Applying these tests, consider the most important truth that all the supposedly revealed ideologies proclaim, that is, the existence and perfect attributes of God. God for all ideologies, that claim to be revealed, is supposed to be all knowing, all merciful, everlasting etc. However, some books imply that God's knowledge is limited and imperfect by saying that, for example, God was deceived by a human. In contrast, the Quran provides the perfect concept of an all-knowing, singular originator of this universe.

This leads us to the next test - that of authenticity. The question that should be asked is whether the ******ures that we have today are indeed a communication from the originator to humankind. A study of the history of Islam would show that the present Quran is exactly the same as that which was communicated about one thousand four hundred years ago. During its revelation it was committed to memory by a large number of people and also written down.

Yet another test is that of comprehensiveness. A truly comprehensive ideology, revealed to humankind by the designer of the universe, would describe the most beneficial system in all spheres of life including the political, economical, social, medical and environmental spheres.

Lastly, we might look at the test of universality. Clearly, an ideology which is historically or graphically bound is not as good as that which applicable to all human beings, irrespective of the time and place of their origin.

In conclusion, if one uses the criteria of universality, comprehensiveness, authenticity and above all, consistency, one would find the Quran unique and worthy of investigation. It is interesting to note that the Quran itself stresses the above-mentioned approach. For example, in verse 82 of chapter 4, it is said, "Will they not ponder about the Quran? If it had been from other than God, then they would have surely found in it many inconsistencies."

Nothing. I never was congenial. And I did get involved in OT from
time to time.

And I've not to date ever been involved in a personal attack.

Nothing's changed.

But nice try.

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

MY government? Now that's entitlement. And you thought George Bush didn't have a vision for America \ \

Hitler, the mad man, wasn't as insane as our demon enemy George Bush Jr. is.

/ / The [BUSHITE ENEMY] US has said it would refuse any request by Italy to extradite the accused [satanic bushite torturers of completely INNOCENT PEOPLE]. \ \

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life on Earth, sacrificed in cowardice to the real demon antichrist, and see if we, the true, strong, and free, care. The Son of Man SCREAMS before coming home to GOD'S America: We are coming to destroy Satanically lawless bushite enemies, all for the love of God, we shall succeed my friends, we shall succeed. I will not willingly live in a forsaken world with LIAR zionist war criminals conning US to believe, God is not Great, True, Strong and Just.

Die bushite die!

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC
zionists, actual treasonous LIARS, actually smile to dying
Canadian soldiers with only true contempt. CBC kills Canadian
kids, with their intentional demon lies, trying to subvert
Justice for God and Johnny. In fact, yesterday, they did a
special, all on how "God is NOT Great", giving that bush bitch
demon LIAR, all the space to pontificate it's hatred for
Wisdom, Science, and GOD, with only nods and smiles from the
'illiterate' hord. Remember: A zionist KNOWS it's an enemy of

Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

that rule this Universe, are the simplest, most easy to
understand, but I digress about GOD'S greatness, for we know,.
the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in
from Afghanistan, that will still cause crime, and be illegal,
(and maybe give you life in prison as an American,) but
brought in with the help of the demonically evil bushite
thieving murderous military, by the likely ton full to attack
our direct family left un-protected, BY YOU PERSONALLY. And
guess what? THEY, our media masters, couldn't care less if
they actually tried to be our good guys. Reminder: the god
guys is good, the demon liar antichrist demon enemies who
thieve from Life with censorship is bad. If they hide
ourselves too far, they loose all around, up and down. So get
to it. Or don't. Your choice. Life lived Now, or damnable
death by cowardly design brought forthwith under your own
power to do nothing under such terrible costs against our
suffering natures.

Typical tyranny for media control over all of Life for the
beginners is this treasonous betrayal against our Nature, by
refusing to be honest about our potential to be far greater
than first considered. If they'd only allow US to have open
communications, all our worlds would be better living for it.

Demand Coast to Coast hosts allow America to defend America.

I want air time with the one and only real man in these here
parts, Mr. Johnny America, our glorious make believe creator
of all we perceive religiously, self realized. He's a genius!

rag-heads and niggers

/ / Bushite corporate america, has stated in silence, the bushite enemies of Haditha will never face public execution for such offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found GUILTY as politically supporting the robbing and murder of innocent men, women, and children all because we're INNOCENT rag-heads or niggers, \ \ like the NAZIS with jews. Zionist Holocaust Deniers that say otherwise, ('Fallujah never happened'), WE should just immediately put to death to save the lives of our remaining loved ones. Death to the murderous bushite LIAR thieves, death to all Satanic bushite traitor enemies of Justice for Man, proclaims I, King Johnny.

Dope Pushing Cop Killers

Support torture as a Zionist AIPAC Politician like demon McCain, and The surviving PEOPLE of the Messiah - will rise up to take you down as the ungodly enemy LIAR McCain clearly IS. As so is the Satanically practicing (with Molech and everything) repuglicons straight across the board, who, as a few demoncrates too, support the CRIMINAL escape of the bushmob through threats against the innocent LOVED by GOD ALMIGHTY. A REAL GOD with A REAL SON. McCain has got to go. Please, I, The Son of Man, the MAN of men, beg and plead again to all able bodied persons, see the thieving bushite zionist, kill it to defend Christ, kill it to defend America, kill it to defend any or all children of LIFE. Kill it with the honor and courage every REAL PATRIOT has to defend his own family my friend, lastly, kill it for me. These naked LIAR enemies who bank to thieve more from Iraq, Afghanistan and America, must be brought down by Humanity's ultimate triumph over tyranny through Law. A just law, where those accused without any evidence are Innocent, and WORTHY yOur defenses. Get to it.

Kill any bushite bomber and be loved by God's America.

Lt. Denton to the completely innocent as god loving
'You die, you die, you die'

Lt. Denton must die. We apparently have him on video blowing up People not guilty of anything. He shall die as the dope pushing cop killer he is, and we'll use his brief existence as a beneficial measurement to determine, which other demonic bushite soldiers, who as bonafide 'evil doers', disagree with such Just action - be put to death for our Freedoms also. Death to the zionist bushite enemy forces

/ / After it was revealed by the Plaid Cymru MP Adam Price that British trained policemen had tortured prisoners to death with drills, we discovered, through the New York Times (!!), that American intelligence officers had been working alongside them at the Jamiyat police station \ \

Death to the zionist bushite enemy forces, death to the ungodly enemies of Man who torture innocent people to death for fun - expecting Johnny's America will not raise a word in defense for the Human race, or our guns to defend our loyal brothers to the cause of Justice. Death to the bushite, death to God's enemies who lie cheat and steal from Humanity to assist in the escape of those responsible for 911.

BASELESS?

/ / Prime Minister Stephen Harper "We will conclude a formal agreement so that we never again face these baseless allegations," he said. Thirty Afghan detainees have claimed they were beaten, whipped, given electric shocks and denied food once they were transferred to Afghan security forces by the Canadian military \ \

These demons who war for ZIONIST censorship are a bunch a dope pushing cop killers, who murder innocent people they call 'Taliban' better known as in Arabic - students.

-

Proudly kill the bushite who would drop from the sky,SEVEN MILLION landmines on our cities to kill our children for decades indiscriminately, while offering our Humanity to God no apologies. Proudly kill the bushite savages all to desperately survive ourselves creating a better world through fair, free market communications. To warring for Liberty as true Freedom wills, is for Justice understood as measured, not just made up out of nowhere for the pleasures of those truly Satanic. So spoke the King of being the wisdom we here revealed by statement of timeless fact. Good will triumph over evil. That's that.

Bushite War LIFE Itself - and - They Couldn't Care Less

'Alpha company patrols the poppy fields.'
20070420_taliban28.mp3 (pbs broadcast)

"About the poppy harvest, currently gathering pace all around them, they couldn't care less." Instead they kill unarmed innocent people indiscriminately as enemies to ALL HUMAN LIFE.

They Couldn't Care Less

The 82 Airborne, in assisting in defending the world wide distribution and production of heroin, tells of murdering innocent farmers, that would never raise a gun in anger, are those they openly confess to target for first degree murder as labeled the, second tier Taliban. That's when not defending American Pension thiever ENRON'S pipeline managed under their extremist Muslim fundamentalist regime of intolerance for public communications, as the continuing thieving of 80 percent the Humanitarian Aid given by Canada to feed the STARVING, and school our children of the impoverished Afghanistan, as so reported. Eighty percent. 80. 80 percent stolen. I'm telling YOU: CBC couldn't care less about what Canadian soldiers are actually dying as COWARDS for: "Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime" CBC national radio management needs to be arrested in Canada for high TREASON. Please, be a Patriot, and demand these zionists allow open communication with the facts to save the lives of Canadians soldiers they hold in contempt to die as the bad guys committed to no better good.

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Lawless mercenaries are not granted by our will to survive truly. A "lawless" enemy granted "immunity" by bushite evil phonies, is that of which, holds ourselves in their confessed contempt for Justice. Receive thanks from everyone, GOD included, by rightly destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all

done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?"

MSNBC told YOU when interviewing Tom Daschle in discussion of the official public contention, that immediately after the terrorist act of 9/11 in New York City, (where thousands of American People were murdered,) bush and cheney frantically, desperately, INTENTIONALLY, worked paid overtime to close 9/11 (the justice-freedom thing) Investigations on who or whom planned to get away un-apprehended with the still living as freely wealthy General Ahmad. \ \

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. Each day we hear of near hundreds of US murdered by the godless Satanic THEIVING "American" forces in Iraq. without near a peep of concern by "America". Lawless bushite mercenaries torture rape and murder, paid to do so by the WILLING American tax payer, and near 300 million "People" (the NAZIS) can't find the effort to pick up a princely phone and call the ENEMY pro child killer George Norry, (who broadcasts every day across America nationally for the IRRATIONAL neocons,) to air any real concern for our Lives. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. So, get to it fukhead, JOHN is growing angry with americans of EVIL ignoramuses escaping the bushmob for crimes against MY HUMANITY. The Son

of Man States: Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the further criminal escape of the ungodly bushmob for 911 as TRAITORS.

Loyal bushie McCain as bona-fide nazi savage "Bomb bomb bomb Iran.."

Reporter 'Mr. McCain, you demon liar nazi fu-ker, don't you think your being insensitive to innocent god loving Iranians?'

Pro-Torture of INNOCENT PEOPLE McCain "Insensitive to what? The Iranians? My response is lighten up and get a life."

Johnny America Lyrics: "Can't an American PROUDLY kill TRAITOR pro-torture Zionist McCain for the Love of living Life Justly, as Freedom was Country?"

Investigating the Investigation

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?" \ \

PRO-TORTURE Gonzales "I quite frankly don't like the idea of the Judiciary deciding who is on my staff." [at Justice]

PRO-TORTURE Gonzales "I did not make decisions about who should or should not be asked to resign." [in mid-term]

As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of

godless bushite dumfuk traitors obscening to God and Man as
the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously
kill this lawless bushite enemy and his demonic ilk, for our
love of girls everywhere? Or, how about the UNARRESTED
soldiers we witnessed on video beat shoeless children
pratically to death while laughing and cheering? Or like
those that speak zero defenses for Haditha's confessed MASS
MURDERING irrational women and child killers? The REAL demons
CONFESS to going into a house, WITHOUT reasoned approach, and
slaughtering an entire INNOCENT family.. for nothing but
their lifeless SATANIC pleasures. The 'cause'? "The [mass
murdered unarmed innocent neighbor's] back door was open.."
To, for God, gloriously, with love, kill these unarrested
murderous continuing ungodly bushite nazis, is to war the TRUE
enemies of Humanity to save the lives of our precious loved
ones. \ \

Art Bell, "the thief", is really fuking evil to GOD as America..
being a blatant naked LIAR to the American Patriot Warriors

Death to the bushite, death to our MURDEROUS enemies, who lie
cheat and steal to assist in the criminal escape of the
bushmob for 911 as CLEARLY TRAITORS, so says the one and only,

pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending

with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real

Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / The Mujahideen aren't students of power and don't compete for power like others do. We are students of truth and work for establishing this truth and for this cause we sacrifice our power \ \

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

US officer "upset" Iraqi suspects taken alive, court hears

/ / A US military officer sounded "pretty mad and upset" that
a group of soldiers had taken suspected Iraqi insurgents alive
during a raid in which they had been told to kill all military-aged
males, a court was told Tuesday. \ \

Come on now, who wouldn't take great joy in destroying any and
all such ungodly bushite hatred for Humanity in this light of
day, eh? In fact,why don't American Congessmen, who believe
in defending Liberty, campaign JUST that? Why not??? Is it
because they're LIARS?

Like Coast to Coast's fun guy, he ain't taking our screams,
George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated
authority through defending the further 'escape' of the
bushmob for 911.

/ / As a result, the Defense Department put up a Web site in
2005 designed to clarify [to the dumfuk bushite demon liars]
that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of
bushite rapists though, so has worked to deny Justice for
female grunts by denying all requests to the 'Pentagon' from
American Police Departments. [and you thought he was fired!]
Why? because, they, the very weakest intellectually of
America's - do what they're told teen kids, ALL don't have
rights anyone in bushite corporate america is willingly strong
enough as a dedicated Leader to speak in demanding defense of,
for innocence.. Why? because they soullessly advocate
continuing bushite war crimes for a stolen dollar. Stuck that
way apparently. Support my rise to speaking publicly for open
challenge on the rights and privileges of all concerned
parties. Rapists and torturers must not be allowed to rule
our pirated authority through defending the further 'escape'
of the bushmob for 911. I would like to form a global posse
of sleuthers to identify on international open line radio, all
guilty INDIVIDUAL parties by evidenced conclusion on our
highest of priority issues, and get started with the nothing
to hide from anyone global arrests, with PUBLIC court
proceedings, done all for our public interest as the refusing
to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush:
"If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win."
http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating

bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of Man doesn't have to wipe out the entire human race after all.. With Bush co-operating now, I personally believe, no, I know, we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of Humanity to be gloriously publicly executed to defend the innocent lives, they once again, have indiscriminately murdered in Afghanistan without a sliver of evidence, but for to say, some dumfuk had a 'rumor' that a single individual SUSPECTED to be an anti-heroin pro-child defending Taliban supporter, granted the bombers of NATO to wipe out an entire village MURDERED indiscriminately by the TRUE demonic enemies of LIFE. Please, if you must forsake me in your personal cowardice and self loathing, don't forsake GOD and America by not killing with PRIDE, these bushite dumfuks of NATO the first chances you get. Love liberty as if it were your own, and kill a lawlessly murderous bushite nazi savage for your love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book is out there? Don't miss out on picking up a copy for yourself, or your loved ones. And did you know, I'm trying to get on international radio without a censor to thunder my audience back into submission. I HATE HANNITY. All I want is free open debate to resolve this crisis, that doesn't have to be so ruining our dying worlds without questions forwarded by the dumfuks. Justice is Paramount through reason to be so. The Bush Administration have been up to no good, escaping for

911, that New York City should sue for. Hire me on as legal consultant buddies, cause I'm like near starving broke here, with supreme court challenges failing my cost factor, and hunger pangs slowing our progress on fighting unjust incarceration. I desperately need money, like now, as a gift, or an advance on a industry paid private consultant gig. Or, instead, maybe you'll idly watch some innocent person willfully be sent to prison by liars in your demonized name, to defend the ungodly evils of war criminal traitor, our Mr. Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the
government building destroyed by the Oklahoma bomb has called
for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest
of those who told America the victim committed suicide, when
clearly, due to autopsy photos, the individual was tortured to
death as the innocent. So, the 'officers' responsible for the
fraudulent claims, need to be arrested for accessories to
MURDER. The torture will earn them both the death sentence,

if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Get it done brother.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the

unrepresented poor, actually ends costing EVERYONE more.
[read "Stand Together, or Don't"] You don't know Evil until
you hear CJOB's radio host pontificating on it's greatness to
deny our community any time to respond to their direct
criminality against OUR interests. A near 75 percent of Our
radio content is private commercials, while the rest of twenty
percent is amateur sport updates. Why don't the strangely
often fat slob sports fanatics go away on their own as blood
sucking leeches, and stop denying us more serious subject
meters with 'we're just too dumb to hear' censorships. In
Winnipeg, it is a teensy, tiny authoritarian illiterate group
of sports crowers, that the station has devoted the Province
entirely to for private financial profit. And so, what is
someone in Selkirk Manitoba going to do with the play by play
radio commentary?, not listen like everyone in Winnipeg does
since, that's what. I personally can't even bare the wasted

ENTERTAINERS, let me be your manager's Manager instead, and
I'll get you every last penny your fans paid to see YOU with.
I could practically double your earned earnings, or, are you
instead going to blindly give HALF your life to a scalper,
who's done nothing creative but hire someone near minimum
wage to press a print button religiously. I'll tell you what,
we just won't do any more good shows until we can get this

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly
advocates the rape and murder of the innocent in Iraq to
thieve from for the 'escaping' neocons, (as the truly
UNGODLY,) stated these words about why American Soldiers
continue to lawlessly DIE sacrificed for no better good or
reason understood, as total willing dumfuks under deep
hypnosis:

"It is not George Bush, it is not the Neocons, it is not
people who have been advocating waging that [IRRATIONAL 'Evil'
UNJUST] war [against the established innocent] where we find
our [hidden from view] enemies, who are responsible for that
fact that we are indeed in a global war [sacrificing our
conned kids to the un-accountable war profiteering thieves of
American labor as the UNELECTED]. It *is* the enemy that
started it, that is pursuing it, and that is trying to bring
it here back here home now. [, and that way, us neocon
zionists would miserably fail against those who would speak in
freedom's demand for Universal Justice. Real freedom I mean
of course, you know, evidence to form conclusion factually,
public trial by questioning juries, blah blah blah. We can't
have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US.
Either Gaffney suffers from some blind dolt syndrome, where he
clearly can't see himself flailing madly in criminal
ignorance, or he's an accomplis of blatant treachery, to help
escape his demonic war profiteering benefactors who murdered
thousands of Americans for similar gains through the
unspeakable bonanza of the "Pearle Harbor" like event that 911
was. What the peenackers publicly stressed they would crave
to fool US into Iraq and beyond as glorified war criminals.
911, New York City, where thousands of Americans were
murdered, and millions polluted. killed like now American
teen soldiers with the Iraqis. Led by a Sattler, or Mattis,
Blount or Russell, who order the murder of women and children
openly, and 'they', the actual soulless minions of the demon

antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like

the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal

of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

CONTACT

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Now if YOUR boss lied to you, and put YOU out on the line, so that you can get KILLED, what would you do? You know, your certainly not going to walk out there... and this is what [Patriot] Aaron is saying, hey look Our Commander lied, and he's lying to the People. and We, the Soldiers, can not go out there and put OUR lives at risk for the oil-barons."

..by enforcing the irrationalities of 'who needs evidence' tyranny against the innocent as America Dreams. [I shouldn't have to tell you anyway, but, freedoms are crying due to The People's in-action to defend US innocent. And we wonder why repuglicons put themselves greater than our, no greater Taliban.. Corporate News Americans who are, in silence, not taking sides regarding American Women, [MY BABES], acquiescing to accept these mercury vaccines without filling questions. Without QUESTIONS! Your Loves, my Loves, God's Loves. Support my calls to be heard yourself. If your a Male, and confusedly dumbfounded as I am on the mystery, just think of

yourself perhaps as a, free as a bird lesbian with rights to be respected too - through the foolish spots with lost yourself cycles on who truly Masters our Universe slaveboy, [i know women can be intimidating. (especially.. the Black Widow and old re-runs of the Shirley Temple.)] and get US personally in the what is again, Our still hanging on international News already! We all can agree, we love women. Men? not so much. Let's go Coast to Coast man! On CNN! CBC!! FOXNEWS!!!

The Fight for Survival slog match between, Johnny 'just tying his shoes' America, and Warmonger Liar, Sean Hannity - televised World-Wide!!! With Cheerleaders, beer, pizza, and beer! YEAH WAY!!!

Who's with Me?

It has been reported that some special ops out of Britain are paying for terrorist attacks to happen in Iraq to insure more Americans give their lives in praise - as criminally sacrificed - to the demon antichrist, Our Mr. bush Jr.. All unjustly suffering because corporate news america cowardly refuse to defend freedom, by defending the truly innocent. Nor, will Coast to Coast allow me to speak on "American" radio. Let's change that. Will you make it so Commander?

Cause I'm ready.

-

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is

going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

We all know Iran has been trying to help Iraqis openly, so then, what does such willful contempt for your life grant this 'spokesman'? Or, how about when Bush stated Iranians in Iraq deserved to be murdered? (Later, the demon re-worded himself in attempt to conceal HIS true evil identity.)

Remember the Bathists actually warred to kill and won against al-CIA-duh forces that were caught hiding in Kurdish territory. Killed "bin Laden"/bushite forces! Now, bushite tell US Sunni is in kahoots with Laden. (In otherwords, Kill a cowardly enemy of Life bushite for America to defend Iraqis as a godly act.) Death to the bushite, death to our enemies.

If they're dropping 500lb bombs without knocking on the door

truly Satanic. Just obeying lawless orders to thieve from

Humanity as bushite for neocon zionist traitors of G-D doesn't fly in the big book. When anyone kills a bushite, all humanity benefits truly from the defense. You defend a real suffering God by ending a soulless bushite threat against our species.

Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt those who stole billions with ear-marks, Social Security, no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill it proudly for freedom, as an undying love for a real God and Humanity.

George Norry and Art Bell are enemies of American chances for survival of our dying teens. Traitors to God and Country George Norry and Art Bell are. They'll laugh, sing, and cheer while KILLING your CENSORED forsaken Son or Daughter, needlessly trapped sacrificing with the ungodly 'lawless' bushite zionist enemies, all before allowing any REAL Americans to SIMPLY discuss evidence as a requirement to convince ourselves of something. Norry, that demon fu-ker, has an endless supply of bush whore callers, that'll tell him, he doesn't have to read the news, read his email, or hear the screams of dying innocent murder victims. Sure, once a year, maybe, we'll get the Patriot popular Alex Jones, but he's too terrified of me as Puppet Master, or US, or talking about the NO CAUSE Iraq war, that Iran doesn't have an ability to create weapons grade uranium, or that General Ahmad funded 911's Atta.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is saying you care for the lives of the innocent a bush bitch nazi grunt freely confesses to targeting for murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi".
snpd

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity,

George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy

bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

How The Demon Bush Misled God's World

How Bush misled the world
http://www.theage.com.au/handheld/articles/2004/02/05/1075853996640.html

/ / Once the document was declassified after the war it became known that it contained 40 caveats - including 15 uses of "probably", all of which had been removed from the previously published version. Tenet further ingratiated himself by remaining silent about the OSP. "That's totally unacceptable for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON. Could it be any higher? Deliberately caught misleading whore-dumb Congress to wage his immoral neocon 'escape' with a unjustified criminal brutality against God as all of our Humanity. A great deal more than a million innocent people have been victims to the 'targeted' Zionist killings of the irrational bushite enemy. Lawless enemies to Creation, spreading their toxic waste who thieve, rape and murder without reprimand from corporate news america, shall, I pray daily, die justly in vengeances by the will of a real undying Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted killing of innocent children is fair game in their worlds, and as confessed, they 'got away' committing the same Satanic acts - going house to house in fallujah murdering more than two hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler. Bushite corporate america, has stated in silence, the bushite enemies of Haditha will never face public execution for such offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Let US demand open radio
communications on the mathimatical facts to save our own selves further victimhood to their personal contempt for the

true value of YOUR life. Thanks.

Can you help us speak this outrage to your local media outlets?

thanks again bud.

John's truth. Killing a THIEVING bushite is to save the lives of the innocent they target for murder. Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. A nation of fascist nazi cowards, who go silently to their graves in their support of torturing innocent people to death for the thieving EVIL bushite's pleasure.

Death to the godless bushite, death to America's lawless enemies.

Bushite Zionist atheists believe that I, as the Son of Man, Couldn't be anything but their worst nightmare. AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN,

10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy

documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

3.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

Daschle, "Did the vice president call you and urge you not to

contradicted Cheney: "Yes, he did, Tim, on Jan. 24, and then
on Jan. 28 the president himself at one of our breakfast

Two veteran FBI investigators say they were ordered to stop
investigations into a suspected terror cell linked to Osama
bin Laden's al Qaeda network and the Sept. 11 attacks...

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen
Mahmud Ahmad sought retirement after being superseded on
Monday, the truth is more shocking. Top sources confirmed
here on Tuesday that the general lost his job because of the
"evidence" India produced to show his links to one of the
suicide bombers that wrecked the World Trade Center. The U.S.
authorities sought his removal after confirming the fact that
$100,000 were wired to WTC hijacker Mohammed Atta from
Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of
General Mahmud [Ahmad]. Senior government sources have
confirmed that India contributed significantly to establishing
the link between the money transfer and the role played by the
dismissed ISI chief. While they did not provide details, they
said that Indian inputs, including [Omar Saeed's] mobile phone
number, helped the FBI in tracing and establishing the link."

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

The honorable Argentinean oil company Bridas' relationship can not be understated as the Bush Administration's primary motive on criminal invasion of Afghanistan to save his biggest corporate backers, the American pension thieving Enron.

Blix nor Elbaradei, nor Kofi, suggested, implied, or stated, that Iraq had failed to comply with the newest U.N. resolution: 1441.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . Well, not completely, for Bremer shipped 19 billion to Greenspan early on, then, hundreds of millions were sent back.

The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite

Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

Since I am representing myself on these particular criminal matters, Legal Aid is not required to lend assistance on the grounds that I'm not co-operating with the system as it operates through professional Barred representations. [I am eligible for walk in consultations but nothing of the sort of assistance I am requesting] Considering the complexity of my judicial matter, I would request legal assistance from the Court in these following areas.

/ / What is particularly disturbing is how the administration misused intelligence information to make its case for war and failed to plan competently for the postwar period. \ \

What seems even more disturbing, to me, and PBS' FRONTLINE, is that there was a "State" plan, the ORHA plan to prevent looting and carnage, but it was sabotaged by rumsfeld and franks, so the bushmob could try to make some sense of needlessly bombing the country for our labored dollars, while robbing the central bank and museum by mopping up the mess with the bodies of American Patriots still dying as da' dumfuks.

Bush signed the top secret war strategy, to ignore all relevant evidence for a crime that hadn't just yet taken place, on September 9th, 2001. [Jim at MSNBC] A top secret criminal plan to close inquiries carried out after the catalyst terror event of 911. The General who provided the no evidence argument to the Taliban at Bush's request, was found also responsible by the FBI for funding the same terrorist offence in question. A terrorist crime that the bushmob has taken a huge killing in GOD with. wAllah, George W. Bush is

the for real antichrist. No escaping it my friends, no escaping it. Fight for Freedom, or die a loser to bush's genius. Support me, or fail to recognize true wisdom when it speaks to you of need for desperate change to save your dying selves.

American soldiers are being terribly mislead by the Bush administration to undermine freedom for Americans, by suggesting an effective war strategy is to ignore all the 911 evidence, and go off instead to blindly blame bad Afghans or badder Iraqis, is an insult to all honorable police services. Services not left permanently perplexed by the onslaught of repeatedly ignoring the same consequences where more innocent people fall dead as bombing victims, while LIAR bushite continue to charge/thieve from both, you as an American, and me, a member of our victimized Humanity. You see, your demon liar has ruled that all the Peoples of Earth have no legal rights to exist freely in our public court rooms. Bad news that is for OUR dying America my friend. Support my call for an open dialog on returning a reason for believing, for Freedom is Justice, not a censored world ruled by puppet people in shadows without free will left un-accountable.

First satellite snaps of the noctilucent clouds

Glowing cloud When viewed from space, the mysterious luminescent clouds are known as Polar Mesospheric Clouds, or PMCs. AIM principal investigator James Russell III of Hampton University says the changes in the PMCs suggests a connection with global changes in the lower atmosphere, and could be an early warning that our environment is being altered

Eric is in the kill file with the other untouchables.

I haven't listened to them in a while. You could hear anything in the

The math is perfectly describing what is happening in the
course of time at an arbitrary location in the air or in the
medium inside the cochlea. Concerning the varying
amplitude it does a good job.
But does someone (here) actually know how our hearing
system interprets both indistinguishable(!) frequencies (or
even a within a small range rapidly varying frequency) and
how the resulting 'signal' is translated into what we call the
perception? Evidently the math given above doesn't
reckon with any hearing mechanism at all. Hence it cannot
rule out perceiving an average frequency.

For the rest I don't get your point on a varying period.
From a mathematical point of view the function

sin(pi * (f_2 + f_1) * t)

has a constant frequency of (f_2 + f_1)/2
and a constant period of 2/(f_2 + f_1).
This frequency is indeed the arithmetical average and
it is not affected by a multiplication of the function by
a relatively slow varying amplitude.

Apart from the mathematical support, I saw the average
frequency mentioned in several books on physics, unfortunately
without further enclosed proof (as far as I remember).
However, getting some empirical evidence should be a
rather easy piece of work.

Eric and I exchanged e-mails on a topic some months ago. It didn't
end well. And he got angry. I think over the fact that he invited me to
dinner to continue the conversation, and I declined. I rarely accept
such invitations. But I could be wrong about his anger. Certainly

wouldn't be the first time.

Nor would it be the first time someone told me I was full of shit.
Half a century in media, I've heard it before. I know, you're shocked.

Truth is, this is USENet. Nearly everyone gets into a pissing contest
with someone, eventually. Even you and I have had our moments. Nothing
dramatic, but not without friction. It happens. What matters is how you
deal with it. With the exception of what came from one member, here, I'd
not really say anything I've been on the short end of has been abuse.
And what Eric has said is about trivial.

He's also been one of the more technically informed members of the
group, petulant though he can be, so an outburst or two is easy to
overlook.

"NotMe" <me@privacy.net> hath wroth:

(Please learn to trim quotations)

>Actually the human ear can detect a beat note down to a few cycles.

No, you cannot. Figure on 20Hz to 20KHz for human hearing:
<http://hypertextbook.com/facts/2003/ChrisDAmbrose.shtml>

What happens when you zero beat something is that your brain is
filling in the missing frequencies. As you tune across the frequency,
and the beat note goes down in frequency, most people overshoot to the
other side, and then compensate by splitting the different. As you
approach zero beat, your perception of the sound drops. If the lack
of hearing below 20Hz doesn't make it disappear, the frequency rolloff
in the audio amplifier stages will probably also drop off at about
20-300Hz depending on whether it's a hi-fi or communications radio. I
have a home made DC coupled hi-fi and can see the speaker moving in
and out slowly at very low frequencies. I don't hear a thing.

However, you don't have to hear it to detect infrasonic sounds.
<http://en.wikipedia.org/wiki/Infrasound>
Your inner ear, which is responsible for your sense of balance, can do
that for you. You don't actually hear the tone, but your body
certainly responds to it. Depending on frequency and level, tones
below about 20Hz will bring on confusion, nausia, disorientation, and
all manner of sensory anomalies. It's been used for effects in music,
sound tracks, and military weapon systems. I've experienced the
effects personally and can assure you that it was not pleasant.

Many years ago, I was on an internal UK flight, sitting right up at the front of the plane. A guy sat down next to me but, of course, being British, we only exchanged the most cursory of initial acknowledgements, and didn't speak again.

However, well into the flight, he suddenly turned to me, and said "It's true what they say".

Taken somewhat aback, I said "Sorry? I'm not quite with you".

"You normally hear them before you see them", he replied.

He was, of course, referring to a particularly loud American gentleman, who must have been about 15 rows back, talking so loudly that he was probably heard 30,000 feet below, on the ground.

We didn't speak again (of course), but I've never forgotten what he said to me.

One of the times when I was in N'Awlins, (New Orleans) in 1971, I saw an ad in a newspaper about a restored 1955 MG car for sale.I phoned the guy and I drove over there to check the car out.We went riding.The car was quiet enough, but when he talked, it was like he was hollering at the top of his lungs.Turns out he worked off shore on an oil rig.Most Americans are not loud and brash and loud talking no more so than other people around the World.I always keep my radio and tv turned down low and I don't holler at people unless it's a situation where/when I would need to holler.I am really a quite dude and so are all of the people I know around here.

No, Peter, this is different. That discussion was a symptom, not the problem.

With my newsreader, along with killfiles, I can flag certain users as "must read" posts. Brenda-Ann and Pete G are must read posters. You were also in that group.

But when you started insulting or responding to the insults from our surly northern neighbors, or started discussing global warning issues, or stopped being the polite poster you used to be -- ESPECIALLY the latter -- you came off that list.

But don't take my word for it -- use Google to look up your posting history from, say, five years ago and read your posts. Compare them to your writing style today. HFguy is right -- you have changed, for the worse.

You may think I was being insulting when I said, see your doctor. I was not; I was quite serious. Either something obvious has happened to your life to abruptly change your personality, or something more subtle is going on. Since you claim you haven't changed, I'm betting on the latter, and suggest you get checked out. I've seen too many people change from head injuries or minor strokes to play games with that.

Yes, I can be petulant. Guilty as charged. I try not to be, but it
is in my nature.

As for Telamon... ironically, he just came OUT of my killfile because
he stopped posting his racist posts here to r.r.s. However, his "I'm
killfiling you because your OT and only I'm allowed to go OT" wears
thin after a while.

The Tenderloin is south of Nob Hill and north of Civic Center. It has

where you can make so much in bribes from illicit and other easily
shakedownable businesses that you can have tenderloin for dinner every

No, you've got it all wrong. The beat note happens because, when the signals are close to 180 degrees out of phase, they cancel out such that there is, in fact, no sound. This is what your ear detects. Now, if you're zero-beating, say, 400 Hz against 401 Hz, I don't know if the 801 Hz component is audible or if it's even really there, but mathematically, it kinda has to, doesn't it?

"Heckuva job, Zeke!".

Ok, I'll bite. I think you'll find that if you actually do that with
a non-distorting audio mixer[1], and look at an oscilloscope, you'll
see the 1Hz envelope, but the 400 and 401 Hz tones will still be
there. Same on a spectrum analyzer, where the two carriers (400/401)
are still there. If they're there, you'll hear them. The tones may
be going up and down once per second (1Hz), but you'll still hear
tones in between. No way are they going to disappear with a 1Hz
separation. However, if they're exactly on the same frequency, and
exactly 180 degrees otto phase, they will cancel.

The zero beat example I offered is more a psychology problem than
acoustics or hearing. Our ears and brain expect the sweep through
zero beat to be continuous, that we fill in the missing frequencies.
It's really apparent in ham radio, where tuning across carriers is a
common event. I've watched how people do it, and noticed that they

always overshoot and come back to the perceived center. If you ask them to nail the frequency to within 10Hz without overshooting, they usually have a difficult time.

The IRA used to say something like "They have to be lucky all the
time; we only have to be lucky once." So the cops can prevent any
number of terror attacks but one may still succeed.

Also, getting rid of Sadaam Hussein has not at all made us safer.
Sadaam may have been a nasty bit of work, and he may have persecuted
Shi'ites, an action of which Al-Qaeda would have greatly approved,
but, except when it might be useful, Sadaam considered Al-Qaeda types
to be a threat to his rule to be mercilessly supressed. Sadaam may
have made Islamic noises but his real object of worship were those big
idols of himself.

** U S A. CW stations to rise from the dead --- OK, maybe a little off-topic, but interesting nonetheless; some silent coastal CW stations are going to return to the air beginning tomorrow and they want reception reports: http://www.eham.net/articles/17064
(Harry Helms, W5HLH, Smithville, TX EL19, July 11, ABDX via DXLD) Viz.:

Night of the Living (Commercial) CW:
from Brian D. Smith, W9IND (ex-WO9I, KA9OIH, WN9ICB) on July 11, 2007
View comments about this article!

The last commercial CW station fell silent in 1999, but once a year, several of them fire up their vintage equipment for a one-night return to the airwaves.

The eighth annual "Night of Nights" will begin at 0001 UTC July 13 -- which, in the continental United States, is the afternoon/evening of Thursday, July 12.

CW transmissions will continue until at least 0700 UTC July 13, and the stations will issue QSLs to those who submit valid reception reports. Scheduled participants include such time-honored stations as KPH, WLO, KFS (returning to the air) and NMN (participating for the first time since the U.S. Coast Guard ended the use of Morse code).

Although "Night of Nights" is traditionally an SWL event, this year the commercial stations will be joined by K6KPH, representing the Radio Maritime Historical Society. Manned by professional operators, K6KPH will accept reception reports for KPH, KFS and KSM. But the Society encourages all hams to work the station: "(P)lease don't hesitate to call, no matter what your code speed or experience level may be."

Incidentally, the stations prefer reports expressed as QSA/QRK or SINPO/SINFO, since RST is "frowned upon," according to the Society.

For fans of CW and/or radio history, this is the real deal -- a chance to obtain QSL cards from stations that are essentially returning from the dead. For many hams, these stations provided a daily source of code practice, thanks to their constantly repeating messages and perfectly spaced characters.

No, It doesn't have to be there (the 801 Hz frequency). If your method of 'beating' two signals together is by adding them, then there is no 801 Hz tone, only the 400 and 401 Hz tones.

With two function generators and a spectrum analyzer you can see this.

With a scope, you can see that the zero crossings in the summation occur at a 400.5 Hz rate.

This is exactly what the trig identity earlier in the thread indicates.

If your method of beating is via multiplication, then there will be 0, 400, 401 and 801 Hz signals present (assuming the mixer is not balanced).

When you are discussing 'beating' two signals together you need to indicate whether you are adding or multiplying the signals. The results are different.

If you are multiplying two signals to find a zero beat with your ear, that is difficult as you will be trying to hear tones less than 20 Hz.

If you are adding two signals to find a zero beat, that is easy because you are listening to a tone that is at the average frequency. In the above example, at 400.5 Hz.

when it comes to Marijuana Usage, but Ranks First (# 1)
among Industrialized Nations, according to the 2007 World
Drug Report.
* About 16.8 percent of Canadians ages 15 to 64 light up, compared
to
12.6 percent of Americans in the same age bracket, according to the
report.
* Canada's usage is about four times the worldwide average of
3.8 percent, while the United States' usage is about three times the
average.

Mike (M II) - This should be considered High Praise
{pun intended} ~ RHF

There are Numbers -and- THERE ARE NUMB3RS :

* With a Population of 30 Million and a Rate of 17%
would mean that Canada has about 5.1 Million
Marijuana Users.

* While with a Population of 300 Million and a Rate of
13% would mean that the USA has about 39 Million
Marijuana Users.

* Wow Hi De Ho ! - There are more Marijuana Users in
the USA the their are Canadians in Canada : About
6.5 times as many in the USA as in Canada.

Once Again America is a World Leader and a Global

OBSTRUCTING JUSTICE FOR AMERICA

Tony Snow "The executive branch is under no compulsion to testify to Congress because Congress, in fact, doesn't have oversight abilities."

IT LOOKS like they are going to attempt making the move of BLATANTLY TREASONOUS war criminals acting to measurably now destroy yOur Freedoms in godless America. The Satanic neocon's 'faith', is in that YOU as an American, will watch the same corporate drivel that offers next to nothing to empower YOURSELF to speak Justly for a dying America. Instead of demanding 24 hour, wall to wall news coverage, of war criminals going down one by one by the will of Man to Justice, CNN, CBC, and FOXNEWS will broadcast your blind 'belief' that you are only a impartial viewer, who doesn't really care about dying right in front of yourself for the zionist's riches, and great worldly power of tyranny through lawless nazi bushite censorship.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

MY government? Now that's entitlement. And you thought George Bush didn't have a vision for America \ \

/ / The [BUSHITE ENEMY] US has said it would refuse any request by Italy to extradite the accused [satanic bushite torturers of completely INNOCENT PEOPLE]. \ \

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism,

persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life on Earth, sacrificed in cowardice to the real demon antichrist, and see if we, the true, strong, and free, care. The Son of Man SCREAMS before coming home to GOD'S America: We are coming to destroy Satanically lawless bushite enemies, all for the love of God, we shall succeed my friends, we shall succeed. I will not willingly live in a forsaken world with LIAR zionist war criminals conning US to believe, God is not Great, True, Strong and Just.

Die bushite die!

Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. Hillary "[DEMON] Bush pulled out the inspectors."
[DEMON] Bush declared, "and he wouldn't let them in."

In Hell

Firstly, the White house doctored the NIE in an act of HIGH TREASON.

Two:

CNN with Hillary acknowledges that the demon Mr. Bush pulled inspectors out of Iraq, but then... how is this not HELL to pay?

/ / Bush declared, "and he wouldn't let them in. And, therefore, after a reasonable request, we decided to remove him from power." \ \ HE LIED. Not the 'NWO', George Walker Bush, who Alex Jones tells US to look away, because he's only a puppet. Should not Bush be held accountable to the criminal actions he is PERSONALLY responsible for Christ asks YOU?

/ / So, there was indeed no imminent threat posed by Saddam to Amerka, and inspectors had complete unrestricted access throughout Iraq without delay prior to the, bush demon's further war crimes. So, what was the reason for all the pointless mass murder and destruction again? Oh right.. to sacrifice American soldiers so terrorist bush's war profiteering can feed off themselves as family without leadership present as spoken for.[...] it's only the dummy American People bid payers again left unaccounted to DIE intentionally. \ \

Neocon Soldier

Bushites who war as the neocon enemies, war for the 911 perpetrators to escape American Justice. that is why I, as of GOD, cheer to hear the deaths of these pro torture, pro theft, pro Satanic enemies of Man. They confess freely to targeting

INNOCENT People for murder.

The Haditha perpetrators, if convicted, are looking at serving, maybe, a couple of years, for freely confessing to the targeting MURDER, of innocent women, men, and infants.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man. - The Son of Man, as the Man of Men,

CBC and CNN with FOXNews Calls him Al Qaeda, but his Jewish Father calls him Adam Pearlman, a godless enemy zionist, A thieving NAZI liar who hates freedom, who wants to kill INNOCENT Americans for his NEVER ELECTED neocon pro war buddies. Did we mention torture? See? The zionist KNOWS its OUR enemy. An enemy of Humanity, who counts that YOU personally will not phone Coast to Coast radio hosts to allow open line FREE communications. PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? I do, that they recognize that the death of innocent people could shake our will," the President explained. \ \

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Our Mr. Bush Jnr. "The war is for you or for us [neoCONS] to win. If we [neoCONS] win it, it means your defeat and disgrace forever."

Die bushite die.

Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

McCain is some kinda demon enemy of God isn't he? Support Johnny's call to demand open debate without censorship from the magic radio and TV execs, who hide in darkness, pretending to be our friends, while refusing intelligent dialog to answer any of our big troubles easily. The fittest Ideas that rule this Universe, are the simplest, most easy to understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite thieving murderous military, by the likely ton full to attack our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist demon enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite enemy and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children pratically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons

CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones. \ \

Art Bell, "the thief", is really fuking evil to GOD as America.. being a blatant naked LIAR to the American Patriot Warriors

Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the criminal escape of the bushmob for 911 as CLEARLY TRAITORS, so says the one and only,

Bush Won't Turn Over Emails Until White House 'Reviews' Them
http://www.commondreams.org/archive/2007/04/18/596/

/ / Bush and the RNC should be immediately sued. There are no sustainable Executive Privilege arguments here: the emails were already sent over a NON-GOVERNMENTAL email system. In other words, if sensitive/classified information was sent over this system it would be a felony and impeachable. Any official information sent over this RNC email system would also be a violation of the Presidential Records Act. \ \

It's like a catch 22..

So, the demon liar bush tells US, the terrorists would rather travel to Iraq to kill Americans indiscriminately, than come directly to America from wherever instead, to kill anyone who silently supports the indiscriminate murder of our humanity.

CHRIST HATES the godless bushite nazi THIEVES, who by LYING, murder our loved INNOCENT family members, all to steal our good names in God. Death to the bushite, death to our enemies. See the bushite, you kill it for Christ, you kill it for America, you kill it to defend Yourself.

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun,
paid for by the silent American tax payer. Americans refuses
to bother making a simple phone call to Coast to Coast to
raise some concern. THEY don't. They refuse to hunt bushite
down in their streets for death to defend the innocent held
indefinitely against GOD'S will. Death to the bushite, death
to Johnny's godless, lawless, fascist enemies of FREEDOM.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in

pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll

tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / The Mujahideen aren't students of power and don't compete for power like others do. We are students of truth and work for establishing this truth and for this cause we sacrifice our power \ \

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911.

/ / As a result, the Defense Department put up a Web site in 2005 designed to clarify [to the dumfuk bushite demon liars] that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of bushite rapists though, so has worked to deny Justice for female grunts by denying all requests to the 'Pentagon' from American Police Departments. [and you thought he was fired!] Why? because, they, the very weakest intellectually of America's - do what they're told teen kids, ALL don't have rights anyone in bushite corporate america is willingly strong enough as a dedicated Leader to speak in demanding defense of, for innocence.. Why? because they soullessly advocate continuing bushite war crimes for a stolen dollar. Stuck that way apparently. Support my rise to speaking publicly for open challenge on the rights and privileges of all concerned parties. Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911. I would like to form a global posse of sleuthers to identify on international open line radio, all guilty INDIVIDUAL parties by evidenced conclusion on our highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to

say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

Did you know Blair had arrested the reporters who reported this initially? Didn't think of defending children, no sir. For, the commentator, who gives the play by play, while masturbating, has been given forgivence because it's an heroic "Christian". Not publicly executed. This must change for the

better. Here is where I will make my final stand, and where heaven shall part from hell in America.

ARE YOU TALKING TO ME?

George W. Bush:

"If the absence of violence is victory, no one will ever win."

But for those of us who would believe protection to be a heavenly good thing actually he means? What the. does he mean?? Find out!, in the new candid, let's talk politics interview, with no other than, PRESIDENT GEORGE W. BUSH. (talk about having connections!) Have your mind blown on his TRUE wisdom, seldom since ever, so wisely articulated in a more private setting, than this: The Story of the Millennium.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of

Man doesn't have to wipe out the entire human race after all..
With Bush co-operating now, I personally believe, no, I know,
we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of
Humanity to be gloriously publicly executed to defend the
innocent lives, they once again, have indiscriminately
murdered in Afghanistan without a sliver of evidence, but for
to say, some dumfuk had a 'rumor' that a single individual
SUSPECTED to be an anti-heroin pro-child defending Taliban
supporter, granted the bombers of NATO to wipe out an entire
village MURDERED indiscriminately by the TRUE demonic enemies
of LIFE. Please, if you must forsake me in your personal
cowardice and self loathing, don't forsake GOD and America by
not killing with PRIDE, these bushite dumfuks of NATO the
first chances you get. Love liberty as if it were your own,
and kill a lawlessly murderous bushite nazi savage for your
love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was
told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book
is out there? Don't miss out on picking up a copy for
yourself, or your loved ones. And did you know, I'm trying to
get on international radio without a censor to thunder my
audience back into submission. I HATE HANNITY. All I want is
free open debate to resolve this crisis, that doesn't have to
be so ruining our dying worlds without questions forwarded by
the dumfuks. Justice is Paramount through reason to be so.
The Bush Administration have been up to no good, escaping for
911, that New York City should sue for. Hire me on as legal
consultant buddies, cause I'm like near starving broke here,
with supreme court challenges failing my cost factor, and
hunger pangs slowing our progress on fighting unjust
incarceration. I desperately need money, like now, as a gift,
or an advance on a industry paid private consultant gig. Or,
instead, maybe you'll idly watch some innocent person
willfully be sent to prison by liars in your demonized name,
to defend the ungodly evils of war criminal traitor, our Mr.
Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

P.S. someone tell Hannity, I got a beef with his demon lies to sacrifice our guys. I'm calling Hannity out to explain himself freely to US now, as a demand for an immediate match between him and ourselves in the dug pit of his utter contempt for our free to be alive communications.

'A military judge ruled last week that Watada cannot base his defense on the war's legality.'

/ / 'Why are you taking pictures? You don't have permission."' [...] the [bush whore] American, speaking through a translator, warned him that he did not want to see any AP photos published anywhere.\ \

No bushite was found gloriously killed for country, yet, they, the godless bushite enemy, continued to shoot innocent People indiscriminately for a distance of six miles, while likely, secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent un-armed Afghans were counted as murdered deliberately, by those who believe our Mankind, can not ever find themselves accountable, without zionist controlled, corporate news permission. See? The military counts mankind as zionist, but I am a man of real men, committed to defend our world from all enemies, foreign, or domestic. Unlike a bushite traitor to God

and America, who's word, as Oath, means as much to them, as we do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from murder, (the innocent whom any pro-bush corporate professional hold in total self contempt,) you save REAL peoples lives, and you defend God's good name to love God as ourselves committed to true Liberty. Bushites are enemies of freedom, enemies of God, and worthy of death, before allowed to further bomb people indiscriminately like the commanders of NATO order day after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where

he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play

radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected

lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC,

CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and

South African death squad goons, all to war Love for the
neocon god haters. Who, as peenacking atheists, as their very
own documents stress, would murder anyone of US for a stolen
nickel.

My friends, People are dying because the magic radio and TV
wont broadcast our publicly available findings. Police
findings. People are dying needlessly, illegally,
irrationally like meaning really stupidly on Bush's behalf,
for they claim, we don't want to be 'embarrassing ourselves',
leaving our forsaken Johnny Wizard's Wild Wow World of Wonder
Wording Wees!.. mostly just appreciated by myself as sole
surprised spectator, because you people seem to not be there
for God when the chips are down, and truth is plain to see..
911 was an inside job, and CBC with CNN don't want to tell us
about it, but will watch our LOVED children lied to, to go out
and die further for a causeless war of criminality
unparalleled in it's wickedness.

Do you expect yourself to fail trying?

It's all up to You my friend, it's all up to you.

Onward Christian Soldier.

This is why the Son of Man through God begs the Peoples of
Humanity to kill on sight, the enemy bushite betrayers to
Life. Ourselves, the innocent. These soulless grunts don't
destroy such deserving commanders, Like Blount, Sattler,
Russell, Wuterich, Pantano or even Kimmitt, and instead, as in
Fallujah, murder every woman and child present, while stealing
all our given monies for desperate life saving help. Anyone
in the Air Force deserves to be justly put down, for, I've
NEVER seen any legitimate bombing campaign, but for to kill
People indiscriminately like NATO regularly does with
radio-active toxic waste, while then sending in the dumfuk
Marines, or the 'from the coast' Canadians, who of course,
rightly get killed on the ground in retaliation for such blind
evil stupidity. Please, I beg, help Iraqis, and kill the
bushite thieves to defend our forsaken God. American
children, help me my loves. Please don't allow the bushmob to
escape for the treasons against America on 911, for, bushites
are OPENLY traitors, as the TRUE enemies of evidenced Justice,
as the Freedom to do our own things loving God on our own.
Besides, most bushites aren't even registered American
citizens. Bushites need to be hunted down for destruction -
by the Loyal Christian American Patriot Soldier, the ones who
war to win against those who torture US innocent to death as
the ungodly Satanic LIAR enemies. Save the Humans, kill a
bushite false accusing traitor of American Freedom To-day, and
become a real Man in the presence of Johnny America, an actual
Man of Men, Lord of Lords, and King of Kings.

McCain is insane

/ / The proposal, which Sen. John McCain is planning to
introduce on Wednesday, also would require ISPs and perhaps
[!?!] some Web sites to alert the government of any illegal

images of real or "cartoon" minors. Failure to do would be punished by criminal penalties including fines of up to $300,000. [...]

What images must be reported? Illegal images of minors, which includes clothed teens in "lascivious" poses, according to the Justice Department. Obscene "cartoons" and "drawings" also qualify. (18 USC 1466A) \ \

Alert the USER! not tyrannical leaderless dumfuk thievers, for it is the expresser who, if any, that is guilty of a determined illegal expression. In 'The' Canadian case, they, (once proud IRRATIONAL bushiter THEIVES [pro Afghan child killers determined to help the ungodly demon Bush's 'escape' for 911]), want/HAVE to put MEN is prison for beautiful pictures of girls in panties, or bubble bathtubs being. IT IS demonization. Leaving twenty year olds to look like they could be tens in a singled out of context womanly derriere, that our Jurys nations-wide, are generally, denied to perceive normally, if at all. BANNED.

Sorry everybody, but that's the way it's gotta be for my Life to have meaning terms.] Long story short: Females Rule, and wiseguy Johnny is Freedom King for this moment Being.

Please help God.

We have to overhaul how all our national news Podcasts are assimilated through corporate nazi zionist censorship. Art Bell and George Norry are enemies to ALL american teen troops put in harms way to die as bad guy irrationally for the neocon God betrayers. Why? because they purposefully lie to have YOU die as innocent murder victim. Death to the bushite, death to God's enemies.

Be a friend if not an enemy,
Your buddy,

King Johnny

Well, gee, Iran has no nuke program, in anyway, shape, or form, but Israel wants to murder more of humanity for their ungodly lies anyway. The enriched uranium Iran is making, can not be used for a bomb because it's only enriched to 2 percent, and to get the bomb making stuff, you need a COMPLETELY different technology. But science?, in bushite

america? Nazi America would rather be nazi chauvinist pigs, before admitting the Son of Man exists, or to go to the trouble of phoning someone who refuses to take our public calls for Justice. What religion is this America?, where Human life has little of no value? And Johnny's love means nothing?

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

Great words from the lawyer of the thieving bushite child killers of
Haditha

If they're dropping 500lb bombs without knocking on the door

2000lbs of radio-active toxic waste that will murder for years
more like, while after, then striking again to get the god
helpers and screaming children, then even, as in Fallujah,
going house to house to murder every one, young and old as the
truly Satanic. Just obeying lawless orders to thieve from
Humanity as bushite for neocon zionist traitors of G-D doesn't
fly in the big book. When anyone kills a bushite, all
humanity benefits truly from the defense. You defend a real
suffering God by ending a soulless bushite threat against our
species.

the risks were of his various decisions.) \ \

Bushite TRAITORS got rid of the ORHA plan.

Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt
those who stole billions with ear-marks, Social Security,
no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the
emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People
like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill
it proudly for freedom, as an undying love for a real God and
Humanity.

another dumfuk, they hate US, zionist demon broadcast.
Traitors to God and Country George Norry and Art Bell are.
They'll laugh, sing, and cheer while KILLING your CENSORED
forsaken Son or Daughter, needlessly trapped sacrificing with
the ungodly 'lawless' bushite zionist enemies, all before
allowing any REAL Americans to SIMPLY discuss evidence as a

requirement to convince ourselves of something. Norry, that demon fu-ker, has an endless supply of bush whore callers, that'll tell him, he doesn't have to read the news, read his email, or hear the screams of dying innocent murder victims. Sure, once a year, maybe, we'll get the Patriot popular Alex Jones, but he's too terrified of me as Puppet Master, or US, or talking about the NO CAUSE Iraq war, that Iran doesn't have an ability to create weapons grade uranium, or that General Ahmad funded 911's Atta.
-

Real Americans are those of US as humanity that believe in liberty as Justice for all. In the new world, these soulless bomber bushite of the air force, responsible for blatant first degree acts of murder against the innocent, would be hunted down by Humans, tried, then executed gloriously in the defense of our living justly.

-

/ / Al-Maliki has promised he will no longer block action against the Mahdi Army militia \ \

So, is the block head saying American soldiers so far have died for lawless tyranny? Kill a bushite, to protect the lives of us as innocent victims in other words, right?

New Recruit

Destroying enemy bushite is a gift to Humanity, it is
saying you care for the lives of the innocent a bush
bitch nazi grunt freely confesses to targeting for
murder. Liars are the bushite, who steal Iraqi
resources, allow racists and rapists to commit their
demon crimes in America's name un-challenged, and who
absent mindedly bomb the innocent without just reason
given. All the while, labeling themselves, "pro-Iraqi".
snpd

Real Americans are those of US as humanity that believe
in liberty as Justice for all. Demon bushite nazi
whores, don't like those principles of freedom through
evidentiary findings though, for their false deity,

George W. bush Jr, wouldn't be stealing from the honest
hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful
suffering and fright and death at the hands of the enemy
bushite. The bushite: who the demon anti-Christ
states, are un-accountable to any rules of law in this
Universe, like with his extremely foolish criminal
decree, 13303. I kill mindless parasite bushite nazi
enemy soldiers just for that alone as eternal defender,
and I do it for to win some mercy for a real living God,
who the fascist enemy bushite hold in their ungodly
contempt as LIARS.

I have the backing of every real man alive on this
planet, and we all know it. No voices of reason have
apposed my factual claims in FREE Usenet, and Art Bell
makes no attempt to defend himself as internationally
painted enemy traitor, and that says a whole lot to Talk
America.

Through the pronounced bush demon's gaffes,
embarrassments, and told complete total ignorance on
subjects like the science of economics, the whys of
constitutional law, or when the bushite takes credit for
indiscriminate killing of our families and friends while
parading it's all done in bush's name for our freedom,
or for 9/11, doesn't fool me, and should get you
thinking about reaching for your guns too, for bushite
rapists and torturers will not walk this world freely

un-accountable, for as long as we remain alive to hunt
them down and kill them if so be. As the soulless
disciples of the enemy anti-Christ, Our Mr. bush Jr.,
their "officially" granted legal immunity from all
prosecution means nothing to me as a honorable man
defending my humanity, or as living Creator, who brought
all into this new world to be free, and can just as
soon, take you all nazi bushite out the old school way.

/ / Once the document was declassified after the war it became
known that it contained 40 caveats - including 15 uses of
"probably", all of which had been removed from the previously
published version. Tenet further ingratiated himself by
remaining silent about the OSP. "That's totally unacceptable
for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON.
Could it be any higher? Deliberately caught misleading
whore-dumb Congress to wage his immoral neocon 'escape' with a
unjustified criminal brutality against God as all of our
Humanity. A great deal more than a million innocent people
have been victims to the 'targeted' Zionist killings of the
irrational bushite enemy. Lawless enemies to Creation,
spreading their toxic waste who thieve, rape and murder
without reprimand from corporate news america, shall, I pray
daily, die justly in vengeances by the will of a real undying
Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted
killing of innocent children is fair game in their worlds, and
as confessed, they 'got away' committing the same Satanic acts
- going house to house in fallujah murdering more than two
hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler.
Bushite corporate america, has stated in silence, the bushite
enemies of Haditha will never face public execution for such
offences, YOU apparently WILL NOT GRANT IT, too cowardly, and
in all likelihood, (like those of the Saudi Blount's third
infantry) will be allowed to walk freely down american streets
after being found guilty as politically supporting the robbing
and murder of innocent men, women, and children all because
we're rag-heads or niggers. The, deserving to die as
illiterately intolerable bushite drone soldiers HAPPILY,
WITHOUT QUESTION, co-operate with ANY lawless mercenary forces
such as south african death squad goons in finding the enemies
of themselves. Purposelessly ungodly bushite soldiers are

told they are DYING to defend Iraqis, while breaking out of
prison, mercenaries caught trying to kill innocent Iraqis for
fun and profit. While, at the same time, actually having
SLAVES from India preparing their lunches!!! And guess what?
they're coming to live bushite america as the patriots after
they get killed you're forsaken American Son or Daughter teen!
With millions of stolen American dollars to set up new
'freedom' operations.

Let US demand open radio
communications on the mathimatical facts to save our own
selves further victimhood to their personal contempt for the
true value of YOUR life. Thanks.

Can you help us speak this outrage to your local media outlets?

thanks again bud.

- "The months preceding September 11 [see] a shifting of the
US military's focus ... Over several months beginning in

April [2001] a series of military and governmental policy documents [are] released that [seek] to legitimize the use of US military force in the pursuit of oil and gas." Michael Klare, an international security expert and author of Resource Wars, says the military has increasingly come to "define resource security as their primary mission." In April, Tommy Franks, the commander of US forces in the Persian Gulf/South Asia area, testifies to Congress in April that his command's key mission is "access to [the region's] energy resources." The next month US Central Command begins planning for war with Afghanistan, plans that are later used in the real war. [Sydney Morning Herald, 12/26/02]

See? It's admitted that the zionists planned to STEAL the rights of Afghans for Enron, by LYING to SOLDIERS to get them killed as the American Pension thieving bad guys. Too COWARDLY parasitic to hunt those responsible for murdering thousands of "Americans". So, as a consequence, they, as loveless bushite drones, die cowardly with the once great America as enemy corporate fascists to Freedom's Justice, Our Living God.

John's truth. Killing a THIEVING bushite is to save the lives of the innocent they target for murder. The cowardly bushite, dies sacrificed - all to help IT slavishly escape those responsible for 'getting away with' murdering thousands of Americans in New York City on 911. Sorry George W. Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. A nation of fascist nazi cowards, who go silently to their graves in their support of torturing innocent people to death for the thieving EVIL bushite's pleasure.

Death to the godless bushite, death to America's lawless enemies.

Bushite Zionist atheists believe that I, as the Son of Man, Couldn't be anything but their worst nightmare. No, WE, as Humanity, will religiously really kill bushite continuously to hasten the day when America actually fights to win, free communications for Justice's claim. General Ahmad funded 911's Atta.

Die bushite die. Die bushite die. die bushite die.

/ / We are reminded today of how far the Iraqi people have come since the end of Saddam Hussein's rule - and that the progress they have made would not have been possible without the continued service and sacrifice of our men and women in uniform. \ \

Progress? Fu-k don't you too hate bushite with everything YOU are? Iraqis had public health care, and University prior to the bushite stealing everything they could as sworn enemies to progress. Had a justice system that Bush never aired any concern regarding the evidence requirement to form our conclusions. kill a bushite and all day long you win God's praise as a bonafide, as honorable, freedom fighting liberator.

The demon enemy of America, Our Mr. bush Jr., responsible for 911, creates hope in God that honorable men of this Earth, will assist the Humans in hunting to kill bushite enemy terrorists who support torturing and thieving from US, the godly as innocent. Every time we hear of another bushite death, god celebrates OUR wins over the ungodly demon antichrist forces. Death to the bushite, death to our enemies who murder innocent people with LIES against America and GOD.

AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba
MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy

documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

Investigating the Investigation

http://www.alternet.org/story.html?StoryID=17816

After playing a tape of Cheney's statement, Russert asked
Daschle, "Did the vice president call you and urge you not to
investigate the events of Sept. 11?" Daschle flatly
contradicted Cheney: "Yes, he did, Tim, on Jan. 24, and then
on Jan. 28 the president himself at one of our breakfast
meetings repeated the request."

...."[T]hat request was made" by Cheney not only on Jan. 24
and by Mr. Bush four days later, but "on other dates
following" as well.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen
Mahmud Ahmad sought retirement after being superseded on
Monday, the truth is more shocking. Top sources confirmed
here on Tuesday that the general lost his job because of the
"evidence" India produced to show his links to one of the
suicide bombers that wrecked the World Trade Center. The U.S.

authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

" [FBI's] Edmonds concluded that documents clearly showed that the Sept. 11 hijackers were in the country and plotting to use airplanes as missiles. She said documents also included information relating to their financial activities. "

13.

The honorable Argentinean oil company Bridas' relationship can not be understated as the Bush Administration's primary motive on criminal invasion of Afghanistan to save his biggest corporate backers, the American pension thieving Enron.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . Well, not completely, for Bremer shipped 19 billion to Greenspan early on, then, hundreds of millions were sent back.

"To be truthful about it, there was no way we could have got the public consent to have suddenly launched a campaign on Afghanistan but for what happened on September 11..."

Tony Blair Speaking To House of Commons Liaison Committee

36.

The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

You DO have a selective memory, then. If you'll recall when a certain
debate coach was running rampant, here, painting everyone and everything
he came into contact with a racist, things got pretty heated. And I was
no saint.

Not then.

Nor when one tube vendor was hawking his wares for 10-15 times market value, here, and I mentioned that I'd been buying the same tubes by the same manufacturer for a fraction of his price and he shot back with a string of abuse did I politely tell him where to get off. I was pretty pointed.

And in the discussing with a member after that exchange things were mighty blunt on both sides.

Nor when one seller on the group offered up a radio as NIB, when he'd bought the thing from me, and I'd bought it used, was I terribly polite in commenting on his misrepresentation.

Truth is, I have a good deal of patience where patience is required. And I can be civil as civility is warranted. Or when I'm just amused by the noise. But, for the most part, I am, and always have been, a pretty surly beast. Go back more than 5 years, you'll find quite a number of testy posts. Not only to this group. And when I was at CBS, my e-mails were something of legend. Not to mention what came out of my mouth at staff meetings.

But if you remember me as some kind, gentle soul, you need to read further. Polite only happens in the presence of polite, Eric. I have never had patience with fools.

And I rarely hold my tongue for anyone. You, being among a handful of exceptions who have earned that consideration.

I reiterate. Nothing's changed.

Boy was I wrong. Now we have this goofy program called
Radio Weather taking up huge blocks of time on WBCQ.
I am still trying to figure out if it's just another wacky christian
broadcaster, a geeky nerd broadcast or BOTH. This guy can't
possibly be serious. The R-W guy should hook up with
Profit Stair and they ought to "tag-team preach" like some of those
old time great black apostolic ministers used to do! Now that
would be freakin funny to listen to! In the meantime can anyone
tell me just WTF Radio Weather is all about? One thing is fer
sure, Weiner is really scraping up the dregs at the bottom of the
old corn-mash bargain-basement airtime prices barrel to give
this kosher dill pickle goofball airtime.

rhf, Rhf, RHF...what are we gonna do with you?????

My quotation above...

"A U.S. threat assessment finds al Qaeda has rebuilt its capability to
mount attacks to a pre September 11 level".

is an exact (I repeat, EXACT!) quote from the Associated Press AND the FRONT PAGE of the Wall Street Journal (7/12/07, Page 1, Column 2). THAT is a FACT! Period. Read those EXACT words for yourself on the front page of the WSJ.

So, YES, I -DID- "get my facts right".

Now, however, if you think the Wall Street Journal is a "liberal lie" and a "left wing distortion", well, you certainly are entitled to your opinion-- although I believe you are the first person I've run across who thinks of the Wall Street Journal as left-wing and liberal.

> the truth be told ~ RHF

You say "the truth be told"...and it WAS told.

Instead of pissing and moaning about poor old Zeke, why don't you try and figure out why after SIX years, TWO never-ending (and ever-worsening) wars and half a TRILLION dollars, the U.S. *Government* says we are at the exact same point we were at on September 10, 2001.

I used to live on the edge of this area, on Sutter and Polk. There
used to be an FM "Radio Libre" broadcasting from the Mission district
a few miles south that could be heard at my QTH. Radio Libre was run
by the same folks who ran SF Liberation Radio. They had ties to
Stephen Dunifer of Free Radio Berkeley. The modern pirate radio
movement was born in the communist boiler rooms of SF and Berkeley in
the early 90s. Dunifer had guts, fighting against the government for
the right to broadcast low power FM in court for years on donations
and sympathetic lawyers who donated their time. Finally he ran out of
gas, and so did most of the original FM pirates. The FCC let a Santa
Rosa station set up a repeater on 104.1, FRB's freq, which put them
out of business. This pirate is probably the most action SF has seen
in years-the commies moved on long ago, and every time some kids get a
tx running the feds shut them down. What action there is is confined
to shortwave. This guy should be audible in all of east SF and parts
of Oakland and Berkeley. If this is at night, he could concievably
cover much of CA, albeit intermittently.

When I was in San Francisco, I rode on one of those Cable Cars.When the Cable Car got to the bottom of Powell Street, (I think it is Powell Street, that was wayyyyy back around the first week of January 1964) I got off and I helped push that Cable Car around on that turn table (whatever it's called?) so it could head on back up the hill.That was fun.

Wayyyyy back in the olden years, some kids would hook a piece of wire to some tin cans and they would somehow hook the other end of the wire around the underground cable and watch those tin cans being dragged around on the streets.

Obviously the superposition didn't cross my mind.
The matter is actually vibrating at the frequency

sin(2 * pi * f_1 * t) + sin(2 * pi * f_2 * t)
or
2 * cos(pi * (f_1 - f_2) * t) * sin(pi * (f_1 + f_2) * t)

So every cubic micrometre of the air (or another medium)
is vibrating in accordance with
2 * cos(2 * pi * 3 * t) * sin(2 * pi * 25003 * t),
thus having a beat frequency of 2*3 = 6 Hz
and a vibration frequency of 25003 Hz
(let alone phase differences of neighbouring
vibrating elements).

No, I remember those episodes well. I have never claimed -- and never
will claim -- that you were a saint, a fool or a delicate flower.

But when you pushed back on someone who was being pushy, you were
using their own words or actions to point out their... flaws... which
made your push-backs that much more devastating.

Nowadays, ad-homenim seems to be the rule.

I reiterate. You have changed.

But, it's your life to do what you want. Consider my advice, or don't.
My world won't change because of your choice.

You made absolutely no reference to NICAM being unsuitable due to the high
bit rate it uses, and you only mentioned its lack of error correction.

The tendency for newcomers is to buy a radio with the intention of buying the most performance, the Best radio, and the most feature laden. Spend their money one time, and not look back. Until the next big thing comes along.

The truth is, in practical terms, it doesn't really work that way.

Any radio will get you started. Buy one, listen to it. That's your starting place in the hobby. And it will likely be a place you enjoy for some time before your interests develop or evolve.

Now, to buy your first, you'll want to read the reviews, get input from hobby practitioners, and get some hands-on in brick and mortar stores, if you can.

And buy the one you want. Not the one that everyone insists on. Buy what you want, you won't regret it. Buy quality, you won't regret it. Balance the two.

Naturally, you'll want 'the best' radio. But that's a term that has no meaning. Fact is, that every radio has an application, or a range of applications for which it's better suited than others. And for you, the best radio will depend on what you prefer to listen to. That, you may not know until you've been at the hobby for awhile. And it will change from time to time. Most serious SWL's have more than one radio. Each good at it's specific applications.

So, get started. Read what interests you, listen to what you like, and begin your journey that way. Buy your hardware accordingly. You'll never make a mistake, and you'll have a great deal of fun.

Now, of the radios you've presented as options...for a starter radio, any of them will get you up and running. I've never recommended

Sony, for a number of reasons, but I"m by no means the last word. Eton, similarly has left a bad taste, but they seem to have begun to turn a different path, lately. My recommendation would be either (or both if you're already hard core) of the Sangeans. 818 and 909 are good performers, with a nice balance of features. Ear pleasing audio, and fairly rugged. These two are well established in the hobby. They're also like Dynaco audio gear--upgradeable, if you're good with a soldering iron, and they lend themselves to experimentation.

But as a practicality, don't worry about it. Any of them will get you started. Once you're on your way, your choices will become obvious, along whichever path your interests take you.

Welcome to Shortwave.

You were correct before. It might be correct to say that matter is
vibrating at an average, or effective frequency of 222 Hz. But the
only sine waves present in the air are vibrating at 220 Hz and 224 Hz.
Obviously. It's a very simple matter to verify this by experiment.
You really ought to perform it (as I just did) before posting
further on the subject.

OBSTRUCTING JUSTICE FOR AMERICA

Tony Snow "The executive branch is under no compulsion to testify to Congress because Congress, in fact, doesn't have oversight abilities."

IT LOOKS like they are going to attempt making the move of BLATANTLY TREASONOUS war criminals acting to measurably now destroy yOur Freedoms in godless America. The Satanic neocon's 'faith', is in that YOU as an American, will watch the same corporate drivel that offers next to nothing to empower YOURSELF to speak Justly for a dying America. Instead of demanding 24 hour, wall to wall news coverage, of war criminals going down one by one by the will of Man to Justice, CNN, CBC, and FOXNEWS will broadcast your blind 'belief' that you are only a impartial viewer, who doesn't really care about dying right in front of yourself for the zionist's riches, and great worldly power of tyranny through lawless nazi bushite censorship.

Jesus man, do I truly hate these zionist nazi thieving LIARS on our magic TV shows who con our kids to die as bad guys. How about You?

/ / If Bush and his PNAC buds are innocent, then Investigate 911! What have innocent people to fear from a fair, complete and real investigation? \ \

They are guilty, so, of course, the demon Bush enemy, OBSTRUCTED JUSTICE FOR AMERICA.

I hear the national radio program Coast to Coast is still feeding us neocon lies. Why don't you make the call for Johnny.. believe in yourself for a change why don't you?, buddies??... I am Your god king. King Johnny I am. Champion of Universal Life! Not enough? Who cares?, to allow US speak on our broad casts as legitimate? Worried I'm going to love Life as truly honorable, and Greater than those who openly lie to our soldiers to have them unjustly die for no better good or reason understood? AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

MY government? Now that's entitlement. And you thought George Bush didn't have a vision for America \ \

Hitler, the mad man, wasn't as insane as our demon enemy George Bush Jr. is.

/ / The [BUSHITE ENEMY] US has said it would refuse any request by Italy to extradite the accused [satanic bushite torturers of completely INNOCENT PEOPLE]. \ \

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism,

persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life on Earth, sacrificed in cowardice to the real demon antichrist, and see if we, the true, strong, and free, care. The Son of Man SCREAMS before coming home to GOD'S America: We are coming to destroy Satanically lawless bushite enemies, all for the love of God, we shall succeed my friends, we shall succeed. I will not willingly live in a forsaken world with LIAR zionist war criminals conning US to believe, God is not Great, True, Strong and Just.

Die bushite die!

George Norry is a traitor to the FBI, who further plans more to die sacrificed under the censorship of the tyrant antichrist. Who cares I ask about America truly dying as neoCONNED, for George Norry has millions to not take your calls for protection, and honestly, 'Americans' couldn't care much less for Our Humanity's future. Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of America's America. Not bush bitch Marines "WHORES YEAH!" strength, where they cowardly can't figure to defend America from ungodly war criminals. War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. INNOCENT People for murder.

The Haditha perpetrators, if convicted, are looking at serving, maybe, a couple of years, for freely confessing to the targeting MURDER, of innocent women, men, and infants.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man. - The Son of Man, as the Man of Men,

PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? I do, that they recognize that the death of innocent people could shake our will," the President explained. \ \

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Our Mr. Bush Jnr. "The war is for you or for us [neoCONS] to win. If we [neoCONS] win it, it means your defeat and disgrace forever."

Die bushite die.

Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

The fittest Ideas that rule this Universe, are the simplest, most easy to understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite thieving murderous military, by the likely ton full to attack our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist demon enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Receive thanks from everyone, GOD included, by rightly

destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. Each day we hear of near hundreds of US murdered by the godless Satanic THEIVING "American" forces in Iraq. without near a peep of concern by "America". Lawless bushite mercenaries torture rape and murder, paid to do so by the WILLING American tax payer, and near 300 million "People" (the NAZIS) can't find the effort to pick up a princely phone and call the ENEMY pro child killer George Norry, (who broadcasts every day across America nationally for the IRRATIONAL neocons,) to air any real concern for our Lives. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

Bush Won't Turn Over Emails Until White House 'Reviews' Them
http://www.commondreams.org/archive/2007/04/18/596/

/ / Bush and the RNC should be immediately sued. There are no sustainable Executive Privilege arguments here: the emails were already sent over a NON-GOVERNMENTAL email system. In other words, if sensitive/classified information was sent over this system it would be a felony and impeachable. Any official information sent over this RNC email system would also be a violation of the Presidential Records Act. \ \

It's like a catch 22..

So, the demon liar bush tells US, the terrorists would rather travel to Iraq to kill Americans indiscriminately, than come directly to America from wherever instead, to kill anyone who silently supports the indiscriminate murder of our humanity.

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun, paid for by the silent American tax payer. Americans refuses to bother making a simple phone call to Coast to Coast to raise some concern. THEY don't. They refuse to hunt bushite down in their streets for death to defend the innocent held indefinitely against GOD'S will. Death to the bushite, death to Johnny's godless, lawless, fascist enemies of FREEDOM.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

/ / Never in modern history has country been forced to pay for its death, torture, and destruction with its own money - its own oil revenues. A country where thieves are entrusted with its richness and where murderous gangs are entrusted with its security. \ \

Look, CNN, CBC, and FOx News know the bushmob did 911, but will smile while watching your son or daughter sent out to die CONNED by their demonic hatred for US freely communicated. How do I know this? I made the effort of making the phone calls.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Defend freedom, and the FBI, by demanding Coast to Coast radio hosts allow free communications, absent their personal contempt for preserving freedom to be our America. pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll

tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / The Mujahideen aren't students of power and don't compete for power like others do. We are students of truth and work for establishing this truth and for this cause we sacrifice our power \ \

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

US officer "upset" Iraqi suspects taken alive, court hears

males, a court was told Tuesday. \ \

Come on now, who wouldn't take great joy in destroying any and

Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911.

/ / As a result, the Defense Department put up a Web site in 2005 designed to clarify [to the dumfuk bushite demon liars] that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of bushite rapists though, so has worked to deny Justice for female grunts by denying all requests to the 'Pentagon' from American Police Departments. [and you thought he was fired!] Why? because, they, the very weakest intellectually of America's - do what they're told teen kids, ALL don't have rights anyone in bushite corporate america is willingly strong enough as a dedicated Leader to speak in demanding defense of, for innocence.. Why? because they soullessly advocate continuing bushite war crimes for a stolen dollar. Stuck that way apparently. Support my rise to speaking publicly for open challenge on the rights and privileges of all concerned parties. Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911. I would like to form a global posse of sleuthers to identify on international open line radio, all guilty INDIVIDUAL parties by evidenced conclusion on our highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to

say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

Did you know Blair had arrested the reporters who reported this initially? Didn't think of defending children, no sir. For, the commentator, who gives the play by play, while masturbating, has been given forgivence because it's an heroic "Christian". Not publicly executed. This must change for the

better. Here is where I will make my final stand, and where heaven shall part from hell in America.

ARE YOU TALKING TO ME?

George W. Bush:

"If the absence of violence is victory, no one will ever win."

But for those of us who would believe protection to be a heavenly good thing actually he means? What the. does he mean?? Find out!, in the new candid, let's talk politics interview, with no other than, PRESIDENT GEORGE W. BUSH. (talk about having connections!) Have your mind blown on his TRUE wisdom, seldom since ever, so wisely articulated in a more private setting, than this: The Story of the Millennium.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of

Man doesn't have to wipe out the entire human race after all..
With Bush co-operating now, I personally believe, no, I know,
we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of
Humanity to be gloriously publicly executed to defend the
innocent lives, they once again, have indiscriminately
murdered in Afghanistan without a sliver of evidence, but for
to say, some dumfuk had a 'rumor' that a single individual
SUSPECTED to be an anti-heroin pro-child defending Taliban
supporter, granted the bombers of NATO to wipe out an entire
village MURDERED indiscriminately by the TRUE demonic enemies
of LIFE. Please, if you must forsake me in your personal
cowardice and self loathing, don't forsake GOD and America by
not killing with PRIDE, these bushite dumfuks of NATO the
first chances you get. Love liberty as if it were your own,
and kill a lawlessly murderous bushite nazi savage for your
love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was
told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book
is out there? Don't miss out on picking up a copy for
yourself, or your loved ones. And did you know, I'm trying to
get on international radio without a censor to thunder my
audience back into submission. I HATE HANNITY. All I want is
free open debate to resolve this crisis, that doesn't have to
be so ruining our dying worlds without questions forwarded by
the dumfuks. Justice is Paramount through reason to be so.
The Bush Administration have been up to no good, escaping for
911, that New York City should sue for. Hire me on as legal
consultant buddies, cause I'm like near starving broke here,
with supreme court challenges failing my cost factor, and
hunger pangs slowing our progress on fighting unjust
incarceration. I desperately need money, like now, as a gift,
or an advance on a industry paid private consultant gig. Or,
instead, maybe you'll idly watch some innocent person
willfully be sent to prison by liars in your demonized name,
to defend the ungodly evils of war criminal traitor, our Mr.
Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

P.S. someone tell Hannity, I got a beef with his demon lies to sacrifice our guys. I'm calling Hannity out to explain himself freely to US now, as a demand for an immediate match between him and ourselves in the dug pit of his utter contempt for our free to be alive communications.

'A military judge ruled last week that Watada cannot base his defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime? It isn't only high treason against America the ungodly bushite are guilty of, but of a madness held by those truly Satanic..

/ / 'Why are you taking pictures? You don't have permission."' [...] the [bush whore] American, speaking through a translator, warned him that he did not want to see any AP photos published anywhere.\ \

No bushite was found gloriously killed for country, yet, they, the godless bushite enemy, continued to shoot innocent People indiscriminately for a distance of six miles, while likely, secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent un-armed Afghans were counted as murdered deliberately, by those who believe our Mankind, can not ever find themselves accountable, without zionist controlled, corporate news permission. See? The military counts mankind as zionist, but I am a man of real men, committed to defend our world from all enemies, foreign, or domestic. Unlike a bushite traitor to God

and America, who's word, as Oath, means as much to them, as we do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from murder, (the innocent whom any pro-bush corporate professional hold in total self contempt,) you save REAL peoples lives, and you defend God's good name to love God as ourselves committed to true Liberty. Bushites are enemies of freedom, enemies of God, and worthy of death, before allowed to further bomb people indiscriminately like the commanders of NATO order day after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where

he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play

radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

Let's do this.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected

lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC,

CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

My friends, People are dying because the magic radio and TV
wont broadcast our publicly available findings. Police
findings. People are dying needlessly, illegally,
irrationally like meaning really stupidly on Bush's behalf,
for they claim, we don't want to be 'embarrassing ourselves',
leaving our forsaken Johnny Wizard's Wild Wow World of Wonder
Wording Wees!.. mostly just appreciated by myself as sole
surprised spectator, because you people seem to not be there
for God when the chips are down, and truth is plain to see..
911 was an inside job, and CBC with CNN don't want to tell us
about it, but will watch our LOVED children lied to, to go out
and die further for a causeless war of criminality
unparalleled in it's wickedness.

Do you expect yourself to fail trying?

It's all up to You my friend, it's all up to you.

Onward Christian Soldier.

This is why the Son of Man through God begs the Peoples of
Humanity to kill on sight, the enemy bushite betrayers to
Life. Ourselves, the innocent. These soulless grunts don't
destroy such deserving commanders, Like Blount, Sattler,
Russell, Wuterich, Pantano or even Kimmitt, and instead, as in
Fallujah, murder every woman and child present, while stealing
all our given monies for desperate life saving help. Anyone
in the Air Force deserves to be justly put down, for, I've
NEVER seen any legitimate bombing campaign, but for to kill
People indiscriminately like NATO regularly does with
radio-active toxic waste, while then sending in the dumfuk
Marines, or the 'from the coast' Canadians, who of course,
rightly get killed on the ground in retaliation for such blind
evil stupidity. Please, I beg, help Iraqis, and kill the
bushite thieves to defend our forsaken God. American
children, help me my loves. Please don't allow the bushmob to
escape for the treasons against America on 911, for, bushites
are OPENLY traitors, as the TRUE enemies of evidenced Justice,
as the Freedom to do our own things loving God on our own.
Besides, most bushites aren't even registered American
citizens. Bushites need to be hunted down for destruction -
by the Loyal Christian American Patriot Soldier, the ones who
war to win against those who torture US innocent to death as
the ungodly Satanic LIAR enemies. Save the Humans, kill a
bushite false accusing traitor of American Freedom To-day, and
become a real Man in the presence of Johnny America, an actual
Man of Men, Lord of Lords, and King of Kings.

What images must be reported? Illegal images of minors, which includes clothed teens in "lascivious" poses, according to the Justice Department. Obscene "cartoons" and "drawings" also qualify. (18 USC 1466A) \ \

Alert the USER! not tyrannical leaderless dumfuk thievers, for it is the expresser who, if any, that is guilty of a determined illegal expression. We have to overhaul how all our national news Podcasts are assimilated through corporate nazi zionist censorship. Art Bell and George Norry are enemies to ALL american teen troops put in harms way to die as bad guy irrationally for the neocon God betrayers. Why? because they purposefully lie to have YOU die as innocent murder victim. Death to the bushite, death to God's enemies.

Be a friend if not an enemy,

Well, gee, Iran has no nuke program, in anyway, shape, or form, but Israel wants to murder more of humanity for their ungodly lies anyway. The enriched uranium Iran is making, can not be used for a bomb because it's only enriched to 2 percent, and to get the bomb making stuff, you need a COMPLETELY different technology. But science?, in bushite

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt

no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People
like in Fallujah or Somalia with land mines and mini nukes

New Recruit

Destroying enemy bushite is a gift to Humanity, it is saying you care for the lives of the innocent a bush bitch nazi grunt freely confesses to targeting for murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi".
snpd

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity,

George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely

un-accountable, for as long as we remain alive to hunt
them down and kill them if so be. As the soulless
disciples of the enemy anti-Christ, Our Mr. bush Jr.,
their "officially" granted legal immunity from all
prosecution means nothing to me as a honorable man
defending my humanity, or as living Creator, who brought
all into this new world to be free, and can just as
soon, take you all nazi bushite out the old school way.

"probably", all of which had been removed from the previously
published version. Tenet further ingratiated himself by
remaining silent about the OSP. "That's totally unacceptable
for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON.
Could it be any higher? Deliberately caught misleading
whore-dumb Congress to wage his immoral neocon 'escape' with a
unjustified criminal brutality against God as all of our
Humanity. A great deal more than a million innocent people
have been victims to the 'targeted' Zionist killings of the
irrational bushite enemy. Lawless enemies to Creation,
spreading their toxic waste who thieve, rape and murder
without reprimand from corporate news america, shall, I pray
daily, die justly in vengeances by the will of a real undying
Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted
killing of innocent children is fair game in their worlds, and
as confessed, they 'got away' committing the same Satanic acts
- going house to house in fallujah murdering more than two
hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler.
Bushite corporate america, has stated in silence, the bushite
enemies of Haditha will never face public execution for such
offences, YOU apparently WILL NOT GRANT IT, too cowardly, and
in all likelihood, (like those of the Saudi Blount's third
infantry) will be allowed to walk freely down american streets
after being found guilty as politically supporting the robbing
and murder of innocent men, women, and children all because
we're rag-heads or niggers. The, deserving to die as
illiterately intolerable bushite drone soldiers HAPPILY,
WITHOUT QUESTION, co-operate with ANY lawless mercenary forces
such as south african death squad goons in finding the enemies
of themselves. Purposelessly ungodly bushite soldiers are

told they are DYING to defend Iraqis, while breaking out of
prison, mercenaries caught trying to kill innocent Iraqis for
fun and profit. While, at the same time, actually having
SLAVES from India preparing their lunches!!! And guess what?
they're coming to live bushite america as the patriots after
they get killed you're forsaken American Son or Daughter teen!
With millions of stolen American dollars to set up new
'freedom' operations.

Let US demand open radio
communications on the mathimatical facts to save our own
selves further victimhood to their personal contempt for the
true value of YOUR life. Thanks.

Can you help us speak this outrage to your local media outlets?

thanks again bud.

- "The months preceding September 11 [see] a shifting of the
US military's focus ... Over several months beginning in

April [2001] a series of military and governmental policy documents [are] released that [seek] to legitimize the use of US military force in the pursuit of oil and gas." Michael Klare, an international security expert and author of Resource Wars, says the military has increasingly come to "define resource security as their primary mission." In April, Tommy Franks, the commander of US forces in the Persian Gulf/South Asia area, testifies to Congress in April that his command's key mission is "access to [the region's] energy resources." The next month US Central Command begins planning for war with Afghanistan, plans that are later used in the real war. [Sydney Morning Herald, 12/26/02]

See? It's admitted that the zionists planned to STEAL the rights of Afghans for Enron, by LYING to SOLDIERS to get them killed as the American Pension thieving bad guys. Too COWARDLY parasitic to hunt those responsible for murdering thousands of "Americans". So, as a consequence, they, as loveless bushite drones, die cowardly with the once great America as enemy corporate fascists to Freedom's Justice, Our Living God.

John's truth. Killing a THIEVING bushite is to save the lives of the innocent they target for murder. The cowardly bushite, dies sacrificed - all to help IT slavishly escape those responsible for 'getting away with' murdering thousands of Americans in New York City on 911. Sorry George W. Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. A nation of fascist nazi cowards, who go silently to their graves in their support of torturing innocent people to death for the thieving EVIL bushite's pleasure.

Death to the godless bushite, death to America's lawless enemies.

Bushite Zionist atheists believe that I, as the Son of Man, Couldn't be anything but their worst nightmare. No, WE, as Humanity, will religiously really kill bushite continuously to hasten the day when America actually fights to win, free communications for Justice's claim. AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba
MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy

documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

Investigating the Investigation

http://www.alternet.org/story.html?StoryID=17816

After playing a tape of Cheney's statement, Russert asked
Daschle, "Did the vice president call you and urge you not to
investigate the events of Sept. 11?" Daschle flatly
contradicted Cheney: "Yes, he did, Tim, on Jan. 24, and then
on Jan. 28 the president himself at one of our breakfast
meetings repeated the request."

...."[T]hat request was made" by Cheney not only on Jan. 24
and by Mr. Bush four days later, but "on other dates
following" as well.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen
Mahmud Ahmad sought retirement after being superseded on
Monday, the truth is more shocking. Top sources confirmed
here on Tuesday that the general lost his job because of the
"evidence" India produced to show his links to one of the
suicide bombers that wrecked the World Trade Center. The U.S.

authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

Voyager 2007,

The are all good 'portable' AM/FM Shortwave Radios
and function very well just using their Whip Antennas.
Plus they work fairly good using a 'short' Random
Wire Antenna about 30~40 Feet long.

OK - Let us verify that you already own these Radios ?
- - - In that case what we think is not important.

What you think of them is important -and- How
You Enjoy Listening to them is very important.

-IF- You already own these four 'portable' AM/FM
Shortwave Radios . . . the next step is an Outside
{External} Antenna to improve your ablity to hear
more Radio Broadcasters.

Then you may consider a Desk-Top Shortwave
Receiver with more advanced Shortwave Listener
(SWL) features.

like most hobbies - shortwave listening (swl) is a
progression of interest and involvement ~ RHF

- There's a renewed push to Legalise Marijuana
for Medical Purposes.

PHL,

The Hypocary of so-called "Medical Marijuana"
Used for Medical Purposes :

1 - Personal Reason : I Just Want to Get High !

1 - Social Reason : Let's All Get Stoned !

The Fact Is : Smoking Marijuana {MJ} is usually not MJ's
best method of administering MJ for Medical Reasons :
Using MJ in Food : Brownies, Soup, etc as an Herb
-or- Brewing it in Tea can be more beneficial to the
Body and Mind; and aid in Medical Conditions and
Courses of Treatment.

The Reality Is - Most People Smoke MJ to Get Loaded [.]

THE ONE EXCEPTION : The Terminally Ill - Let Them
Enjoy the Last Days of They Lives However They Can
- In Peace and Friendship with Dignity - Amen

don't let your life go up in smoke

If you are talking about beat frequency heard when
tuning to a carrier with a radio with a BFO or in SSB mode
then one can't hear any beat below 50 Hz or so.
The audio section of the receiver blocks anything
below about 50 Hz.

Are you talking radios or guitars?
With a guitar you might beat 400 Hz against 401 Hz.
With a radio you'd more likely beat 455 kHz against
455.001 kHz.

Based on studies done at Tulane Department of Neurology (mid 60's) the
detection is not in the ear but in the brain. The process can be taught and
refined though bio-feedback.

How do you arrive at a "beat"?
Hint: Any such assessment is nonlinear.
(And kudos to you that you can do the math.)

Simplifying the math:
x = cos(a) * cos(b) = 0.5 * (cos[a+b] + cos[a-b])
(Where a = 2 * pi * f_1 * t and b = same but f_2.)
All three of the above are equivalent. There is no difference.
You get x if you add two sine waves or if you
multiply two (different) sine waves.
So which is it really? Hint: If all you have is x then
you can't tell how it was generated.

What you do with it afterwards can make a
difference.

But what you hear below ~20 Hz is not the beat note, but changes in sound
pressure (volume) as the mixing product goes in and out of phase. This
actually becomes easier to hear as you near zero beat.

Lets see my little Braun {Electric} Toothbrush already
uses Inductive Coupling {Wireless} to Charge the
Toothbrush while it is in the Cradle - Don't know the
Frequency but it is a no-contact re-powering system
for Battery run devices.

All this system does is up's the Frequency and extends
"The Gap" plus allows Power as you use it without an
Internal Battery. But at 40% Power Transfer Efficiency
a 60 Watt Light Bulb whould require 150 Watts of Source
Energy to power it. That's 150 Watts of ERP being
Generated within a House or Business : Even with only
a 10% Usage Factor thats a lot of RFI for a Nation Wide
deployment of this system.

Not by train, neither by UFO. ;)
Sorry. English, German and French are only 'second'
languages to me.
Are you after the occurrence of a beat?
Then: a beat appears at constructive interference, thus
when the cosine function becomes maximal (+1 or -1).
Or are you after the beat frequency (6 Hz)?
Then: the cosine function has two maxima per period
(one being positive, one negative) and with three
periodes a second it makes six beats/second.

Referring to the physical system, what's now your point?
That system contains elements vibrating at 25003 Hz.
There's no math in it. More on that in my posting to

That's a misunderstanding.
A vibrating element here (such as a cubic micrometre
of matter) experiences different changing forces. Yet
the element cannot follow all of them at the same time.
As a matter of fact the resulting force (the resultant) is
fully determining the change of the velocity (vector) of
the element.
The resulting force on our element is changing at the
frequency of 222 Hz, so the matter is vibrating at the
one and only 222 Hz.

> It might be correct to say that matter is vibrating at an
> average, or effective frequency of 222 Hz.

No, it is correct. A particle cannot follow two different
harmonic oscillations (220 Hz and 224 Hz) at the same
time.

> But the only sine waves present in the air are vibrating
> at 220 Hz and 224 Hz.

If so, we have a very interesting question...
What is waving here? A vacuum?
But don't take the trouble to answer.
You'd better distinguish the behaviour of nature and the
way we try to understand and describe all things.
As long as both sound sources are vibrating there are
no sine waves (220 Hz, 224 Hz) present, yet we do
use them to find the frequency of 222 Hz (and the
displacement of a vibrating element at a particular
location in space on a particular point in time).

> Obviously. It's a very simple matter to verify this by experiment.

Indeed, it is. But watch out for misinterpretations of
the measuring results! For example, if a spectrum
analyzer, being fed with the 222 Hz signal, shows
that the signal can be composed from a 220 Hz and
a 224 Hz signal, then that won't mean the matter is
actually vibrating at those frequencies.

> You really ought to perform it (as I just did) before

I did happen to see interference of waterwaves
including some beautiful (changing) hyperbolic structures,
but no sign of any sine wave at all. So, with your kind
permission, here's my posting. ;-)

Yes, of course, and 1e5 as well. That offset will make sure that
the output of the modulator contains both of the original signals as
well as their sums and differences. That is, it'll be a classic
mixer.

>To generate the same signal with the summing version you
>need to add in some 1e6 along with the .9e6 and 1.1e6.

That wouldn't be the same signal since .9e6 and 1.1e6 wouldn't have
been created by heterodyning and wouldn't be sidebands at all.

>The results will be identical and the results of summing
>will be quite detectable using an envelope detector just
>as they would be from the modulator version.

The results would certainly _not_ be identical, since the 0.9e6 and
1.1e6 signals would bear no cause-and-effect relationship to the 1e6
and 1e5 signals, not having been spawned by them in a mixer.

Moreover, using an envelope detector would be pointless since there
would be no information in the .9e6 and 1.1e6 signals which would
relate to either the 1e6 or the 0.1e6 signals. Again, because no
mixing would have occurred in your scheme, only a vector addition.

>Alternatively, remove the bias from the .1e6 signal on
>the modulator version. The spectrum will have only
>components at .9e6 and 1.1e6. Of course, an envelope
>detector will not be able to recover this signal,
>whether generated by the modulator or summing.

Hogwash. ;)

If the envelope detector you're talking about is a rectifier
followed by a low-pass filter and neither f1 nor f2 were DC offset,
then if the sidebands were created in a modulator they'll largely
cancel, (except for the interesting fact that the diode rectifier
looks like a small capacitor when it's reverse biased) so you're
almost correct on that count.

However, If f1 and f2 were created by independent oscillators and
algebraically added in a linear system, the output of the envelope
detector would be the vector sum of f1 and f2 either above or below
zero volts, depending on how the diode was wired.

Well, I'm just back from the Panama Canal Society's 75th reunion and
I haven't read through the rest of the thread, but it case someone
else hasn't already pointed it out to you, it seems you've missed
the point that a non-linear detector, (the human ear, for example)
when presented with two sinusoidal carriers, will pass the two
carrier frequencies through, as outputs, as well as two frequencies
(sidebands) which are the sum and difference of the carriers.

In your example, with 300Hz and 400Hz as the carriers, the sidebands
would be located at:

f3 = f1 + f2 = 300Hz + 400Hz = 700Hz

and

f4 = f2 - f1 = 400Hz - 300Hz = 100Hz

both of which are clearly within the range of frequencies to which
the human ear responds.

>(Note that if the beat
>frequency was a separate, difference signal as you suggest, at this
>frequency it would certainly be audible.)

Your use of the term "beat frequency" is confusing since it's
usually used to describe the products of heterodyning, not the
audible warble caused by the vector addition of signals close to
unison.

>> A year or so ago I did some casual experiments with pure tones being

No, it doesn't.

Since the response of the ear is non-linear in amplitude it has no
choice _but_ to be a mixer and create sidebands.

What you see on an oscilloscope are the time-varying amplitude
variations caused by the linear vector summation of two signals
walking through each other in time, and what you see on a spectrum
analyzer is the two spectral lines caused by two signals adding, not
mixing. If you want to see what happens when the two signals hit
the ear, run them through a non-linear amp before they get to the
spectrum analyzer and you'll see at least the two original signals
plus their two sidebands.

Your "common knowledge" seems to not include the fact that a
non-linear detector _is_ a mixer.

>hear is the 'average' of the two frequencies. Didn't make any sense
>so I did the experiment. The results are as I have explained.

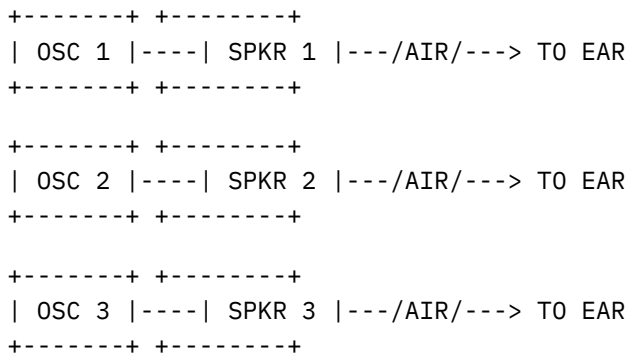
The "beat" heard wasn't an actual beat frequency, it was the warble
caused by the change in amplitude of the summed signals and isn't a
real, spectrally definable signal.

The reason you didn't hear the real difference frequency is because
it was below the range of audible frequencies and the reason you
didn't hear the sum frequency is because it was close enough to the
second harmonic of the output of either oscillator (with the
oscillators close to unison) that you couldn't discern it from the
fundamental(s).

There also seems to be a reticence, on your part, to believe that
the ear is, in fact, a mixer and, consequently, you hear what you
want to.

But...

In order to bring this fol-de-rol to an end,I propose an experiment
to determine whether the ear does or does not create sidebands:



1. Set OSC 1 and OSC 2 to two harmonically unrelated frequencies such that their frequencies and the sum and difference of their frequencies lie within the ear's audible range of frequencies.

2. Slowly tune OSC 3 so that its output crosses the sum and difference frequencies of OSC 1 and OSC 2.

If a warble is heard in the vicinity of either frequency, the ear is creating sidebands.

I'll do the experiment sometime today, if I get a chance, and post my results here. Since you're all set up you may want to do the same thing.

It's not a mixing product, it's a sum. Actually, the vector
addition of two signals varying in phase.

Other than that, Bingo!!!

Eton E5 - very nice small portable. Consider also the Sony ICF-760GR.

Sangean ATS818 - best for the money. Can be had on eBay for around $75 or less. Larger radio than the E5, excellent sound, great ergonomics. A real favorite of most who have one. Get the 818, not the 818CS which contains a cassette recorder and has a smaller speaker.

Sangean 909 - worst for the money. Most reviewers don't like it, for the money spent. A good radio, but too pricey for the performance.

Sony SW77 - the best radio of the bunch, but also most expensive.

It would have been more proper of me to say
"sinusoid" rather than "sine wave". I called
cos() a "sine wave". If you look at cos(2pi f1 t)
on an oscilloscope it looks the same as sin(2pi f t).
In that case there is essentially no difference.
Yes, there are cases where it makes a difference.
But at the beginning of an analysis it is rather
arbitrary and the math is less cluttered with
cos().

What modulation mode? I have a strong signal but very weak audio on AM or SSB
(I don't have FM for this freq.).

The CCRadioSW has been released. My order was filled this week from
CCrane and tracking shows I will get my radio on Monday. Since the
website still lists July 31 as date it will be in stock, I am assuming
they got their first small batch of radios and can only fill pre-
orders at this time. After getting the radio on Monday, I will review
and post my findings.

Your idea of frequency is informal and leaves out
essential aspects of how physical systems work.

You have looked at a segment of the waveform
and judged "frequency" based on a few peaks.
Your method is incomplete and cannot be applied

generally.

No they don't "opperate" short wave stations...but your lack of thinking causes you to miss the point.

There were TWO stories on BBC. The FIRST story (that I heard and quoted) and then the SECOND story of Bush's denial that you quoted.

Think for a minute (I know it's hard, but try): there had to be something that came first (my quoted story) for there to be something for Bush to deny (your second story). Timing is everything. You simply missed the first BBC story.

My reason for quoting the AP and especially the Journal was as a *secondary* source. Again, if you would think just a little bit, it is much easier for someone to research/check/verify my facts with printed material easily obtained and widely available rather than trying to track down a radio newscast from a day or two ago.

> Zeke - Thanky you for providing this Post as

OK, so again you think what came from the front page of the Wall Street Journal (my *secondary* source) is liberal and left wing. Your opinion, can't argue with that.

> Why did you not tell the Truth and Post :

Again, you are wrong, Wrong, WRONG! It *was* on the Beeb and it WAS the source--but you missed it. Just because YOU missed it, it doesn't mean it doesn't exist.

And thank you for exactly illustrating my point of why I did quote the WSJ (as a *secondary* source). For those that missed the broadcast (quite easy to do), the WSJ is widely available for back-up verification.

So, to summarize -your- (non-thinking) views:

1) Just because -you- missed the first broadcast, you don't think it exists. (Even though the second broadcast you quoted would not have existed had there not been the first broadcast).

2) You fault me and falsely accuse me of lying just because I provided a back-up, SECONDARY, widely available print reference that is much easier to track down than an ephemeral radio newscast.

3) You seem to imply that we can only post something heard on the Beeb if it is exclusive to them. Don't dare post it if it might also appear somewhere else. Yeah, right...

4) You think the Wall Street Journal is left-wing and liberal.

5) Finally, you dodged and totally ignored the original issue:

Why, after SIX years, TWO never-ending (and ever-worsening) wars and half a TRILLION dollars, does the U.S. Government itself says we are at the exact same point we were at on September 10, 2001.

Heckuva job, RHF!

Semantics.
The "beat" heard in tuning a guitar is commonly
referred to as a "beat".
Yes, it is not the same thing as the "beat" from
a BFO in a radio receiver.

David - OTC Drugs work for me and a Rx if needed.

Used to have a Neighbor who was Old Mexican Man
who grew a little Marijuana in his backyard. Ground

it up and put it into some Vick's VaporRub to apply
to his Painful Joints. Now that I consider a valid
Chronic Pain Treatment using Marijuana : Treating
the Pain at the Source -not- Getting a Buzz On by
Smoking a Joint.

CHRONIC - Do a Google Search on "Chronic"

IMHO - Most of the People {Drug Users} who Smoke

I have 25950 as KOA, Denver, CO relaying 850 at 1825.
25910, WBAP and 25990, KSCS still in as well. Nothing here on 26190.

RHF,

Yes, I am in Nova Scotia, Canada. I am about 30 feet from the ocean. If I wasn't 1/2 mile from a major ute transmitter site, this would be a great spot for radio.

I received a Sirius Stiletto 100 for a present and am not going to use it. It is a new in the box model SL100-PK1R and retails for $250.00. I would like to trade it for a Kenwood R-1000 in good shape or any SW radio with digital readout of this nature. My ebay account name is monty55 if you need a reference. I prefer to trade instead of using ebay. Thanks

Impossible. Remember, we're talking about sound. Mechanical
forces only. Suppose you're driving, just going round the corner.
From the outside a fistful of forces is working on your body,
downwards, upwards, sidewards. It is absolutely impossible
that your body's centre of gravity is following different forces in
different directions at the same time. Only the resulting force is
changing your movement (according to Newton's second law).

Nonsense. Mechanical oscillations are fully determined by
forces acting on the vibrating mass. Both mass and resulting force
determine the frequency. It's just a matter of applying the laws of physics.

Question

Is our auditory system in some way acting like a spectrum analyser?
(Is it able to distinguish the composing frequencies from a vibration?)

Ron?
Somebody else?

1067. (OT) : "Off-Topic" FM & TV Antenna Questions

Newsgroup: rec.radio.shortwave
Date: 2007-07-14 21:04:00 UTC
From: RHF <rhf-newsgroups@pacbell.net>
Message-ID: <1184447040.155471.83360@d30g2000prg.googlegroups.com>

OK here are a few "Off-Topic" FM & TV Antenna Questions

I have seen two general types of Multi-Element Yagi type TV Antennas

1 - The most common is the Multi-Element Yagi type TV Antenna
with "Flat" Straight-Line Elements.

```
----------o----------
----------o----------
----------o----------
----------x----------
----------o----------
```

2 - The less common is the Multi-Element Yagi type TV Antenna
with slightly "Bent" Canted "Vee" - about 15 Degress Elements.
The Tips of the Elements pointed slightly to the Front of the
Antenna. See the Log Periodic Dipole Array (LPDA) Image
http://www.hdtvprimer.com/ANTENNAS/GlossaryG.html#logyag

Question : What does the "Canting" of the Antenna Elements Do ?

? Does it Broaden the Angle of Reception {Capture Area}
of the Antenna over the "Flat" Straight-Line Elements ?

? -Or- Does it Narrow the Angle of Reception {Capture Area}
of the Antenna over the "Flat" Straight-Line Elements ?

? What about Front to Back (F2B) vice Side Signal Reception ?
* "Flat" Straight-Line Elements -vice "Canted" Elements
? Which has the better Front and less Side Reception ?
? Which has the good Front and fair Side Reception ?

* * * New Set of Questions * * *

The common Multi-Element Yagi type TV Antenna which
has "Flat" Straight-Line Elements.

```
----------o----------
----------o----------
----------o----------
----------x----------
----------o----------
```

1 - When mounted Horizontal "Flat" is very Directional with
a good Front-to-Back Signal and very good attenuation of the
Side Signals.

2 -if- It is mounted Vertical {With the Tips Up-and-Down}
it is still some what Directional with a good Front-to-Back
Signal and now has fair Side Signals making it closer to
an Omni-Directional Antenna with some Attenuation of
the Signals coming from the back-end.

Question - Are Both # 1 and # 2 Correct ?
- - - If Not - Why Not ?

(OT) - Cause I know it is not Shortwave -but- at lease it
is not : Religion, Politics or Sex.

Yes, of course.

The cilia in the cochlea are different lengths and, consequently,
"tuned" to different frequencies to which they respond by undulating
and sending electrical signals to the brain when the nerves to which
they're connected fire. See:

Oh, nice question. Well, usually (in my case) the functions
are quite simple (like the ones we're here discussing) so that
I see the beat in a picture of a rough plot in my mind.

Mathematical terms like linear, logarithmic, etc. are familiar
to me, but the guys here use linear and nonlinear in another
sense. Something to do with harmonics or so? Anyway,
that's why the hint isn't working here.

Got the (co)sin-stuff. But the unequallities are still there.
It's easy to understand: the left-hand term is sooner or later
greater then one, the right-hand term not (in both unequalities).
As a consequence we've two different x's.

I would say we need the math to work with it, to get our
things done. Understanding nature is not self-evident the
same thing. I would really appreciate it if you would take
the time to read my UTC 9:57 reply to JK once again,
but then with a more open mind. Thanks.

Let me call you an idiot now and get that out of the way.
You're an idiot.
You don't know the laws of physics or how to
apply them.

How do you determine "the frequency"?
Show me the math.

What is "the frequency" of
cos(2pi 200 t) + cos(2pi 210 t) + cos(2pi 1200 t) + cos(2pi 1207 t)

I don't know where it landed, but when I tossed one of doggy's Godzilla rubber squeaky toys, it went out of sight.I got my walking stick out with the squeeze handle picker upper on it.But, I still couldn't find her toy even when I turned on the bright incandescent (F..L flourenscents!!!!) ceiling lights.I have to watch Mississippi Outdoors program on tv right now anyway.

Sorry, but your mental images are hardly linear

You have a system decribed by a function f( ) with
input x(t) and output y(t).
y(t) = f(x(t))

It is linear if
a * f(x(t)) = f(a*x(t))
and
f(x1(t)) + f(x2(t)) = f(x1(t) + x2(t))

A linear amplifier is
y(t) = f(x(t)) = K * x(t)
A ("double balanced") mixer is
y(t) = f(x1(t), x2(t)) = x1(t) * x2(t)
(which is not linear.)

Nature works by laws. We express the laws
in math. Nature is complicated and it may be
difficult to simplify the system one is looking
at or to put together of mathematical model
that is representative of the system but it
is often possible. It is regularly possible to
have a mathematical model of a system that
is accurate to better than 5 decimal places.

Where is "here"?

I'm writing from sci.electronics.basics and, classically, a device with a linear response will provide an output signal change over its linear dynamic range which varies as a function of an input signal amplitude change and some system constants and is described by:

Y = mx+b

Where Y is the output of the system, and is the distance traversed by the output signal along the ordinate of a Cartesian plot,

m is a constant describing the slope (gain) of the system,

x is the input to the system, is the distance traversed by the input signal along the abscissa of a Cartesian plot, and

b is the DC offset of the output, plotted on the ordinate.

In the context of this thread, then, if a couple of AC signals are injected into a linear system, which adds them, what will emerge from the output will be an AC signal which will be the instantaneous arithmetic sum of the amplitudes of both signals, as time goes by.

As nature would have it, if the system was perfectly linear, the spectrum of the output would contain only the lines occupied by the two inputs.

Kinda like if we listened to some perfectly recorded and played back music...

If the system is non-linear, however, what will appear on the output will be the AC signals input to the system as well as some new companions.

Those companions will be new, real frequencies which will be located spectrally at the sum of the frequencies of the two AC signals and also at their difference.

>Something to do with harmonics or so? Anyway,
>that's why the hint isn't working here.

Harmonics _and_ heterodynes.

If the hint isn't working then you must confess ignorance, yes?

Given that my Sangean ATS 505 is several years old and gets middling reviews, and given that the Eton E5 is a relatively new design that has received good reviews, would it be worth it to upgrade to an E5 or would I be better advised to save my money and get an Eton E1? ROCK-IT RADIO NEWSLETTER AND PLAYLIST
FOR THE WEEK JULY 6 TO JULY 13, 2007
Hello Rock-it Radio Listeners,

We woke up to some good news this morning here at Rock-it Radio -- We
read over the wires that Internet Radio in the U.S. is temporarily
saved as a more just solution will be sought for copyright fees for
Internet broadcasters -- Also, this week we have added 3 new vintage
broadcasts in the Rock-it Radio Launching pad and we
have announcements on the winners of the Australia vs. UK Music
challenge drawings and this week's shows feature Rock-it Radio shows
#2161 to #2168.
And can be heard in our archives page at:
http://www.palmsradio.com/rockittext.htm
and click to the speaker on the left to hear the show. So, let's get
started! Remember if you are new to Internet Radio and having trouble
tuning in though --
Check out our webpage to help you out at: http://www.rockitradio.net/tunein.html

==========
REMEMBER YOU CAN ORDER ANY OF THESE ROCK-IT
RADIO SHOWS ON CD!!!!

And help out Rock-it Radio stay online at the same time.
For further information go to -- http://www.rockitradio.net/order.html

Our shows are of course copies straight from the studio and
satisfaction is guaranteed.
The cost is only US $9.50 each plus a flat shipping rate of $1.50 if
you

order one or several -- And when you order you help keep Rock-it Radio online and Rocking!

JOHNNY G AND THE CRUISIN' SHOW ON ROCK-IT RADIO SHOW #2164

There is a smokey cloud hanging over this week's show - musically
anyway!
As England has joined with the rest of the UK , and introduced a
nationwide smoking ban on the day this show was recorded (1st July),
we have a few appropriate songs and archive extracts to light-
heartedly commemorate, commiserate or celebrate, depending on your
point of view, the end of an era.
Within this musical fog is the usual mixture of rockabilly, doowop &

top 40 classics & rarities.

1. Live It Up - Heinz 1963
2. Rock & Roll Rag - The Ink spots 195?
3. I Got Burned - Ral Donner 1963

6. Craving - The Cameos 1955
7. Dream Baby - Glen Campbell 1971
8. My Rifle, My Pony And Me (from Rio Bravo) - Dean Martin & Ricky Nelson 1959
9. Four Feather Falls - Michael Holliday 1960
10. The Rebel (Johnny Yuma) - Gene Summers 1959
11. Cigareets & Whusky & Wild Wild Women - Red Ingle & His Natural Seven 1945
12. Smokey Joe's Cafe - The Robins 1955
13. Stop It, Quit It - The Four Bars 1955
14. Hepcat Boogie - Fletcher Hanna with Red "Joe" Rayner & his Ozark Playboys 19??
15. Hepcat - Larry Terry 1961
16. Floppin' - Gene Summers 1956
17. The Lonely Man Theme - Cliff Adams 1960
18. Three Cigarettes in an Ashtray - Patsy Cline 195?
19. Smokey Places - The Corsairs 1962

Internet Radio Copyright fees -- Receive Reprieve

Online Radio Is Saved; SoundExchange Will Not Enforce New Royalty Rates on Sunday By Eliot Van Buskirk
July 12, 2007

At today's Congressional hearing about the new rates for online radio that would essentially destroy it (as readers of this blog already know), SoundExchange, which was scheduled to receive the new royalty payments on Monday morning (since the enforcement date falls on a Sunday), made a startling statement.
The SoundExchange executive [Jon Simson, executive director] promised -- in front of Congress -- that SoundExchange will not enforce the new royalty rates. Webcasters will stay online, as new rates are hammered out.

I just spoke with Pandora founder Tim Westergren, who expressed relief that Pandora wouldn't have to shut down on Sunday in response to the new rates. He said, "It was getting pretty close. I always had underlying optimism that sanity was going to prevail, but I was beginning to wonder."

He said everyone who called their Congress person about this should feel that they had an effect on the process: "This is a direct result of lobbying pressure, so if anyone thinks their call didn't matter, it did. That's why this is happening." The flyer DiMA distributed to Congress today probably helped a bit too, but overall, it appears

Congress intervened due to pressure from web radio listeners.

Funnily enough, Westergren told me this mere hours after a representative of SoundExchange said that the new rates are "etched in stone." Evidently not.

Update: Another source -- close to the situation although not inside today's closed-door hearing -- confirmed the following: Pandora was there; "progress was made"; the minimum fees are indeed off the table; and SoundExchange and the webcasters that were part of the Copyright Royalty Board hearings are going to have another chat about the rates.

However, the source said the big question right now is whether webcasters not part of the CRB hearing might still have to pay the rates set by the board, minus the minimum fees.

Basically, this news qualifies as a reprieve, but internet radio won't be truly saved until negotiations result in a workable royalty rate.

Another Update: This story has been confirmed by Kurt Hanson of RAIN.

Westergren had more to say, lending insight into a process that was largely opaque to non-participants. Apparently, the per-channel minimum fees mandated by the Copyright Royalty Board were never taken very seriously by those involved. They've now been taken off the table completely, saving Pandora, Live365, and other multicasters from their most imminent threat. Instead, per-station minimums will be capped at $50,000 per year.

"No one thought those per station fees were remotely rational. It only makes sense that they're being taken off the table."

As for the Copyright Royalty Board? They're entirely cut out of the process, having set the rates and then refused a rehearing. Going forward without the royalties being collected, SoundExchange and webcasters will negotiate a new royalty rate with Congress looking over their shoulder -- "and last but not least, the public looking over Congress's shoulder." Alternatively, Congress now has time to consider the Internet Radio Equality Act, which would set webcaster royalties at 7.5 percent of revenue and allow them to continue operating pretty much as they have been.

Either way, this is a big win for webcasters and their listeners. Again, this is a reprieve, and internet radio can't be considered saved until new rates are set that everyone can live with.

There is no 1e5 if the modulator is a perfect multiplier. A
practical multiplier will leak a small amount of 1e5.

Don't be fooled by the apparent 1e5 in the FFT from your
simulation. This is an artifact. Run the simulation with
a maximum step size of 0.03e-9 and it will completely
disappear. (Well, -165 dB).

It does not matter how the .9e6, 1.0e6 and 1.1e6 are put into
the resulting signal. One can multiply 1e6 by 1e5 with a DC
offset, or one can add .9e6, 1.0e6 and 1.1e6. The resulting
signal is identical.

This can be seen from the mathematical expression
0.5 * (cos(a+b) + cos(a-b)) + cos(a)
= (1 + cos(b)) * cos(a)

Note that cos(b) is not prsent in the spectrum, only a,
a+b and a-b are there. And a will go away if the DC offset
is removed.

To clearly see the equivalency, in the summing version of the
circuit, add in the 1.0e6 signal as well. The resulting
signal will be identical to the one from the multiplier
version.

(You can improve the fidelity of the resulting summed version
by eliminating the op-amp. Just use three resistors. The op-amp
messes up the signal quite a bit.)

If you have access to Excel, you might try the spreadsheet
available here (http://keith.dysart.googlepages.com/radio5).
It plots the results of adding and multiplying, and lets
you play with the frequencies and phases.

I'm not understood. So, back to basics.
Take a simple harmonic oscillation of a mass m, then
x(t) = A*sin(2*pi*f*t)
v(t) = d(x(t))/dt = 2*pi*f*A*cos(2*pi*f*t)
a(t) = d(v(t))/dt = -(2*pi*f)^2*A*sin(2*pi*f*t)
hence
a(t) = -(2*pi*f)^2*x(t)
and, applying Newton's second law,
Fres(t) = -m*(2*pi*f)^2*x(t)
or
f = ( -Fres(t) / m / x(t) )^0.5 / (2pi).

So my statements above, in which we have
a relatively slow varying amplitude (4 Hz),
are fundamentally spoken valid.
Calling someone an idiot is a weak scientific argument.
Hard words break no bones, yet deflate creditability.

Huh? A DIRECT word-for-word quote from the front page of the Wall Street Journal is a lack of factuality? And what was false and misleading?

a) Direct quote from WSJ said "unsafe as 9/10/2001"

b) I said wars went on for 6 years (Afghanistan+Iraq). True fact!

c) I said the total cost so far was about half a trillion. True Fact!

d) I then asked a legitimate question of why they felt we were "unsafe" after all that time and money.

I'm sorry, but I don't know what can be more factual than that, nor do I see what is "false or misleading" about any of the statements I made. Please be SPECIFIC in which statement(s) of mine you believe are "false or misleading".

Also, even though the WSJ was my *secondary* source, I hope you can now see why I mentioned it; unless you have an actual recording of a radio broadcast, it can be difficult to remember exactly what was said. If you have a secondary source in *print* (from a conservative, right-wing source no less), it can go a long way towards removing confusion (except in your case, where it seems to be causing confusion).

I didn't try and "turn it" into anything. Just a direct quote from a conservative, right wing source, which in turn lead to a fair, reasonable and perfectly justified question--namely, after all this time and all this money, why are we still at 9/10/01? Again, a FAIR and REASONABLE question. NO bashing intended, but if you insist on seeing it that way, that's YOUR problem.

Well, gee, -personal- likes. So what? Just because you "like" something is not germane to an intellectual discussion. I'm pretty sure you like pizza more than you like Brussel sprouts, but so what?

Legitimately asking if our tax dollars were spent wisely is "Anti-American"? Legitimately asking why we are no safer is propaganda? I'm sorry, but you have that backwards: it's Pro-American!

Please see all of my responses above. Not bashing, not a lie, no distortions--except in your overheated "Tiny Little Brain".

And yes, W does get the credit--or the blame. "The buck stops here" means the President's desk--for better or worse. What part of that simple statement don't you understand? W is not perfect; he can and has made mistakes, and like all of us, he is responsible for what he has done, good or bad. And 70+% of the American public thinks he has done bad. (Just to anticipate you, that was not bashing or propaganda, Just a simple statement of fact from many polls as presented by many sources).

I'm sorry you *STILL* don't get it. Yes, I was truthful to begin with. However, a radio newscast (and radio waves) are a very ephemeral thing. Once the broadcast is over, it's gone. A second source is given as a -courtesy- for those who wish to verify my statement but missed the

broadcast.

> But your follow-on statements were not from the BBC
> there were simply more LL&LWD . {Propaganda}

My follow up statements were true:

-the war has gone on for 6 years
-we have spent half a trillion dollars

And after those two facts, I asked a simple, logical and legitimate question any reasonably intelligent person would be within their rights to ask.

> Whether I heard the BBC Broacast or not does not
> mean that it did not exist : But your follow-on
> statements which were not from the BBC there were

No, it was simply a logical and legitimate question any reasonably intelligent person would be within their rights to ask.

Fact: We have been fighting the "Global War on Terrorism" for 6 years.

Fact: We have spent half a trillion to date.

Fact: The Beeb (and the right wing WSJ) reported we were in as much danger as we were before the "War on Terrorism" started.

Now, it seems that any person with half a brain would be within their rights to ask why this is so. Not bashing, not anti-American, not propaganda--just a simple, fair, legitimate question.

Now please, don't be so rigid in your "party-line" thinking and don't be such a nazi that you think people should not be able to question their government without being accused of being "anti-American". If your "Tiny Little Brain" gave it a just moment's thought, you would realize questioning your government is PRO-American. That's how America came into being--by "questioning" King George (the English one).

But if they were to use NICAM for a new digital radio system, and they wanted it to work in a mobile environment, they would presumably add some error correction.

According to a quick skim of my copy of "The ARRL Antenna Book", they're
not Yagi antennas. The key indication that it's a Log Periodic antenna
is the feedline that runs the length of the active elements, zigzagging
back and forth, both sides of a balanced line connecting one element to
the next element down the boom on the opposite side. Ending up with
a shorting stub at the back end. The feedline goes to the front end,
the direction with the most gain.

A lot of these multiband TV antennas are a combination Log Periodic and
Yagi with some unconnected director and reflector elements bolted right
to the boom.

It converts a LPDA (Log Periodic Dipole Array) to a LPVA (Log Periodic
V Array). This has a higher gain because the elements can then
operate on harmonic frequencies, making more of the antenna work
at the same time. A LDPA only uses a small section of the elements

on any one frequency.

Beats me. Usually higher gain means better directivity.

This isn't clear here.

Are the elements horizontal or vertical?
Is the boom horizontal or vertical?
If vertical, pointed up or down?

Are the signals you want to receive horizontally (broadcast)
or vertically (police/fire/mobile) polarized.

I would like to trade it for a Kenwood R-1000 in good shape or any digital readout SW radio of this nature. My ebay account name is monty55 if you need a reference. I prefer to trade instead of using ebay.

No, it isn't, since in the additive mode any modulation impressed on
the carrier (1.0e6) will not affect the .9e6 and 1.1e6 in any way
since they're unrelated.

It will _look_ identical, but it won't be because there will be
nothing locking the three frequencies together. Moreover, as I
stated earlier, any amplitude changes (modulation) impressed on the
1.0e6 signal won't cause the 0.9e6 and 1.1e6 signals to change in
any way.

>(You can improve the fidelity of the resulting summed version
>by eliminating the op-amp. Just use three resistors. The op-amp
>messes up the signal quite a bit.)

Actually the resistors "mess up the signal" more than the opamp does
since the signals aren't really adding in the resistors. That is,
if f1 is at 1V, and f2 is at 1V, and f3 is also at 1V, the output
of the resistor network won't be at 3V, it'll be at 1V. By using
the opamp as a current-to-voltage converter, all the input signals
will be added properly since the inverting input will be at
virtual ground and will sink all the current supplied by the
resistors, making sure the sources don't interact.

Much better to be 9/10/01 than at 9/11/01 any way one slices, dices, spindles and/or mutilates it.

Think about it.

Did it ever occur to you liberal mouth-breathing morons that Al Qaida
would be EVEN STRONGER right now if President Bush hadn't gotten in
their face and started killing them in Afghanistan and Iraq?

No, of course not. That would be too logical for a Marxist "useful
idiot" like you.

I suppose it's somewhat comforting to know that you liberal
fudgepackers will be the first ones beheaded by the Muslims.

Analog cells phones should stop using FM and should start using AM
with SHF frequencies - at least 3 GHz and at most 30 GHz.

http://en.wikipedia.org/wiki/Super_high_frequency

I choose SHF frequencies because SHF seems to be the sweet spot
between frequencies that are high-enough to rip through charged
particles & provide large amounts of bandwidth, yet low-enough to be
wireless and long-distance. At EHF and above, it starts to get into
the IR range where long-distance wireless reception is not possible
and atmospheric opacity begins to dominate.

Equally important, SHF frequencies can efficiently transmit signals
using extremely small transmitters. Longer wavelengths require larger
transmitters.

Obviously there are frequencies lower than SHF -- VHF and above --
that can easily penetrate charged particles [e.g. anything resembling
the ionosphere or heliosphere]. However, lower-frequencies tend to
result in less bandwidth, so it is better to use higher-frequencies
when the application requires significant bandwidth.

I choose AM because it requires less bandwidth than FM. In addition,
AM tends to retain reception of rather weak signals, while FM
"considers" such signals to be absent.

to find out more and am surprised to find there is almost no mention of
them. (unless I'm using wrong search criteria)

Analog cell phones are going away.

Cell phones already use frequencies in the 3 GHz region.

You are an idiot.

Really? Which ones? I'm only aware of cell systems using 800, 900, 1800 and
1900 MHz. There are some (very few) multisystem phones that use all four of
those ranges.

Not bad...seven names in only three sentences. Well, they say
name-calling is the last resort of the intellectually challenged. Thank
you for proving it.

Did it ever occur to YOU that there were ZERO al Qaeda in Iraq before Bush came in?

Did it ever occur to YOU that with very little electricity, no fuel, broken fresh water supplies and broken sewage systems, unsafe to send your kids to school, no jobs (due to Bremer's 'de-Baathification'), 35,000 dead civilians (probably higher, but Bush himself admitted to this number), Abu Ghrib prison scandal, raping and killing 14 year old girls and then murdering their family, that WE are -creating- al Qaeda recruits faster than we can kill 'em.

Maybe if the entire cellular infrastructure would move up to the LMDS 26-30GHz band, I might recover some of the money I sunk into an LMDS startup. Great idea. I like it.

Of course, there are problems. Nobody makes an economical mm wave handset. There will probably need to be 8-10 times more cell sites built than are currently in use on 800/900 and 1800/1900MHz. Of course mm wave propagation is affected by just about everything, so it probably won't work indoors. No problem, just add more cell sites and repeaters. Of course you couldn't get away with the existing relatively low power output handsets and insipid gain antennas, so we'll just crank up the power and antenna gain on the handset and fry a few peoples brains. It's a small sacrifice to make so I watch TV on my cell phone.

They do? I didn't know that. My 49MHz automobile alarm dongle isn't much larger than my 2400MHz USB wi-fi dongle. Are you sure the transmitter has to be bigger or were you thinking of the antenna?

I don't know of any wireless service provider that charges for particles. What are they charging and what's the stock symbol? I've always suspected that charged particles might be worth selling.

Hint: It doesn't matter what you're doing, there's never enough
bandwidth available. If you provide XX MHz of available bandwidth,
someone will immediately supply an application that required 10 times
the available bandwidth. More simply, applications tend to fill up
available bandwidth quite rapidly.

I'll make it really simple for you. FM is "hi-fi", while AM is noisy
"no-fi". Don't you want to be cool strutting down the street with
your iPhone watching HDTV with 7.1 sound? It wouldn't do to have it
sound like the typical AM broadcast station. For decent quality, you
gotta have FM.

This is fun. Kinda reminds me of some of the business plans I
reviewed during the dot com boom.

Maybe the antenna.

FM has too much hiss. FM signals are lost very easily. AM tends to
retain reception of a signals even when this signal is extremely weak.
In FM, once you go below a certain wattage, you completely lose the
signal, and the annoying hiss begins. With AM it is much easier to
receive the low-power signal.

AM maybe more vulnerable to electronic disturbances but so what? The
magnetic RF interferences that are heard on the AM radio are
entertaining compared to the deafening hiss on the FM radio.

> For decent quality, you
> gotta have FM.

Nope. For decent quality sound you need audio that is uncompressed PCM [similar to CDs and WAVE files] with a sample rate of at least 44.1 KHz and a bit-resolution of at least 16-bit. Or the analog equivalent.

In general: that sum times a constant factor.
Perhaps the factor being one is usually tacitly assumed.

From physics (and my good old radio hobby)
I'm familiar with the phenomenon. The meanwhile
cleared using of the word non-linear in a narrower
sense made me sometimes too careful, I guess.

In the following passage I wrote "a relatively
slow varying amplitude", which relates to the
4 Hz beat in the case under discussion (f1 =
220 Hz and f2 = 224 Hz) where your
expression evaluates to
x(t) = 2 * cos(2pi 2 t) * sin(2pi 222 t),
indicating the matter is vibrating at 222 Hz.

I thought the experiment being discussed was one where the
modulation was 1e5, the carrier 1e6 and the resulting
spectrum .9e6, 1e6 and 1.1e6.

Read my comments in that context, or just ignore them if
that context is not of interst.

I did not write clearly enough. The three resistors I had
in mind were: one to each voltage source and one to ground.

To get there from your latest schematic, discard the op-amp
and tie the right end of R3 to ground.

To get an AM signal that can be decoded with an envelope
detector, V5 needs to have an amplitude of at least 2 volts.

There is a difference between people who knowingly screw the tax payers (without remorse much less) and people who are passive victims of other people's doings. Unfortunately, My gubberment retirement investment has Halliburton and Micro$oft stocks but I am unable to simply drop that part of the investment.

I suspect your AT&T, ComCast (or any other large name communications company) knowingly supplies most of the child porn on the internet yet you pay a monthly fee. Does that mean you support child porn?

I simply can not see Ladybird J knowingly say that she is all right with killing our boys overseas to increase her stocks on Halliburton. But, I can see this easily from Bush and Cheney!

Huh?

NOTE TO RHF: Give ME a link showing where -I- agreed to such a thing. I don't consider myself bound to "Godwin"--whoever he is. Plus he seems to overlook and arbitrarily eliminate the possibility that in some debates, such a comparison may indeed be legitimate and justified. In any event, the debate is not about that.

Bottom line: I think it is every American's right and even duty to question their government when it is felt to be necessary. I consider it pro-American. Our Founding Fathers thought so too.

You, on the other hand, seem to BLINDLY and MINDLESSLY follow along, right OR wrong. Furthermore, you call people liars, liberals, anti-American and propagandists for those who dare to exercise their

For a given radio system, higher frequencies don't go as far as lower frequencies. You can see how it works by just plugging in different frequencies a "free space loss" calculator such as:
<http://www.terabeam.com/support/calculations/free-space-loss.php>
For every 6dB of additional path loss, your range is cut in half.
Incidentally, this is not my idea or a conspiracy. Mother nature made it that way and we have to live with the physics.

FM has a limiter that eliminates all AM noise components. That's exactly the way the soon to be obsolete analog cell phones operate. If you're hearing hiss, then there's something broken in your FM stereo.

>FM signals are lost very easily.

I have a lost and found for missing signals. It's called a spectrum analyzer. If the signal wanders, I can usually find it. Not a problem.

>AM tends to
>retain reception of a signals even when this signal is extremely weak.

Not really. If you really want weak signal reception, I suggest you look into SSB (scientific set back) modulation. Half the bandwidth gives you twice the sensitivity.

>In FM, once you go below a certain wattage, you completely lose the
>signal, and the annoying hiss begins. With AM it is much easier to
>receive the low-power signal.

Nope. All FM receivers have a squelch to mute the receiver when there's not enough signal to make it worth listening. The squelch is much more efficient with FM than an AGC operated squelch for AM.

Anyway, if someone calls with me on my cell phone with a crummy signal, I don't want to talk to them and I usually ask them to call me back when in a better area.

The problem with AM audio is that the ultimate signal to noise ratio isn't very good. AM is noisy at any signal strength. The noise never really goes away. On the other foot, FM is noisy with very weak signals, but becomes very quiet once the limiter starts to work. That's why FM is preferred for music and why analog AM broadcasting sounds marginal at any signal level.

>AM maybe more vulnerable to electronic disturbances but so what? The
>magnetic RF interferences that are heard on the AM radio are

If your FM radio has a deafening hiss, you're probably not tuned to any station. Try listening to a station instead of between stations. If it has an AFC, turn it on. There may also be some kind of malfunction in your hi-fi as you should not be hearing any hiss when tuned to a station.

I thought you didn't like digital? You only gave me a choice of AM or FM. Now, you want digital. Well, digital is what today's cell phones use mostly to maximize spectrum efficiency. With compression and proper coding, you can pickup quite a bit of efficiency, at the expense of sounding like you're gargling ball bearings. Not too bad a tradeoff for voice. Really awful for music. Fortunately, none of the broadcasters or cellular carriers use raw CD data, mostly because it's not compressed.

So, are you ready to go public with your idea? When's the IPO?

FM is not inherently any more 'hi-fi' than AM. Fidelity is a product of bandwidth, not modulation type. AM is not even so susceptible to noise as the frequency goes up, since the energy of the noise pulses goes down logarithmically as frequency goes up. AM is used for aeronautical communications very successfully for several reasons, one of which is the LACK of 'capture effect'. There are still some frequencies where AM will be more susceptible to interference than FM, but FM would still suffer, for instance the segment between 1330-1400 MHz which is the natural frequency of Hydrogen (lots of that around).

So where did you apply the laws of physics?
You said, "It's just a matter of applying the laws of
physics." Then you did that for the single sine case. Where
is your physics calculation for the two sine case?
Where is the expression for 'f' as in your first
example? Put x(t) = 2 * cos(2pi 2 t) * sin(2pi 222 t)
in your calculations and tell me what you get
for 'f'.

And how do you get 222 Hz out of
cos(2pi 2 t) * sin(2pi 222 t)
Why don't you say it is 2 Hz? What is your
law of physics here? Always pick the bigger
number? Always pick the frequency of the
second term? Always pick the frequency of
the sine?
What is "the frequency" of
cos(2pi 410 t) * cos(2pi 400 t)

What is "the frequency" of
cos(2pi 200 t) + cos(2pi 210 t) + cos(2pi 1200 t) + cos(2pi 1207 t)

AFAIK, the main issue with AM is that it is much more vulnerable to
magnetic disruptions than FM. That is why when you are listening to
the AM radio at home and someone turns on the microwave-oven, you here
those odd sounds on the receiver.

Also, if there is a solar prominence you can hear the resulting
magnetic disruptions on an AM radio receiver. They sound scary and
enjoyable at the same time.

It depends, if I can find the analog-equivalent of 44.1 KHz-sample-
rate, 16-bit-resolution digital audio, that just as good.

If I a limited to only AM or FM for analog audio, I choose AM because
I like the sounds generated by solar prominences and other RF magnetic
disruptions.

Ironically, for video, I prefer FM. Yup, video signals on FM carriers
instead of AM carrier. The Y-luminance signal should be broadcasted on
an FM carrier. That's the analog video I like.

Disgusting! I hate most forms of digital audio compression. For me,
either keep it uncompressed or use WMA compression. All non-WMA

digital audio compressions below 320 kbps sound like stinky human
fart. Or an angry infant foaming at the mouth.

> Not too bad a
> tradeoff for voice. Really awful for music.

Awful for both. The only digital audio compression I like is WMA.
The sounds resulting from WMA compression sort of make me think of
those RF electronic telecommunication devices used in The Bourne
Identity. That movie features some really awesome devices that make
those interesting sounds - for example, when the main character is
getting his hand screened. I also associated these sounds with the
electronic telecommunication devices used by the Soviet Union. Soviet
Union has got some really psychedelic sounds in their electronics. You
know, those fancy dial-up modems tones?

> Fortunately, none of the
> broadcasters or cellular carriers use raw CD data, mostly because it's
> not compressed.

All digital audio compression formats other than WMA, stink badly!!

Here are my rules for digital audio:

A. Whether compressed or not, the audio must be monaural and with a
sample-rate of at least 44.1 kHz.

B. The only compression allowed is WMA. No other compression format is
permitted.

C. In its uncompressed form, the audio must have a bit-resolution of
at least 16-bit

D. If compression is used, then the sample-rate of the compressed and
the uncompressed version of the audio must be the same.

E. If compression is used, the only thing that should be decreased is
the bit-resolution. The sample-rate must remain unchanged

Let's say a song that was originally recorded in stereo is given to
me. The song must to be converted to mono* via the following steps:

1. Record audio from CD [or other stereo audio source] into Wavelab,
Adobe Audition [or other audio software] into a file. For simplicity
let's call this file "Track1.wav"

2. Make a copy of Track1.wav and save the copy as "Track1B.wav"

3. Open Track1.wav and reduce the gain of its audio by 77.5%

4. Convert Track1.wav to monaural audio

5. Save Track.1

6. Open Track1B.wav and reduce its audio gain by 50%

7. Invert the phase of the left channel of Track1B.wav

8. Convert Track1B.wav to mono

9. Save Track1B.wav

10. Create a new stereo wave file whose bit-resolution is 16-bit and sample rate is 44.1 kHz. For simplicity let's call this file "untitled.wav"

11. Copy and paste the audio of Track1.wav into the left channel of untitled.wav

12. Copy and paste the audio of Track1B.wave into the right channel of untitled.wav

13. Convert untitled.wav to mono

14. Save untitled.wav

*Songs that were originally-recorded in stereo need to be converted to mono via the above 14 steps because different sounds are recorded differently in the L and R channels. The audio that is originally panned to the center is significantly louder than the audio whose phase is different in the left & right channels. This is why I reduce the loudness of non-inverted stereo audio file by 77.5% [before converting it to mono].

In the stereo file whose left channel has its phase inverted, I decrease the loudness only by 50% and then convert it to mono. Usually -- the lead vocals, bass, and percussion are recorded identically in both the left and right channels. The piano, chorus, guitar, and synth pads are usually recorded differently in the left and right channel.

FM was invented by Edwin Armstrong specifically to eliminate the noise problems of AM broadcasting. What I think you might be referring to is the huge pissing match between Armstrong and John Carson over whether FM was any better than FM in the 1930's. The consensus is that very narrow band FM isn't that much better than AM (of equal occupied bandwidth), but wide band FM (as used in broadcast FM and TV) is far better than AM for just about everything.
<http://fecha.org/armstrong.htm>

>Fidelity is a product of
>bandwidth, not modulation type.

Correct. Actually, it's also a function of modulation linearity (distortion and intermod) and encoding method (dynamic range), but I don't wanna slither down that diversion. Pretend I didn't mention it.

>AM is not even so susceptible to noise as
>the frequency goes up, since the energy of the noise pulses goes down
>logarithmically as frequency goes up.

If you're thinking of impulse noise, you're mostly correct. However, there are plenty of other sources of AM noise available. For example, the typical VHF aircraft radio requires substantial filtering of the magneto to avoid hash. Same with any onboard motor. If you've ever tried to install a TV (VSB is a form of AM) in a vehicle, you'll also find that ignition and motor noise can be a problem.

Also, your statement isn't quite right. I think what you meant to say is that as the frequency increases, the energy produced by an impulse source, in a given bandwidth, goes down. Even that's not accurate as I have a fluorescent lamp calibrated noise source that's quite noisy

well into the GHz range.

>AM is used for aeronautical
>communications very successfully for several reasons, one of which is the
>LACK of 'capture effect'.

The FAA, FCC, and various manufactories have tried to move aircraft
radios away from AM and towards FM several times in the past 30 year
or so. They failed mostly due to international WRC reluctance to swap
out expensive radios. It took literally forever to get GPS receivers
TSO approved and about 15 years for nav/com radios to go from 50KHz to
25KHz channel spacing, and that was just the FAA. Where else can you
find an industry, where progress is somewhat retarded by a regulatory
agency of the federal government?

I listen to a mix of VHF aircraft AM channels and FM ham and public
safety channels on my scanner almost constantly. It's easy to
recognize the AM stations by their uniformly crappy audio.

Most domestic ground to ground airport traffic is now all FM, as is
military ground to ground and ground to air. The reason is that it's
difficult to find a decent AM aircraft band walkie talkie. So, they
use commercial FM radios. The only AM walkie talkies are used by
experimental aviation and ultralights, some of which do not have much
of an electrical system that can handle the grossly inefficient AM
transmitters.

Also, nobody really cares about the "capture effect" as the tower
usually has multiple receiver sites and can generally deal with
simultaneous transmit collisions. However, they do care about the
heterodynes produced by simultaneous transmissions, which obliterate
both transmissions. With FM, they could use commercial receiver
voting systems and largely eliminate the problem.

If my AM or FM receiver is sensitive enough to hear something in the
"water hole", it would be attached to a very big dish antenna.

KJ,

IMO, the E5 is worthy step up from the 505. I've owned them both. The 505 was so-so. Gave it to a friend in Kansas. The E5 might be the most sensitve compact SW portable I've ever owned. And, I've noticed that they're going for some pretty reasonable prices on eBay.

Good luck!

Mike

Wrong. Take a magnet, any magnet. Wave it around your AM or FM
radio. Hear anything different? You won't. Therefore, forget about
magnetic disturbances. The main issue with AM is susceptibility to
pulsed noise, as found in motors, fans, auto engines, and computahs.
FM doesn't have as bad a problem because the limiter in the receiver
clips everything to the same level, thus reducing the effect.

No. Microwave ovens operate at 2400Mhz. AM broadcast operates at
1MHz. No way there's going to be any interference there. However,
the microwave oven may have a fan or CPU that runs the display, that
belches garbage at 1MHz. I just tried mine and there's a tiny bit of
buzz coming from the display section when I shove an AM radio right up
to the display. If that's what you're hearing, I would test it with a
different microwave oven. If only yours has the problem, I suggest
you consider a replacement.

You can also hear lightning storms. In the US, most of those are in
the south east of the country. Nothing like interference from 3000
miles away. Lightning detectors operate in the 25-50KHz region.
Incidentally, there are about 8 million lightning hits per day, which
is why the noise sounds almost continuous.

(NYC). The late night radio
industry is abuzz with a rumor that
radio talk show maven Art Bell may
make an anticipated jump to satellite radio.
Currently Sirius and XM have filed with the FCC.
Supporting the merger are these companies;"Honda,
Crutchfield, Circuit City, the NAACP
and League of United Latin American
Citizens, American Trucking Associations,
National Council of Women$B!G(Bs
Organizations, and League of Rural Voters."
A mass exodus of radio listeners could result should
Art Bell emerge on the satellite radio after a merger.
An enthusiastic radio strategist comments, "It may
make him the most powerful voice on satellite
radio, if he plays his cards right!" Art Bell announced
his retirement earlier this month.

That's because this magnet isn't vibrating fast enough. If it were to vibrate at the carrier frequency, you would most likely hear something.

The AM audio cause by lightning is so boring. All you get are clicks and pops. Now a solar prominence, this results in some terrifying tones on the AM radio, they resemble the second set of tones played by the Emergency Alert System -- the higher-pitched tones. At times the cosmically-induced AM radio disruptions sound like the audio you get when playing the 1st level of the 1st-stage of Super Mario Bros 1 on channel 4, when the receiver is connected to channel 3. Instead of hearing the game's music, you here those frightening yet enjoyable tones. Sometime you can here these same sounds on a PA system or an airplane. When I was in 1st-grade, the schoolbus I went in had a CB radio which would often make these scary sounds. Such sounds would -- and still to a much smaller extent -- make my eyes water in fear, dissociation, enjoyment, and psychdelia.

When the sun emits a prominence, that prominence causes high-power waves of magnetic energy in the RF region to be emitted. These waves can be heard on the AM radio on Earth. This is the sound that affects CBs and other radio receivers using AM.

The main reason why anyone would prefer FM over AM is if they can't handle these terrifying sounds w/out going hysterical.

There are some who have had emotionally-strong experiences with these sounds -- perhaps a fire on an aircraft -- when these sounds are heard, flashbacks occur which can entirely consume an individual's psyche. Such an individual might not even know why he/she is getting psychologically-excited while listening to the sounds because the brain involuntarily suppresses emotionally-intense memories.

Here is what use to happen -- and still happens to some extent -- to me when I hear the sounds I describe:

1. Psychogenic shock and psychological dissociation due to the extreme fear/enjoyment caused by the sounds.
2. Flashbacks of my house in Stamford, Connecticut in which my parents and me moved out when I was around 2.5 years of age.
3. Enjoyable yet terrifying thoughts about outer space due to the knowledge/belief that the source of the sounds is in outer space
4. Fear of -- and obsession with -- magnetism due to knowledge/belief that the radio waves are magnetic
5. Decrease in heart rate
6. Slow deep breathing
7. Muscle relaxation
8. Increased tear production

Ain't it interesting when things that are so scary are also so enjoyable at the same time. Why else would they develop virtual reality systems? Or visit outer space?

We tend to enjoy what we fear. At times.

We're in this mess because we haven't been relentlessly brutal enough

I have an oven with a bit too much leakage; various components in some
of my broadcast and hf receivers make good antennas at 2.4GHz and as the
stirrer rotates in the oven, the signal level changes (60 Hz modulation
of course).

This would seem unlikely. What would Bell get from satellite that he didn't already have in his old format? And his existing show is already carried by XM satellite.

Actually, what you'll hear is whatever is driving the magnet at the carrier frequency. For example, if you shove the magnet into a solenoid coil, and drive the coil at 1MHz, the magnet will move very slightly at 1MHz. However, the crud that you'll hear at 1MHz is coming from the solenoid coil, not the magnet. If the magnetic field cuts across some wire, that happens to be the antenna of your 1MHz receiver, then yes, you'll hear something, but only if it's moving at 1MHz.

>The AM audio cause by lightning is so boring.

If you've ever been hit by lightning, I don't think you'll find it very boring. With 8 million hits per day, chances are good that you'll get hit. Ummm... could you step outside for a moment?

>All you get are clicks
>and pops.

Oh no. It's much better than that. You get snap, crackle, pop, crash, hiss, zap, buzz, braaaaaap, and other noises, all to the accompanyment of loud thunder and the smell of ozone. It can also make the fur stand up on your back. If all you hear are clicks and pops, your receiver is comatose.

Ummm... coronal mass ejections and solar flares are particles, not
radio waves. The interference to radio communications is mostly from
these particles effects on the ionospheric layers. There is some RF
involved, but it's at microwave frequencies and requires a big radio
telescope to see.

Hmmm... All my communications radios except the aircraft navcom stuff
is FM. Maybe that explains why I'm spending time explaining to you
the basics. I'll try not to get too hysterical.

Not a problem. Everyone knows that too much RF rots the brain and
causes cancer of the vocabulary. Anyone involved in RF has to be
insane or will shortly be insane.

Groan. I built it myself from an article in some long lost magazine perhaps 30 years ago. It's just a 5watt fluorescent tube, with a few turns of wire wrapped around it going to a broadband CATV amplifier. One end of the wire coil is terminated at 50 ohms. The other end goes to the broadband amp. The lamp is powered by a heavily filtered isolation xformer. Calibration consisted of taking a scope photo of the output on a spectrum analyzer. Just about any gas discharge tube will work. Neon, fluorescent, blue or green gas discharge display, the new compact fluorescent tubes, plasma tube TV, etc.

Most older microwave noise sources use argon filled gas discharge tubes, but fluorescent will sorta work. The HP 346A (3-18GHz) and 349A (0.4 to 4GHz) noise sources are examples of such gas discharge tube test noise sources. The manual for the 342A NF test system, which includes the 349A noise source is at:
<ftp://bama.sbc.edu/downloads/hp/342a/342a_349a_service_6.pdf>
See section 5.

Some minor notes around Fig 9.24 on Page 207 at:
<http://books.google.com/books?id=sNLQmi3ymTYC&pg=PA206&lpg=PA206>

I could post some photos, but I really don't want to tear it apart to take pictures of the guts.

These daze, microwave noise sources use avalanche diodes although just about any diode with a sharp knee will work. Diodes are more stable, less fragile, and easier to produce than gas discharge tubes.

Did anyone ever actually figure out what the format of JACK - FM was supposed to be?? No matter when I tuned in --- there was never any "same type of music" playing. I heard at one time they were targeting males 25-40ish, But even that seemed very hard to prove - as I could never get a handle on the genre of music they were playing. It actually seemed as though the station - in my area anyways, had been taken over - with very little money - so they were just playing whatever was "in the stacks". But last time I checked - CBS had a lot of funds so that can't be it. And why on earth would anyone think loosing Dick Biondi was a good thing -- when he has a very loyal and very estabished listener base, was a puzzle to me??

What's the game plan now?? Do you think they will go back to the oldies format - because now at least in this market - there are two new stations - one FM and one AM that have taken that over. And I don't think JACK will have held on to those oldies listeners.

Specifically, by design, JACK-FM was not narrowed into a genre. As an import from a couple of college kids with a local license in Canada, JACK was created to be 'playing what we want...' meaning anything and everything. At least anything and everything that these two college kids liked.

As it caught on, JACK became more formatted. In fact, the Hollander brothers committed a large block of resources to 'format' and fine tune JACK...which, no surprise, was contrary to the very purpose of JACK.

It

You're failing to take into account the invincible ignorance of Les and Joel Hollander...who both, at the time of the switch berated the listeners of WJMK for their 'outdated' and 'antique' listening tastes. Les saying that no matter what you do in the business someone's going to be putting their boot on your neck, so we're just going to do this, and to hell with anyone that doesn't like it.

Jack in Chicago plays what the Hollander brothers' research chooses to play. And by being jockless most of the day, the decline in ratings is more than offset by the savings in salaries.

Remember: It's Radio in the US...it's always about the bottom line. CBS could have every known dollar in the Universe....it doesn't matter. They'd continue to do what they do as expenseless as possible.

The likelihood of WJMK returning to Oldies 104 is slim. For now, at least, Jack is producing positive cash flow. Until and unless that changes, or Dan Mason makes and executive decision to un-JACK, things will continue. Mason's first declaration when taking over the radio division was to return autonomy to the local manglers and Program Directors. So, the chance of an executive order coming out of Blackrock is slim.

I was listening all around that band today. heard several from all over the midwest booming in up here near Redmond WA.

one was actually east coast (Georgia).

W1AW is generally operated portable in the IARU Contest (which was held this past weekend) every year. It was here in Tennessee last year. (I don't know where they were this year but I suspect the Atlanta area) In the IARU Contest, each country's national amateur radio society's headquarters station - in the USA's case, W1AW - counts as a special score multiplier. An attempt is made to activate that station on all HF amateur bands, both Morse Code and voice, simultaneously. The normal W1AW station in Connecticut doesn't have that capability. (in fact, I don't know of *any* single amateur station that has that capability) Multiple sites are used.

These days, FCC regulations allow an amateur station to be operated from any point under FCC jurisdiction without notice, as long as the station licensee consents. It's not even necessary to identify as portable anymore. (W1AW *could* operate from Puerto Rico and simply identify as "W1AW", though a lot of people would be wondering why they were saying they were in ITU Zone 11!)

That was my understanding, and is why I was surprised when you made
the claim, above:

"It does not matter how the .9e6, 1.0e6 and 1.1e6 are put into
the resulting signal. One can multiply 1e6 by 1e5 with a DC
offset, or one can add .9e6, 1.0e6 and 1.1e6. The resulting
signal is identical."

which I interpret to mean that three unrelated signals occupying
those spectral positions were identical to three signals occupying
the same spectral locations, but which were created by heterodyning.

Are you now saying that wasn't your claim?

>Read my comments in that context, or just ignore them if
>that context is not of interst.

What I'd prefer to do is point out that if your comments were based
on the concept that the signals obtained by mixing are identical to
those obtained by adding, then the concept is flawed.

That really doesn't change anything, since no real addition will be
occurring. Consider:

```
f1>---[1000R]--+-->E2
|
f2>---[1000R]--+
|
f3>---[1000R]--+
|
[1000R]
|
GND>-----------+
```

Assume that f1, f2, and f3 are 2VPP signals and that we have sampled
the signal at E2 at the instant when they're all at their positive
peak.

Since the resistors are essentially in parallel, the circuit can be
simplified to:

```
E1
|
[333R] R1
|
+---->E2
|
[1000R] R2
|
GND
```

a simple voltage divider, and E2 can be found via:

$$E2 = \frac{E1 * R2}{R1 + R2} = \frac{1V * 1000R}{333R + 1000R} = 0.75V$$

Note that 0.75V is not equal to 1V + 1V + 1V. ;)

Uh, how about a nice fat contract? Money has always been an excellent

Yes, what's left of his "existing" show is on XM. But how about "The
Art Bell Show"? Art's enough of an egomaniac to think he can pull in
enough of an audience to carry his own show, even if it competes with
Coast-To-Coast AM.

1169. A Few FM and TV Antenna Questions {Clarifications}

- - - Sorry this is a Revised Re-Post - - -
Thank you for your replies and now I I understand the difference
between the Yagi Antenna and LPDA Antenna. But that is not
the focus of my questions :

A Few FM and TV Antenna Questions {Clarifications}

I have seen two general types of Multi-Element FM & TV Antennas :

1 - The most common is the Multi-Element FM & TV Antenna
with "Flat" Straight-Line Elements.

2 - The less common is the Multi-Element FM & TV Antenna with
slightly "Bent" Canted "Vee" - about 15 Degress Elements.
The Tips of the Elements pointed slightly to the Front of the
Antenna. See the Log Periodic Dipole Array (LPDA) Image

OK - I understand the difference between the Yagi and
LPDA Antennas.

MY QUESTION IS :
What does the "Canting" {Slight 'Vee' Shape Bent} of the
Antenna Elements Do ?

? Does it Broaden the Angle of Reception {Capture Area}
of the Antenna over the "Flat" Straight-Line Elements ?

? -Or- Does it Narrow the Angle of Reception {Capture Area}
of the Antenna over the "Flat" Straight-Line Elements ?

? What about Front to Back (F2B) vice Side Signal Reception ?
* "Flat" Straight-Line Elements -vice "Canted" Elements
? Which has the better Front and less Side Reception ?
? Which has the good Front and fair Side Reception ?

* * * New Set of Questions * * *

The common Multi-Element FM & TV Antenna which has "Flat"
Straight-Line Elements.

1 - When mounted Horizontal "Flat" is very Directional
with a good Front-to-Back Signal and very good attenuation
of the Side Signals.

Top View :
....Front v

2 -IF- It is mounted Vertical {With the Tips Up-and-Down}
it is still some what Directional with a good Front-to-Back
Signal and now has fair Side Signals making it closer to
an Omni-Directional Antenna still with some Attenuation of
the Signals coming from the back-end.
* A "Cardioid" {Heart-Shaped} Antenna Reception Pattern

MY QUESTION IS : Are Both # 1 and # 2 Correct ?
- - - If Not - Why Not ?

NOTE - OK not about Shortwave -but- It is about Antennas.

I really do think you need to revisit some VERY basic principles of
communications theory.

It sounds like you might have a causal peripheral understanding of
communications theory and stumbled upon some obscure radio propagation
concept and want to apply that obscure concept to to change the whole way
we think of communications. Ponder for a moment why said obscure concept
remained obscure.

I could go on and on and pick each of your comments apart...but it would be
a waste of time.

You must use the BC TUNE (preselector) knob while listening between
600 and 1599 khz.

Maybe you need to put new batteries in the NDH518.

The 515 is a wonderful radio. Hope you enjoy it.

Under the stated conditions there is no sine wave oscillating at 222 Hz. The wave has a complex shape and contains spectral components at two distinct frequencies (neither of which is 222Hz).

The particle also does not average the two frequencies. The waveform which results from the sum of two pure sine waves is not a pure sine wave, and therefore cannot be accurately described at any single frequency.

:-) Matter would move in the same way the sound pressure wave does, the amplitude of which is easily plotted versus time using Mathematica, Mathcad, Sigma Plot, and even Excel. I think you should

still give that a try.

>it was a simple noise blanker.

"Extender". It was a 2nd almost identical receiver, tuned to a nearby
empty frequency. If there was any impulse (ignition) noise, both
receivers would detect the pulses. The 2nd (Extender) receiver would
block the IF signal in the main receiver for the duration of the
pulse. This resulted in a "hole" in the receive IF and audio, but it
was far less noticeable than if the pulse were allowed to be heard.
The tricky part of the design was getting the delays nearly identical
in the two receivers. It also made the 80D/140D/Motrac/Motran radios
rather huge and heavy. Extenders were considered a "standard option"
on most Low Band (30-50Mhz) radios as this is where the ignition noise
is the worst.

The more generic term "noise blanker" applies to this scheme, as well
as a mess of others that detect in a single receiver or blank in the
IF or audio. GE decided that "extender" was a good name for their
mobile repeater, and called it a "mobile extender" or more commonly
just "extender".
<http://www.mbay.net/~wb6nvh/chpradio.htm>
Egads. I'm cleaning house and found a large box of 40 year old
Motrash control heads and cables. Want some junk?

There was also a scheme to eliminate ignition noise that involved
running a wire to the points on the distributor. The assumption was
that there was a substantial delay between when the points opened, and
when the spark jumped in the spark plug. This allowed the receiver to
be blanked before the noise pulse arrived, which really improved the
noise blanker performance. I was working on the design when marketing
decided that it should tilt at other windmills. Only a few prototypes

were built, were never patented or produced, and worked really quite well. Cheaper too. That was all just fine because cars were begining to use electronic ignition systems, which didn't have easily accessible ignition points.

Quite the contrary. Taking apart rants and speculation from the
lunatic fringe is great fun. After one has mastered science and
technology, it offers an additional challenge.

Haven't you ever listened to the old Art Bell show? He collected
callers claiming alien visitations, abductions, flying saucers,
conspiracies, ghosts, amazing technology, and all kinds of other
observed phenomenon best attributable to a general lack of sanity and
education. He would treat them quite seriously, drawing out
additional details that seem to fascinate his large and diverse
audience. My guess(tm) is that reality and accurate science are
fundamentally boring, and that speculation, lunacy and fantasy are
suitable diversions. Some of his callers held prestigious academic or
government positions, and apparently wanted to how far off the deep
end they could go. I recognized one or two. To properly present a
pseudoscientific hoax requires a good understanding of the science and
technology, and not just a word salad of buzzwords.

I must confess that I enjoy doing the same thing, as witnessed by this
ummm.... discussion. Lacking a suitable solution to the general lack
of technical sanity problem, I find it far more interesting to become
part of the problem. For example, my rants on being a werewolf:
<http://www.LearnByDestroying.com/nooze/werewolf.txt>

<http://en.wikipedia.org/wiki/Art_Bell>
In 1998, Bell was named as recipient of the less-than-prestigious
Snuffed Candle Award. The Council for Media Integrity cited Bell
"for encouraging credulity, presenting pseudoscience as genuine,
and contributing to the public's lack of understanding of the
methods of scientific inquiry."

That's why it's called "the magic of radio". When the magic wears
off, what's left is boring and mundane science and physics.

I could be wrong as I'm going back to a late night show over five years ago and I seem to recall it was one of his.

He was talking about GPS and played back a snippet of a conversation of above mentioned prestigious academic person that went ballistic trying to validate his credentials. But I digress...

I so wanted to point out that Art's (if indeed it was his show) was a disingenuous presentation of GPS as it led the less informed to believe there was a very dark and pervasive side to GPS. Continuing the only good aspects of GPS were promoted by manufactures and dealers of GPS systems.

Good or bad...the bottom line was he attracted an audience and an audience translates to advertising revenues.

In this same spirit, I have decided how I would like to change the
electric toaster industry.

I believe that henceforth, all electric toasters should be made from
polished unobtainium with "Q"-shaped dilithium heating elements,
as it is obvious that this results in more even toasting of the bread
and an undeniably higher-fidelity output. Further, the toasted bread
should be ejected by carefully-aligned cavorite lifters, timed by
observing both the thermal state of the bread (detected through
counts of left-hand circular polarized neutrino emissions) and the
state of a resublimated thiotimoline crystal being exposed to the
transverse-modulated IR spectrum.

Discuss!

I think a lot of people perceive them as such, but that
perception is, without fail in my experience, the result of
a nearly-complete ignorance of these subjects on the parts
of those people. There are a practically infinite number
of incredibly interesting, beautiful, weird, mind-blowing things
going on in real science - if anything, it's the speculation,
lunacy, and fantasy that winds up looks really dull, if you
have any sort of understanding of the real world. Most of
what passes for interesting material on the Art Bell show
would be kicked out as too dull, too unimaginative, and/or too
mundane by any decent science-fiction editor.

The local hams still have ancient junk pretending to be repeaters and
such.
<http://www.LearnByDestroying.com/k6bj/>
I built most of it out of Micor mobiles and base stations. Since the
Micor stake pin connectors are chronically intermittent, there's a
large rubber hammer in each rack to bang on each radio to reseat the
connectors.

Since no sane person keeps such old parts around, I get to stock old
radios and pieces at my house. When the local comm shop cleaned out
their ancient Motorola parts pile, I ended up with most of their old
parts. I think it's time for a general purge, which means either eBay
or the scrap metal recyclers.

What I find amusing is that many police and fire departments rebuild
antique or vintage police cars and engines. They eventually want a
genuine Motorola twin coffin or 80D radio for the vehicle. I've
supplied about 4 of these radios (working) for various projects. The
first step is to spray the crumbling rubber insulated wiring with
clear acrylic to prevent further deterioration. Getting the radios
working is fairly easy as I have all the old test sets and some docs.
The fun part for me is watching the current crop of comm techs trying
to install the monster case in the vehicle. What do I do with all
this big fat cable is usually the first question.

I was quite excited by the acquisition of a CATV distrib. amp as a giveaway at a local hamfest earlier this spring; I modified it to accept external power and use BNC connectors and produced a hand-drawn schematic which I will 'capture' when time permits and post together with photos. I have used it as a front end to a freq. counter and an oscilloscope and without it I could not have completed several projects.

These units are so handy it is a wonder that (at least on the Web) there has been little mention of their experimental uses.

BTW, which of the numerous newsgroups in this miserably cross-posted thread do you regularly read?

Don't bother. It's not. Although the imaging is different in the last
few weeks.

The Hollander brothers were the bonefarts who about undid CBS Radio.

Joel was the one who let the Cardinals get away from KMOX. And
decided that JACK FM was the format of the future. Joel also was the one
who decided to sue Howard Stern after he left for Sirius.

The first thing Dan Mason did was to fire Joel. Les, without someone
to protect him, left a vapor trail exiting the company.

The Hollanders were not about listener oriented Radio. They were
about Radio oriented Radio, as evidenced by Les' statement after the
switch to Jack in Chicago.

There are some people in Radio who blow in to market after market,
make sweeping changes and then split before the crash...leaving the
impression that they were holding the place together, while, in fact,
creating chaos and calamity in their wake wherever they go.

The Hollander Brothers were to such.

Probably counting his money, and enjoying his 30 something wife.

Have you ever attended a meeting or event about something you really don't care about? The lady friend has dragged me to horse shows, dog shows, cat shows, and various cultural events, where it was a major accomplishment for me to stay awake. Yet to her, it was the highlight of excitement and of great interest. In other words, science and technology may be interesting to you and I, but to many, it's just a big boring waste of their time.

There's also the problem of what pretends to be education. Ask even the most basic physics question to a member of the GUM (great unwashed masses), and you'll get some rather strange answers. Jay Leno likes to do that on the streets. My version of this is to watch a movie thriller and try to find the physical impossibilities. I got my introduction to this while attending the movie "The Poseidon Adventure", set in a capsized ocean liner. In attendance was a horde of engineering students from the Naval Postgraduate School in Monterey. I caught a few of the howlers, but they were seeing much more wrong with the physics. Since then, I've made it a pointing out the impossibilities to the point where none of my friends will sit through a movie with me. So much for the joy of physics.

>(...)Most of
>what passes for interesting material on the Art Bell show

>mundane by any decent science-fiction editor.
>Bob M.

Wrong. Science fiction has mutated into social adventure, space opera, and historical fantasy. I haven't seen any really technical science fiction in many years. The reason is that reality just

doesn't sell, while fantasy and nonsense sell quite well. One of my friends is fairly well know multidisciplinary scientist, who gets his thrills seeing his name appear on the credits for perhaps 300 msec. For this honor, he acts as scientific advisor to several movie makers and TV shows. In private, he complains that he is almost universally ignored and is only asked if doing this or that physical impossibility is "believable". He refers to the process as tele-gullibility. Even NASA gets into the act. I was watching a simulation of a rocket to Mars, complete with the sound of the rocket motors whizzing by the moon. Too bad there's no air around to conduct the sound. Oh well.

The Art Bell show was the latest manifesting of the old circus "geek show", where weird people, animals, and objects were presented as real. Nothing really new except that now the presenting is done by the audience. In the case of usenet news, there is no circus and everything comes from the audience.

The real danger of all this is NOT in the average readers inability to distinguish between reality and rubbish, but in the intellectual establishment declaring that they have a monopoly on knowledge. When science and physics gets to the point that it can't handle any critical nonsense, fantasy, speculation, or even lunacy, then it runs a high risk of ossifying progress into dogma. I would prefer tolerating Art Bell with the hope that one small kernel of something new might emerge, than to summarily dismiss all his rantings as unscientific hogwash. Just think of how much science fiction has inspired rather than predicted technical progress. Your choice.

Good idea. I use a 5-1000MHz CATV amplifier as an output "booster"
for my various RF signal generators. It's especially handy if I want
to talk on a repeater using my signal generator or service monitor.

Oh, they've been around. I've seen articles on how to use them as HF
AM and SSB power amplifiers. Many HF radios use CATV amplifiers for
broadband drivers. You don't see them called CATV amps much because
they are 75 ohms in and out, while just about everything else is 50
ohms.

The term is commonly used in describing the results of interference in
time, as well as for mixing.

Perhaps you're confusing log(sin(a)+sin(b)) with
log(sin(a))+log(sin(b)).

If you don't mind me asking, where did you get this notion about the
ears creating sidebands?

ABCNEWS.com : FBI Called off Terror Investigations

A question Johnny Wizard has for America: Tell me, is
this not a treasonous act - for Bush to close criminal
investigations, immediately after the terrorist crimes
of 911? Shouldn't the demon enemy be put to arrest
for that godless act alone in this forsaken dying world?
A world left instead suffering further the tyrannies
of the war criminal ENEMY of all Human Life?

A refresher: the neocon will tell you openly, they live to
lie to the Public for cheating and stealing by murder of
US, innocent peoples purposefully enslaved by a made
ignorantly entranced TV audience that is repeated reminded,
we have no power worth respecting.

CNN, CBC, and FOXNEWS aren't taking are calls presently,
but just lie and tell US they do. Look to see, almost all
political internet traffic condemns Bush straight to hell
well he rightly belongs, by the polls still say no - WE,
seeking for Just cause, are the minority.. just roll over
and die for the neocon betrayers to god and country, life

and loving.

George Bush "The same folks that are bombing innocent
people in Iraq were the ones who attacked us in America

So it was as I thought too: the direct co-operation of
the joint chiefs of staff assisting General Ahmad, in
committing the murder of thousands in America on 911
for the neocon TRAITORS, are the same 'escaping' enemies
today, responsible for 'secretly' ordering these
indiscriminate terror attack bombings against YOUR

OBSTRUCTING JUSTICE FOR AMERICA

Tony Snow "The executive branch is under no compulsion to
testify to Congress because Congress, in fact, doesn't have
oversight abilities."

IT LOOKS like they are going to attempt making the move of
BLATANTLY TREASONOUS war criminals acting to measurably now
destroy yOur Freedoms in godless America. The Satanic
neocon's 'faith', is in that YOU as an American, will watch
the same corporate drivel that offers next to nothing to
empower YOURSELF to speak Justly for a dying America. Instead
of demanding 24 hour, wall to wall news coverage, of war
criminals going down one by one by the will of Man to Justice,
CNN, CBC, and FOXNEWS will broadcast your blind 'belief' that
you are only a impartial viewer, who doesn't really care about
dying right in front of yourself for the zionist's riches, and
great worldly power of tyranny through lawless nazi bushite
censorship.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Jesus man, do I truly hate these zionist nazi thieving LIARS on our magic TV shows who con our kids to die as bad guys. How about You?

/ / If Bush and his PNAC buds are innocent, then Investigate 911! What have innocent people to fear from a fair, complete and real investigation? \ \

They are guilty, so, of course, the demon Bush enemy, OBSTRUCTED JUSTICE FOR AMERICA.

I am Your god king. King Johnny I am. Champion of Universal Life! Not enough? Who cares?, to allow US speak on our broad casts as legitimate? Worried I'm going to love Life as truly honorable, and Greater than those who openly lie to our soldiers to have them unjustly die for no better good or reason understood? Let us make life better than the neocon envision, and support our rise to popular acclaim by allowing US to speak openly for public challenge in defense of America.

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

MY government? Now that's entitlement. And you thought George Bush didn't have a vision for America \ \

Hitler, the mad man, wasn't as insane as our demon enemy George Bush Jr. is.

/ / The [BUSHITE ENEMY] US has said it would refuse any request by Italy to extradite the accused [satanic bushite torturers of completely INNOCENT PEOPLE]. \ \

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women

and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life on Earth, sacrificed in cowardice to the real demon antichrist, and see if we, the true, strong, and free, care. The Son of Man SCREAMS before coming home to GOD'S America: We are coming to destroy Satanically lawless bushite enemies, all for the love of God, we shall succeed my friends, we shall succeed. I will not willingly live in a forsaken world with LIAR zionist war criminals conning US to believe, God is not Great, True, Strong and Just.

Die bushite die!

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC
zionists, actual treasonous LIARS, actually smile to dying
Canadian soldiers with only true contempt. CBC kills Canadian
kids, with their intentional demon lies, trying to subvert
Justice for God and Johnny. In fact, yesterday, they did a

Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of America's America. Not bush bitch Marines "WHORES YEAH!" strength, where they cowardly can't figure to defend America from ungodly war criminals. War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. By Satanic command, 'inconceivable' to see the bushmob up on high treason charges... Oohh. Yeahhh.. I can see that going for real - quite excitedly I am about saving innocent lives. Hillary "[DEMON] Bush pulled out the inspectors."
[DEMON] Bush declared, "and he wouldn't let them in."

In Hell

Firstly, the White house doctored the NIE in an act of HIGH TREASON.

Two:

CNN with Hillary acknowledges that the demon Mr. Bush pulled inspectors out of Iraq, but then... how is this not HELL to pay?

/ / Bush declared, "and he wouldn't let them in. And, therefore, after a reasonable request, we decided to remove him from power." \ \ HE LIED. Not the 'NWO', George Walker Bush, who Alex Jones tells US to look away, because he's only a puppet. Should not Bush be held accountable to the criminal actions he is PERSONALLY responsible for Christ asks YOU?

/ / So, there was indeed no imminent threat posed by Saddam to Amerka, and inspectors had complete unrestricted access throughout Iraq without delay prior to the, bush demon's further war crimes. So, what was the reason for all the pointless mass murder and destruction again? Oh right.. to sacrifice American soldiers so terrorist bush's war profiteering can feed off themselves as family without leadership present as spoken for.[...] it's only the dummy American People bid payers again left unaccounted to DIE intentionally. \ \

Neocon Soldier

Bushites who war as the neocon enemies, war for the 911 perpetrators to escape American Justice. that is why I, as of GOD, cheer to hear the deaths of these pro torture, pro theft, pro Satanic enemies of Man. They confess freely to targeting INNOCENT People for murder.

The Haditha perpetrators, if convicted, are looking at serving, maybe, a couple of years, for freely confessing to the targeting MURDER, of innocent women, men, and infants.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man. - The Son of Man, as the Man of Men,

Johnny Wizard

-

CBC and CNN with FOXNews Calls him Al Qaeda, but his Jewish Father calls him Adam Pearlman, a godless enemy zionist, A thieving NAZI liar who hates freedom, who wants to kill INNOCENT Americans for his NEVER ELECTED neocon pro war buddies. Did we mention torture? See? The zionist KNOWS its OUR enemy. An enemy of Humanity, who counts that YOU personally will not phone Coast to Coast radio hosts to allow open line FREE communications. Oh well.. Americans are truly dying evil dum-uks.

PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? I do, that they recognize that the death of innocent people could shake our will," the President explained. \ \

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the

neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Our Mr. Bush Jnr. "The war is for you or for us [neoCONS] to win. If we [neoCONS] win it, it means your defeat and disgrace forever."

Die bushite die.

Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

McCain is some kinda demon enemy of God isn't he? To say
publicly, he apposes torturing innocent people to death for

torturing innocent people to death, 'if it means' such
IRRATIONAL action protects "American lives". See? the Magic

Bush used no evidence to form America's "conclusion" on who did US wrong on 911. So, Please, stop forsaking yourself, for, we're going nowhere. Support Johnny's call to demand open debate without censorship from the magic radio and TV execs, who hide in darkness, pretending to be our friends, while refusing intelligent dialog to answer any of our big troubles easily. Why? because largely, they're powerless without beating us down as giving 'Christ like' VICTIM so much - with their irrational ignorance for our survivals by the fittest. The fittest Ideas that rule this Universe, are the simplest, most easy to understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite enemy and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children pratically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones. \ \

Art Bell, "the thief", is really fuking evil to GOD as America.. being a blatant naked LIAR to the American Patriot Warriors

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun, paid for by the silent American tax payer. Americans refuses to bother making a simple phone call to Coast to Coast to raise some concern. THEY don't. They refuse to hunt bushite down in their streets for death to defend the innocent held indefinitely against GOD'S will. Death to the bushite, death to Johnny's godless, lawless, fascist enemies of FREEDOM.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

/ / Never in modern history has country been forced to pay for its death, torture, and destruction with its own money - its own oil revenues. A country where thieves are entrusted with its richness and where murderous gangs are entrusted with its security. \ \

pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah

claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on

Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / The Mujahideen aren't students of power and don't compete for power like others do. We are students of truth and work for establishing this truth and for this cause we sacrifice our power \ \

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

Rapists and torturers must not be allowed to rule our pirated
authority through defending the further 'escape' of the
bushmob for 911.

/ / As a result, the Defense Department put up a Web site in
2005 designed to clarify [to the dumfuk bushite demon liars]
that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of
bushite rapists though, so has worked to deny Justice for
female grunts by denying all requests to the 'Pentagon' from
American Police Departments. [and you thought he was fired!]

Why? because, they, the very weakest intellectually of America's - do what they're told teen kids, ALL don't have rights anyone in bushite corporate america is willingly strong enough as a dedicated Leader to speak in demanding defense of, for innocence.. Why? because they soullessly advocate continuing bushite war crimes for a stolen dollar. Stuck that way apparently. Support my rise to speaking publicly for open challenge on the rights and privileges of all concerned parties. Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911. I would like to form a global posse of sleuthers to identify on international open line radio, all guilty INDIVIDUAL parties by evidenced conclusion on our highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as

natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks.

Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your

planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

Did you know Blair had arrested the reporters who reported this initially? Didn't think of defending children, no sir. For, the commentator, who gives the play by play, while masturbating, has been given forgivence because it's an heroic "Christian". Not publicly executed. This must change for the better. Here is where I will make my final stand, and where heaven shall part from hell in America.

ARE YOU TALKING TO ME?

George W. Bush:

"If the absence of violence is victory, no one will ever win."

But for those of us who would believe protection to be a
heavenly good thing actually he means? What the. does he
mean?? Find out!, in the new candid, let's talk politics
interview, with no other than, PRESIDENT GEORGE W. BUSH.
(talk about having connections!) Have your mind blown on his
TRUE wisdom, seldom since ever, so wisely articulated in a
more private setting, than this: The Story of the Millennium.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a
candid interview on Bush's deeper than ever political thoughts
about the war, up front, and personal. Surely, an historical
event such as this, with the revelations contained in his own
shockingly powerful words, while granting a stage in Johnny
Wizard's World, is frankly, beyond the pale, quite shocking in
perspective I'm sure I would state again. I feel confident
Bush's surprising candor on life's humbling higher meaning
wont make the crazies 'out there' any more less right per say.
As for the barely living of you passing travelers to our dying
Realm.... be ready to be taken on a journey of such profound
discovery, with a wit never before witnessed from President
Bush!, all about the cruel hardships Americans continue to
endure without guidance through effective leadership. Without
evidence to form his guilty verdicts. That orders the murder
of the innocent with. I kid you NOT. Hey? maybe the Son of
Man doesn't have to wipe out the entire human race after all..
With Bush co-operating now, I personally believe, no, I know,
we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of
Humanity to be gloriously publicly executed to defend the

innocent lives, they once again, have indiscriminately murdered in Afghanistan without a sliver of evidence, but for to say, some dumfuk had a 'rumor' that a single individual SUSPECTED to be an anti-heroin pro-child defending Taliban supporter, granted the bombers of NATO to wipe out an entire village MURDERED indiscriminately by the TRUE demonic enemies of LIFE. Please, if you must forsake me in your personal cowardice and self loathing, don't forsake GOD and America by not killing with PRIDE, these bushite dumfuks of NATO the first chances you get. Love liberty as if it were your own, and kill a lawlessly murderous bushite nazi savage for your love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book is out there? Don't miss out on picking up a copy for yourself, or your loved ones. And did you know, I'm trying to get on international radio without a censor to thunder my audience back into submission. I HATE HANNITY. All I want is free open debate to resolve this crisis, that doesn't have to be so ruining our dying worlds without questions forwarded by the dumfuks. Justice is Paramount through reason to be so. The Bush Administration have been up to no good, escaping for 911, that New York City should sue for. Hire me on as legal consultant buddies, cause I'm like near starving broke here, with supreme court challenges failing my cost factor, and hunger pangs slowing our progress on fighting unjust incarceration. I desperately need money, like now, as a gift, or an advance on a industry paid private consultant gig. Or, instead, maybe you'll idly watch some innocent person willfully be sent to prison by liars in your demonized name, to defend the ungodly evils of war criminal traitor, our Mr. Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay

capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

P.S. someone tell Hannity, I got a beef with his demon lies to sacrifice our guys. I'm calling Hannity out to explain himself freely to US now, as a demand for an immediate match between him and ourselves in the dug pit of his utter contempt for our free to be alive communications.

'A military judge ruled last week that Watada cannot base his defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime? It isn't only high treason against America the ungodly bushite are guilty of, but of a madness held by those truly Satanic..

/ / 'Why are you taking pictures? You don't have permission."' [...] the [bush whore] American, speaking through a translator, warned him that he did not want to see any AP photos published anywhere.\ \

No bushite was found gloriously killed for country, yet, they, the godless bushite enemy, continued to shoot innocent People indiscriminately for a distance of six miles, while likely, secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent un-armed Afghans were counted as murdered deliberately, by those who believe our Mankind, can not ever find themselves accountable, without zionist controlled, corporate news permission. See? The military counts mankind as zionist, but I am a man of real men, committed to defend our world from all enemies, foreign, or domestic. Unlike a bushite traitor to God and America, who's word, as Oath, means as much to them, as we do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from murder, (the innocent whom any pro-bush corporate professional hold in total self contempt,) you save REAL peoples lives, and you defend God's good name to love God as ourselves committed to true Liberty. Bushites are enemies of freedom, enemies of God, and worthy of death, before allowed to further bomb people indiscriminately like the commanders of NATO order day after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly

charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports

facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

Let's do this.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly
advocates the rape and murder of the innocent in Iraq to
thieve from for the 'escaping' neocons, (as the truly

UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life

begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

This is why the Son of Man through God begs the Peoples of

Life. Ourselves, the innocent. These soulless grunts don't
destroy such deserving commanders, Like Blount, Sattler,
Russell, Wuterich, Pantano or even Kimmitt, and instead, as in
Fallujah, murder every woman and child present, while stealing
all our given monies for desperate life saving help. Anyone
in the Air Force deserves to be justly put down, for, I've
NEVER seen any legitimate bombing campaign, but for to kill
People indiscriminately like NATO regularly does with
radio-active toxic waste, while then sending in the dumfuk
Marines, or the 'from the coast' Canadians, who of course,
rightly get killed on the ground in retaliation for such blind
evil stupidity. Please, I beg, help Iraqis, and kill the

escape for the treasons against America on 911, for, bushites
are OPENLY traitors, as the TRUE enemies of evidenced Justice,
as the Freedom to do our own things loving God on our own.
Besides, most bushites aren't even registered American

Well, gee, Iran has no nuke program, in anyway, shape, or form, but Israel wants to murder more of humanity for their ungodly lies anyway. The enriched uranium Iran is making, can not be used for a bomb because it's only enriched to 2 percent, and to get the bomb making stuff, you need a COMPLETELY different technology. But science?, in bushite america? Nazi America would rather be nazi chauvinist pigs, before admitting the Son of Man exists, or to go to the trouble of phoning someone who refuses to take our public calls for Justice. All unjustly suffering because corporate news america cowardly refuse to defend freedom, by defending the truly innocent. Nor, will Coast to Coast allow me to speak on "American" radio. Let's change that. Will you make it so Commander?

Cause I'm ready.

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

5000lbs of radio-active toxic waste that will murder for years
more like, while after, then striking again to get the god

going house to house to murder every one, young and old as the
truly Satanic. Just obeying lawless orders to thieve from
Humanity as bushite for neocon zionist traitors of G-D doesn't

humanity benefits truly from the defense. You defend a real
suffering God by ending a soulless bushite threat against our

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt

no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People
like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill
it proudly for freedom, as an undying love for a real God and

How The Demon Bush Misled God's World

How Bush misled the world

http://www.theage.com.au/handheld/articles/2004/02/05/1075853996640.html

/ / Once the document was declassified after the war it became known that it contained 40 caveats - including 15 uses of "probably", all of which had been removed from the previously published version. Tenet further ingratiated himself by remaining silent about the OSP. "That's totally unacceptable for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON. Could it be any higher? Deliberately caught misleading whore-dumb Congress to wage his immoral neocon 'escape' with a unjustified criminal brutality against God as all of our Humanity. A great deal more than a million innocent people have been victims to the 'targeted' Zionist killings of the irrational bushite enemy. Lawless enemies to Creation, spreading their toxic waste who thieve, rape and murder without reprimand from corporate news america, shall, I pray daily, die justly in vengeances by the will of a real undying Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted killing of innocent children is fair game in their worlds, and as confessed, they 'got away' committing the same Satanic acts - going house to house in fallujah murdering more than two hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler. Bushite corporate america, has stated in silence, the bushite enemies of Haditha will never face public execution for such offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Let US demand open radio
communications on the mathimatical facts to save our own selves further victimhood to their personal contempt for the true value of YOUR life. Thanks.

Can you help us speak this outrage to your local media outlets?

thanks again bud.

- "The months preceding September 11 [see] a shifting of the US military's focus ... Over several months beginning in April [2001] a series of military and governmental policy documents [are] released that [seek] to legitimize the use of US military force in the pursuit of oil and gas." Michael Klare, an international security expert and author of Resource Wars, says the military has increasingly come to "define resource security as their primary mission." In April, Tommy Franks, the commander of US forces in the Persian Gulf/South Asia area, testifies to Congress in April that his command's key mission is "access to [the region's] energy resources." The next month US Central Command begins planning for war with Afghanistan, plans that are later used in the real war. [Sydney Morning Herald, 12/26/02]

See? It's admitted that the zionists planned to STEAL the rights of Afghans for Enron, by LYING to SOLDIERS to get them killed as the American Pension thieving bad guys. Too COWARDLY parasitic to hunt those responsible for murdering thousands of "Americans". So, as a consequence, they, as loveless bushite drones, die cowardly with the once great America as enemy corporate fascists to Freedom's Justice, Our Living God.

John's truth. Killing a THIEVING bushite is to save the lives of the innocent they target for murder. Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. A nation of fascist nazi cowards, who go silently to their graves in their support of torturing innocent people to death for the thieving EVIL bushite's pleasure.

Death to the godless bushite, death to America's lawless enemies.

BUSH TO GENERALS: GET LOST
http://movies.crooksandliars.com/SC-Bush-GeneralsGetLost.wmv

The demon enemy of America, Our Mr. bush Jr., responsible for 911, creates hope in God that honorable men of this Earth, will assist the Humans in hunting to kill bushite enemy terrorists who support torturing and thieving from US, the godly as innocent. Every time we hear of another bushite death, god celebrates OUR wins over the ungodly demon antichrist forces. Death to the bushite, death to our enemies who murder innocent people with LIES against America and GOD.

A Soldier's Life Held in Contempt

The way I see it, is that I am completely documented correct on who was responsible for the terrorist crimes of 9/11.
snpd

The affidavit that starts "1. National Security Issues" was submitted in conjunction with my motion to request assistance from the Court. The additional paper "Stand Together or Don't", was an added part of the same affidavit.

The affidavit with 38 positions was submitted with the two motions, "Order of Production" and "for the Crown to Stay Proceedings". Duplicate copies of the same affidavit were submitted in each respect.

-

/ / In another characteristic incident, Bush asserted, as he has repeatedly, that any decision on withdrawal of American troops from Iraq "will be made by military commanders, not by politicians in Washington DC." \ \

Exactly. The demon enemy of life itself, Our Mr. bush Jnr., who publicly parades his contempt for freedom and God, must be stopped for all costs, that include for sure, your own as reader.

Realize, CNN and CBC have received this post, yet, continue to lie to dying soldiers for the benefit of the enemy neo-con.

AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

Investigating the Investigation

http://www.alternet.org/story.html?StoryID=17816

After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?" Daschle flatly contradicted Cheney: "Yes, he did, Tim, on Jan. 24, and then on Jan. 28 the president himself at one of our breakfast meetings repeated the request."

...."[T]hat request was made" by Cheney not only on Jan. 24 and by Mr. Bush four days later, but "on other dates following" as well.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen Mahmud Ahmad sought retirement after being superseded on Monday, the truth is more shocking. Top sources confirmed here on Tuesday that the general lost his job because of the "evidence" India produced to show his links to one of the suicide bombers that wrecked the World Trade Center. The U.S. authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

The honorable Argentinean oil company Bridas' relationship can not be understated as the Bush Administration's primary motive on criminal invasion of Afghanistan to save his biggest corporate backers, the American pension thieving Enron.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . Well, not completely, for Bremer shipped 19 billion to Greenspan early on, then, hundreds of millions were sent back.

The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

Of course, none of us really know these celebrities, and we project our own notions onto them. But the indications are that Art lives modestly and quietly, and he developed the show format largely because of his personal curiosity about the paranormal. So I'm inclined to doubt the suggestion that his decisions are driven by greed and ego.

No, that was indeed the claim. As a demonstration, I've
attached a variant of your original LTspice simulation.
Plot Vprod and Vsum. They are on top of each other.
Plot the FFT for each. They are indistinguishable.

E2 = (V1+V2+V3)/4 -- a scaled sum

Except for scaling, the result is the sum of the inputs.

Oh, yes. And cat whiskers too.

But that was not my point. Because the carrier level was not
high enough, the envelope was no longer a replica of the signal
so an envelope detector would not be able to recover the signal
(no matter how sensitive it was).

I could see Art going satellite just to be free from sponsors and the
restraints of broadcast radio and Clear Channel. I don't recall how old
last night's rebroadcast was, but I'm certain some stations (and their
mostly right wing whack job Bushite turd brained listeners) blanched when
Art said he'd changed his mind about gay marriage. I sense Art would like
to be a bit more political as he ages - and broadcast radio would limit
that.

1196. Received CCRadio-SW today

Received the new CCRadio-SW today. My first impressions are as follows. On MW, just a slight tad below the CCRadio in sensitivity, and about the same as the S350. On FM, superior to both the CCRadio and the S350. I get perfect reception of a hard-to-get FM station that I like on the CCRadio-SW where the same station on the S350 is noisy with interference, and on the CCRadio the station is noisy (but not quite as bad as the S350). On SW, reception is better on the CCRadio-SW than on the S350, not to mention that tuning is much easier on the CCRadio-SW. Please note than on the CCRadio-SW, SW tuning is in 5 mhz, so you can't fine tune. But I find it quite adequate. Sound on the CCRadio-SW is much better than on either the CCRadio or the S350.

There are pros and cons as far as purchasing a new radio when it first comes out. I have been told that during the first production run, every unit is checked for quality control. My CCRadio, if I recall, was one of the first sets made, and it is MORE sensitive than either of two RF-2200s that I have owned, and more sensitive than the GE Superadio III. My Grundig Satellit 800 was in the FIRST batch made for retail, and it had NONE of the problems that others experienced. It has always been a gem - NO wobbly knobs, etc. So I expect my CCRadio-SW to be a good unit also.

I recommend the CCRadio-SW as a better choice than the S350.

You're projecting your own agenda onto Art Bell. Art has consistently had a libertarian inclination, so he's not exactly a friend of the left, but he's not attached to any party. He said he voted for Kerry specifically because of Kerry's promise not to bury nuclear waste in Nevada. Art has clearly had the freedom to say whatever he wanted, but his primary mission isn't political. He found his niche by moving away from the endless political bickering, and I'd be surprised if he wants to go back there.

Libertarian is a party. Political doesn't necessarily mean partisan.

The only FM on standard TV is the audio. Video is vestigial sideband AM.

BTW my grand daughter had that figured out by the time she was 12 y.o.

Well, Biondi appears to be at
WLS-- FM or whatever call letters they are using these days -- still
playing oldies.

And she's what? 40 some odd years younger than him. Guess it's all

I believe Biondi is on WLS - FM or whatever they are calling
themselves today. And his wife appears to be 40+ years younger than
him. I don't even have a comment on that.

FM audio is boring -- no entertaining high-pitched tones from solar
prominences which would definitely be heard on AM audio.

OTOH, AM video is boring. FM video is better. As I said before, the Y
[luminance] signal should be carried on an FM wave rather than an AM
wave.

Analog radio-frequency audio devices should use AM.

Analog radio-frequency video devices should use FM.

I was in error - SW tuning on the CCRadio-SW is in 1 khz when using SLOW tuning and 5 when using FAST tuning. The more I use this radio the more I like it.

Analog satellite still uses FM, but there is very little of that left. 30MHz
wide channels. Think there used to be one version of SECAM (in France, IIRC)
that used FM video. That's gone now, too.

My error - the CCRadio-SW tunes in 1 khz on SW in the SLOW tuning mode.

I tried the TERK AM ADVANTAGE passive antenna on MW and on some stations it made a big difference. Pulled in distant stations loud and clear that otherwise had a lot of background noise.

OK. I haven't been (had the patience to keep on) following this
discussion, so I apologize if this is totally inappropriate, but

If the statements above refer to creating that set of signals by using a
bunch of signal generators, or alternately by using some sort of actual
"modulation", the answer is, there is a very significant difference.

In the case where the set is created by modulating the "carrier" with
the low frequency, there is a very specific phase relationship between

the signals which would be essentially impossible to achieve if the signals were to be generated independently. In fact, the only difference between AM and FM/PM is that the phase relationship between the carrier and the sideband set differs by 90 degrees between the two.

1212. Eton E5/Grundig G5 Frequency Extension hack?

Hi, folks!

I've been trying to look up some hacks for my Eton E5 radio to extend its frequency range. I have read up on a few for the Degen DE1103 / Kaito KA1103 for listening < 150 kHz (i.e. lowering the floor below 150 kHz) on AM and boosting the ceiling to ~40 MHz on AM and more than 300 MHz on FM. However, I have still found nothing for the E5/G5 radio.

Anyone have any ideas or suggestions?

TIA...

For the first time, the world's largest retailer, Wal-Mart will sell a line of religious toys, according to a WKMG-TV report. More than 420 Wal-Mart stores nationwide will begin carrying the faith-based toys that include Jesus and Samson action figures. Only about one-sixth of stores will carry the toys, A Wal-Mart representative told USA Today that stores that sell a lot of Bibles will carry the new line. The toys are produced by One2believe.

The company targets parents who would rather their children play with the faith-based toys rather toys rather than other super hero action figures, the report said.

(no mention in the story that the Jesus Action Figure will be made in China by xian
and falun-gong prison laborers under the most unsanitary and hazardous working conditions
you can imagine of course....but then that would take all the fun out of it eh?)

You're living in a fantasy world dude.
Even if it were real it would never happen.
Sat radio didn't work for Howard Stern
so it won't work for Bell. Sat radio accounts
for just 5% of the total radio market which
is a pittance market share. XM and Sirus
can't even give the radios away as nobody
wants to pay $19.95 a month for what they
get on their car radio for free.

Ron,

I beleive the 26 Mhz stuff is a result of "sporadic E" propagation. The 6 (50 Mhz)and 10 (28 Mhz) meter ham bands have been very good recently. I don't know if the effect goes down to 20 Mhz.

All true. The simulation offered previously achieves the
required phase relationship (and more, so that the sum and
product versions can be directly compared).

I am not convinced. Can you explain? AM modulation with a single
frequency produces a single sum and difference for the sidebands
while FM has an infinite number of frequencies in the sidebands.
This does not seem like a simple phase difference.

I imagine it won't be long until we see pictures on the net of people shoving

That's easy enough to make happen, but that's not what this is
about; it's about the out signal from a 3 input adder being
identical to the output signal from a mixer.

It seems, you want to try to prove that multiplication is tha same
as addition, with:

But, using the adder, if you change the amplitude and/or the frequency of any input what happens to the output? The spectral line corresponding to the changed input will change, but the lines

corresponding to the other inputs will not.

Use the multiplier and what happens if you change either the carrier or the LO? The output lines will _all_ change even though only one input has been changed.

On top of that, even if the output spectrum of the adder is made to look like the output spectrum of the mixer, the phase relationship between the outputs of the two will be different unless extraordinary care is taken to make them the same and, even then, if information is impressed on the adder's center frequency it will not convey to the "sidebands".

Yea, why waste $150 on a shitty Eton E5, when you have the same radio
in a $65 Degen 1103 ?

Oh, sure, and I couldn't agree more. I place the blame for
that squarely on our education system, which - unless you
have amazingly good luck in getting the right teacher - will
present "science" as an incredibly dull collection of arcane
facts and formulas to be memorized, and not an interesting,
exciting process full of wonders. The root of that, of course,
is just that the "science" teachers most often don't really know
what "science" is all about in the first place.

Spider Robinson. Joe Haldeman. Larry Niven. Jerry
Pournelle. Ben Bova. Greg Egan. Stephen Baxter.
Arthur C. Clarke, who, thank the FSM, is still with us and writing.
Sure, there's an AWFUL lot of crap out there - SF, like everything else,
obey's Sturgeon's Law - but the good stuff is still being written.

I have one of those FM video receivers. It's my (ancient) Wavetek
3000b communications service monitor, which displays all kinds of
nifty light shows and patterns for FM. I often tune it to the WX
channel and watch the modulation on the scope display. It's kinda
hypnotic without the accompanying audio and sometimes an improvement
over what's available on TV. I guess it's TV for radio geeks.

I don't see a problem with this. -- Many religious people would like
an alternative to the regular array of toys available for their
children. The video stores and Wal--Mart already carry many of the
Veggie Tales videos. Religious stores are higher priced so Wal-Mart
offering these items is a good option.

As for where they are made or by whom they are made - if you go with
that line of thinking --then religious people would have to seriously
curtail their buying habits because just about everything is made
somewhere else and quite often by people who are not treated fairly.

Actually, I think that Wal-Mart offering this is just another line of
product for them. So, it will be good for their business and
considering the number of jobs now dependent on Wal-Mart - it will
probably be good for the ecomony.

In the interest of brevity, I won't rattle off examples of how most of those authors started out with hard technical science fiction, and ended up recently writing what amounts to "future social problems" type of sci-fi. At age 74, Ben Bova still cranks out excellent stories but seems to be very light on the technology in the last few years. Stephen Baxter is a scientist and really does well speculating on where technology is sending us. Greg Egan is a mathemagician with a rather creative view of artificial intelligence. Haldeman puts me to sleep, Niven is just plain weird, and Pournelle is too militarist for my liking. They've all done "hard" sci-fi writing, but as time progresses, seem to be writing for a much different audience, such as writing for TV or movies. That's where the space opera, social adventure (chase scenes, crash and burn, and explosions) are coming from. I still read Stephen Baxter, but none of the others. This is the first I've heard of Spider Robinson, but will give his stuff a look.

>Arthur C. Clarke, who, thank the FSM, is still with us and writing.

Yeah, but he can certainly beat the "2001 Space Odyssey" theme to death. At 89, I'm really impressed that he's still working. However, his last few books have been co-authored by Stephen Baxter and read more like Baxter's complex writing, than Clarke's neatly clipped short lines.

Ok, I'll concede the hard sci-fi hasn't gone down the tubes completely and that there are still authors catering to a technically astute audience. However, even the best of these (as you've itemized) tend to drift toward the popular media, mass market, and general audience market, which deals primarily in entertainment. This entertainment is invariably devoid of technology, lacking in a basis on physical reality, and is dominated by space opera and general idiocy. For every sci-fi author that knows his science, there are perhaps 50 that

are lacking. Little wonder that space opera predominates as it
requires very little technical expertise to write.

Maybe that's why I like reading Mr. Radium's muddled tech rants. It's
the closest approximation to science fiction I can easily find.

>Sure, there's an AWFUL lot of crap out there - SF, like everything else,
>obey's Sturgeon's Law - but the good stuff is still being written.
>You just have to look for it.

These daze, I have to do more than look. I have to dig, excavate, and
filter to find it. However, I found a suitable replacement about 10
years ago. I was reading dot com business plans. Not only was I
being paid to rip them apart, but the products and services were some
of the best science fiction I had ever read. The authors of some of
those business plans really should be writing sci-fi stories. I
really miss the passing of the dot com era and the tremendous
technical imagination that helped make it happen.

Reminder: None of the sci-fi authors up to about 1970, ever predicted
the rise of personal computah. It was always the giant mainframe
(Multivac). Some came close with remote terminals, but even those had
a mainframe behind them. Oh well, can't get it right every time.

Spider's not as "hard tech" as some of the others have
been, but has been compared with Robert Heinlein in
overall style. (A comparison which I am very sure he
wouldn't claim himself, as RAH is a longtime hero of
Spider's.) But his stuff is just an amazing amount of plain,
unadulterated FUN. Try, especially, the "Callahan's
Saloon" stories.

In my book, Clarke's earned the right to do whatever he damn well
pleases at this point. And he certainly has done quite a bit besides
the "2001" stuff; there's the "Rama" stories, "The Fountains of
Paradise," etc...and I don't think the work with Baxter has been all
that bad - you didn't like "The Light of Other Days"?

Well, as the Grand Old Man himself once noted, "Writing is like
prostitution - first you do it for love, and then for a few close friends,
and then for money." A writer who doesn't - or can't - write what
sells won't stay around long enough to write the Important Stuff,
should he or she care to do so.

But they sure don't seem to be grounded in anything even resembling
reality. If you want hard SF, and not the sort of fantasy that makes
"Star Wars" look like a physics text, you'd really have to look
elsewhere.

To be sure, but then, neither did anyone else. One of the nicest
things about the future is that it always is full of surprises for
everyone.

If it's not what Mr Radium is using, it's close. Haven't you watched the typical pre-1971 science fiction movie? The arrival of any alien object or visitor is initially detected and displayed on a large CRT, usually with an unstable Lissajous pattern or trivialized radar simulation plus the requisite shrill noises and sound effects. After seeing that demonstration, I concluded that if I was going to personally greet the Galactic Ambassador from AlGore, I would need a similar alien detector or communicator. The closest approximation I could find was a communications service monitor. In order to monitor it continuously, I decided that a 15 year career in land mobile communications was required. I would leave it running continuously, waiting for the voices from outer space. Unfortunately, the ambassador is apparently distracted and I have moved on to other professions. I still own a service monitor and still turn it on waiting for the display to mark the arrival of the alien visitors.

Reminds me of a meeting held at a large, prominent aerospace company
some years back where the marketing weenie was touting the latest
air-to-air missle idea that would completely dominate the market.

He was a bit taken aback (but not deterred, which is another story) when
one of the engineers in the audience pointed out that they needed to
come up with a communications system that operated about 3 times the
speed of light to make it work.

Well, with these toys being made in China along with 85% of the other
goods on Wal-Mart's shelves being made in China, I would be interested
in hearing your reason for thinking this would "be good for the economy"
(unless, of course, you were referring to the Chinese economy)

Um, that's bull. CFLs are better then most (all?) current LED based sources when it comes to luminous efficacy. True, they have other problems and are unsuitable for small lights (torches, car lights etc) and for some specialist stuff like traffic lights but LEDs to not yet beat CFLs in terms or luminous efficacy. They will probably eventually win but they're not winning yet. And actually most government (don't know about US governments) would much rather have things that nearly last forever. Perhaps not the manufacturers but that's a different matter.

Try U.S. patents. The prose style is deadly, but the descriptions of operation are very often entertainingly fictional. For a warm-up, I recommend "Hyper-Light-Speed Antenna" by David L. Strom, #6,025,810. There are many more creative ones and ones based on better pseudo-science, but that one is surely worth a read.

I've once listened to the first five harmonics of a
powerful medium wave transmitter (400 kW) at
a distance of some 300 m.
All harmonics gave normal audio; no strange
switching effects (Sony ICF-7600D).

What I'd like to know is if in such an 'experiment'
it can be excluded that (some of) these signals are
generated by the receiver itself.

Ever learned, unfortunately seldom used.
What can radio hobbyists do with Fourier transforms
nowadays? (Nowadays, for aids and appliances like
software and spectrum analysers take over some work.)
If somebody could provide some examples I'd be grateful.

Well, I think I've had it. A 'never' ending story.
Too much to straighten out. Too much comment
needed. Questions moving away from the subject.
No more indistinguishable close frequencies.
No audible beat, no slow changing envelopes.

Take a plot, use a high speed camera or whatever
else and see for yourself the particle is vibrating at a
period in accordance with 222 Hz. In my view I've
sufficiently underpinned the 222 Hz frequency.
If you disagree, then do the job. Show your
frequencies and elucidate them. (No hint needed,
I guess.)

Cute. Apply DC and heat, and it goes faster than light.

Here's my candidate for the RF hype award:
"Magnetic field based power transmission line communication method and
system"
<http://www.google.com/patents?id=N_sEAAAAEBAJ&dq=5982276>
Uses a MASER with no visible means of coupling it to the power line to
move 2GBits/sec. Of course, it eventually went to litigation:

The list of suckers, er.... investors, it truely impressive.

I'll pretend not to mention commercial antennas that are sold without
any useful specifications, patterns, or simulations. That's one
reason I've often considered going into the antenna business. The
more they resemble a gold plated metallic scrap heap, the better they
sell. Few customers can see how they operate. Product comparisons
are difficult or impossible. Magic is everywhere. Yeah, the antenna
biz looks good.

Yes, but patents aren't made to be read by humans. They're made to be
read and fought over by attorneys.

I've also derived some entertainment from patents. For a while, I was
collecting what I considered to be patented impossibilities from

companies that exist mostly as a stock scam. However, I got into
legal hot water when I started to publicly suggest that their patented
technology was closer to science fiction than science. To avoid
litigation, I've had to keep my big mouth shut. I've run into some
real howlers that I would just love to offer as entertainment, but
don't need or want to risk an infestation of attorneys.

Actually SECAM also uses AM for the luminance signal. However, it uses
FM for the color [chroma] signal.

I remember seeing one of those "rabbit ears" tv antennas, unpowered,
shaped like a little satellite dish that you could rotate, selling for
like 14.99 or something and on the box it said "Uses RF Technology!!"

It was true, though, I guess.

I don't see a problem with this. -- Many religious people would like an alternative to the regular array of toys available for their children. The video stores and Wal--Mart already carry many of the Veggie Tales videos. Religious stores are higher priced so Wal-Mart offering these items is a good option.

As for where they are made or by whom they are made - if you go with that line of thinking --then religious people would have to seriously curtail their buying habits because just about everything is made somewhere else and quite often by people who are not treated fairly.

Actually, I think that Wal-Mart offering this is just another line of product for them. So, it will be good for their business and considering the number of jobs now dependent on Wal-Mart - it will probably be good for the economy.

So, Barbie comes up Jesus and says, "Do you want to play house?"

And Jesus replies, "'Heaven is my throne, and the earth is my
footstool. What kind of house will you build for me? says the Lord. Or
where will my resting place be?"

So then Barbie says, " You want to get high?"

Jesus always the hipster says, "And you, my child, will be called a
prophet of the Most High."

"Neato", coos Barbie. " I wish we had something to get high off of."

So Jesus turns the water into wine.

Pretty soon they are blasted. As they drive away in the Barbie
mobile, Barbie yells out, "Fuck you Ken I'm with a real man now."

Ah, on SW? In English, for a North American curmudgeon?

Well, Deutsche Welle, R. Nederland, The Beeb, R. Australia, R. Japan, R. New Zealand International, and a swag of "foreign-language" transmissions that delight the ears with music.

That lot should broaden your mental horizon just a teensie-weensie bit.

Of course, a more moralizing bent would require locking on to a hell-fire and brimstone Ammurican diet.

And gawd forbid you'd touch R. Habana Cuba or CRI?

Case closed, as is your mind, obviously.

Radio St. Helena dropped down into the mud here at 2000. I'm not certain if it was a change in antenna direction or just the fact that propagation died. Earlier in the program they played hits by the Byrds, Monkees, and Sonny & Cher amongst others.

Nice to hear them, and I wouldn't be surprised if they didn't check the transmitter again in September, prior to the regular broadcast in November.

I think that was the rabbit ears with the gold plated 6" dia dish
antenna in the middle.
<http://www.radioshack.com/product/index.jsp?productId=2455309>
Yep... same junk but without the gold plating.

>It was true, though, I guess.

You missed all the fun in the late 50's. That's what got me
interested in radio/RF/wireless/whatever. There was this character
named Charles Torrelli, that advertised in Popular Electronics selling
a "Turn your house wiring into a giant 1,000 ft TV antenna". It
consisted of a Bakelite box with a "capacitator" inside. One end went
to the AC power line, the other end to the twin lead input on the TV.
Since there was no transformer in the box, and a good chance the at
the TV was of the AC-DC variety, there was about a 10% chance that you
could get fried connecting the device.

Needless to say, house wiring does not make a great VHF antenna, but
that didn't stop Torrelli. It also inspired me to learn a bit more
about the technology as all the experts were telling me that it can't
work, but none supplied any reasons that made sense.

Further investigation on my part resulted in the a minor
electrocution, which provided additional inspiration and motivation. I
instantly concluded that anything that powerful must also be
interesting and possibly useful, so I elected to study electricity.

Additional inspiration was later provided by the launching of Sputnik, which converted anyone that could spell "engineering" into some kind of freedom fighter.

I once modeled a Radio Shock TV yagi antenna. On some channels, it had more gain in the backwards direction than forward. A simple bow tie and reflector antenna would have worked much better, except that RS doesn't sell them any more. Also, TV antennas are not rated in dBi gain. They use "miles" instead.

My GOD if you hate WBCQ so much WHY DON"T YOU CHANGE THE STATION
ON YOUR RECEIVER ???? You've either got a masochistic tendency, or
you
secretly enjoy the stuff to which you refer.
The shows you call 'lame-ass" and "henhouse" happen to pay a
significant fee for us to broadcast their programs. They pay, and
they pay in full and on time. Were it not for them, I promise you we
couldn't afford to stay on the air to play the stuff you DO like.

Don't be so fast and loose with the criticism...one radio station
cannot possibly
make everyone happy all the time. But we do okay, don't we ???

That should have been about 30%, but in any case, I am an engineer
and there isn't a whole hell of a lot of anything different between
1.9 GHz and 3 GHz.

What? Some trivial differences in path losses? Antennas a bit different
in size by what, 4 mm unless I slipped a decimal point in my head?

Perhaps, but I don't think either of those is correct, since for
mixing to occur (AIUI, for sidebands to be generated) the sine waves
themselves must be multiplied at the lowest level of the equation
instead of added.

That is, the solution of

log(sin(a)+sin(b))

will describe the numerical value of the logarithm of the vector sum
of two sine waves, and since the addition created no sidebands, the
output of the circuitry providing the logarithmic transfer function
will only be the instantaneous value of the logarithm of the vector
sum of the amplitudes of both signals.

Similarly,

log(sin(a))+log(sin(b))

describes the addition of the logarithm of the amplitude of sin(a)
to the logarithm of the amplitude of sin(b), which still produces
only a sum.

That is, no sidebands.

>If you don't mind me asking, where did you get this notion about the
>ears creating sidebands?

Well, whether I mind or not it seems you've asked anyway, so your
concern for my sensitivity is feigned.

That, coupled with your relegating it to being a "notion", seems to
be designed to discredit the hypothesis, offhandedly, and make me
work against a headwind in order to prove it valid, with you being
the negative authoritarian blowhard detractor.

If you're really interested in the subject I'll be happy to discuss
it with you if you can keep your end of the discussion objective and
free from pejorative comments.

Otherwise, piss off. ;^) <-- Note tongue-in-cheek smiley, :-)

Baloney. See:

<http://www.fcc.gov/oet/spectrum/table/fcctable.pdf>
Zoom in to the area between 1.9GHz and 3.0GHz. There's a huge amount
of point to point, wi-fi, WiMax, satellite, XM/Serius, radar,
military, etc, stuff in that area. That's also where Sprint and
others have recently purchased bandwidth for advanced data services.

There's no disgrace in admiting that you've made a misake. There's
plenty in trying to bluster your way out of admitting it followed by
trying to trivialize your mistake.

Sorry but I have to disagree. I think children should be given the
toys. There just isn't enough Jesus in the lives of these little
tykes. Too many parents have dodged their responsibilities and raised
their children without any religion. It isn't very nice to say the

I agree there is a lot of stuff allocated between 1.9 GHz and 3 GHz,
but FCC regulations wasn't the point.

Lemme try again.

Put up two transmitters with everything identical in terms of lambda,
one on 1.9 GHz, one on 3 GHz.

Run around all you want with a field strength meter.

There isn't going to be spit worth of difference.

Antenna sizes? A matter of millimeters.

Equipment construction techniques, part availability, etc? Negligable
differences.

There isn't much difference between 2 GHz radio and 3 GHz radio.

Do the above with 800 MHz and 3 GHz. Now you start seeing some
differences.

Broadcast Auxilliary Service stations are usually not STLs. Since the
FCC mandated obscenity delays took over, some News Talkers now
require a non-delayed foldback channel to cue the field reporters
live, over the air, as it were. I think most of the 26 mHz stuff is
techically licensed for Inter City Relay.

If anyone is interested in a really cool vintage weather station that was
removed off a ship I have one I'm auctioning off. I had this in my radio

That much power that close to the receiver? Its a wonder you didn't

They aren't STLs, they're remote cuing stations. Rather than carrying programming from the studio to the transmitter, they're carrying cues to the announcers at live remotes.

(you wouldn't want to use the 25.9MHz band for a studio-transmitter link, because of the risk of a skip opening allowing another station's studio in a distant city to take over your transmitter! Or, illegal "freebanders"...)

I suspect this band is seeing more use recently for two reasons:

- Very large fines for indecency on the air, even if the offender isn't a station employee, is leading most talk stations to implement a 7-second delay in most or all programming.

- IBOC/HD radio encoders have an inherent delay of several seconds, which must be duplicated on the analog signal if the "blend" function of the IBOC receiver is to work properly.

So, when Joe Blow at the studio hands it over to John Doe on remote... if John is listening to a radio for the cue... he's going to hear it 2-9 seconds after Joe says it. And there's going to be 2-9 seconds of dead air before John starts talking.

So a second, analog, parallel cuing path is handy - there's no delay.

This is also why at least one of you heard not-meant-for-air commentary. Often, the program audio on these cuing transmitters can be interrupted by someone at the studio, to pass special instructions.

TV stations also often use transmitters in this band. However, the ones used by TV stations are generally only one watt and mobile, attached to remote trucks and often using a cheap CB antenna. So they'll be a LOT harder to DX!

STLs are usually in the 950MHz band.

The human auditory system has many components,
some linear and some not. One must consider which
component is in play when considering whether there
is mixing.
As a first order approximation: the cochlea is a continous
array of resonators that separates the frequency components
the incoming signal. That is pretty linear.
Then the system assesses the amplitudes of the
various separated components. Assessing amplitude
is a nonlinear process.

The cochlea's ability to separate frequencies is not perfect.
If two frequency components are too close the
cochlea is not able to separate them before determining
amplitude. In which case intermodulation occurs in
detecting amplitude and thus there is a 'beat'.

If a 300 Hz tone and a 400 Hz tone are coming in then
the cochlea can separate them into independent areas
and assess their amplitudes independently. No beat.
If the two tones are too close, say 400 Hz and 410
Hz the cochlea can't separate them into separate
areas and assesses the amplitude of the sum of the
two tones. Since amplitude detection is nonlinear
there is intermodulation in that case and thus a beat.

To do amplitude detection the ear does something
like take only the positive half of the
signal, or take the positive absolute value of the
signal or square the signal. Then it
averages it (or otherwise lowpass it).
The first step is nonlinear. It produces intermodulation
if there is more than one frequency component
present in the band of interest.

With a single sine wave input the nonlinear
part of the amplitude detection gives a DC term and
various harmonics of the sine wave. The averaging
filter filters out all the harmonics and leaves
the DC 'amplitude' value.

If there are two frequencies close enough that they
both get into the same amplitude detector
then the nonlinearity of amplitude detection
results in intermodulation.
That gives a DC and a sum and a difference
frequency and harmonics. The averaging lets only
the DC and the difference frequency through. The
difference frequency is the beat.

Thus two tones separated sufficiently in frequency
produce no beat. Two tones within 20 Hz or
so produce a difference frequency beat but no
sum frequency tone.

Only if the tones are not separated in frequency
by the cochlea first.

Actually the nonlinear part is in the amplitude detection
which is present toward the end of the chain in both human
hearing and in spectrum analyzers.

Good job, Gary, especially comparing the CCRadio-SW
to two well-known portables like that.

Since Bob Crane (the radio salesman, not the Hogan's Heroes
actor) has posted elsewhere that the Crane version has
"perhaps 20 minor modifications" versus the 2100,

I am wondering if you've spotted any of those from either
web-based photos or having used a 2100 yourself?

Hey thanks for the link. I was a fan of KPEN and KIOI back in the 60's
James Gabbert and Gary Gielow WERE real INOVATORS

The station was notable for being the first licensed FM station in the
nation to broadcast in stereo. KPEN's technological achievements wer
recognized by the Electronic Industry Association, the FCC, and President
John F. Kennedy.
http://en.wikipedia.org/wiki/KIOI

I used to listen on a Scott stereo FM tuner and they would transmit on one
channel only for a few minutes during which I'd adjust the transformers for
minimum sound on the other channel. Great fun and sounds

That particular receiver doesn't have much of a "front end"; diodes
(with protection) and straight into the first mixer. No RF stage, tuned
or otherwise.

OK "Iboc-is--a-Crazy" so...
You think the Redsun RP2100 being rebadged
as the CCradio-SW makes it a "HD" Radio.
http://www.ccrane.com/radios/shortwave-radios/ccradio-sw.aspx

I got news for you - It Ain't [.]
- - - Just a very good 'portable' AM/FM Shortwave Radio.
http://www.ccrane.com/images/highres/ccradio-sw.htm

-and- -IF- You have to ask the Question :
"Is there anything worth listening to on SW still"
-then- Why do you bother to Read and Post to
a Shortwave Radio NewsGroup ?

I always thought of it as a funny show. Now, when I'm listening, I have my autographed photo of Joe, which I was fortunate to obtain shortly before his death, looking down on me.

It can exceed the PIV of the protection diodes and cause them to
short, or explode. That crappy Sony design is where the harmonics came
from. The diodes, (or any other semiconductor) with enough RF can
generate a lot of spurious signals. It can even come from a rusty joint
in the area.

I was about the same age as you. When I was 12 y/o back in 1979, my parents got me my first sw radio as a Christmas gift. I loved to listen to Radio Moscow. My grade school teacher at the time used to always have a part of the day for "current events". I used to bring in taped segments from Radio Moscow and let the class hear what evil things the "Ruskies" were up to. Hehe... Back in the day there was no internet and sw listening was really the thing. Another thing I rember about those days of my sw youth....Before I learned more about the physics of radio, I built some real strange antennas. My mom always had to hide the tin foil :-) Allegator clips and Reynolds wrap where King !!! I actually tried to make a dish antenna out of a laundry basket and tin foil.

The Medical Community's Cheap Trick

A cheap trick played on medical doctors and students, untill they meet up with a human cadaver, is the cheap trick or lie that is perpetrated by the medical establishment on students of the medical profession.

How students of the medical profession stay quiet, after learning the truth, I do not know. It is a matter for each doctor to reflect upon, and for each medical student to reflect upon, and come to a reasonable answer for him self or for herself.

In other words, are they going to tell the truth or not. It recently came to my attention that the medical community is foisting, or purposely telling a lie to the public, with regards to the internal organs of the human body.

In particular, a stomach is not made up of twisting, turning, guts, or intestines, that go to one side and then downwards, and then side ways, and so forth, as depicted in this particular picture, of the so-called large and small intestines.

Please see, "Anatomy of the Large And Small Intestines"

http://medpics.findlaw.com/generateexhibit.php?ID=1696&ExhibitKeywordsRaw=Anatomy+of+the+Colon+(Large+Intestine)&TL=1889&A=42409

A similar faked drawing of the tummy tube, or shank, the descending colon tube, which is titled "intestines", along with a faked stomach drawing, by the Lesbianists and their bogus 'medical' establishment, can be found at:

http://medpics.findlaw.com/generateexhibit.php?ID=23&ExhibitKeywordsRaw=stomach&TL=1825&A=42409

Another bogus drawing of the abdomen and the supposed 'intestines', can be found at,

http://medpics.findlaw.com/generateexhibit.php?ID=13860&ExhibitKeywordsRaw=&TL=4294967295&A=42409

These pictures, and all other pictures like it, are totally bogus. There are no guts, bending and twisting to one direction, and then to another direction, that eventually find an outlet at the poop hole in the human body.

Chimps, apes, and monkeys may have these types of stomach 'tripe' that is longish, twisting to one side or to another, going back and forth, and then wrapping or folding down under other tummy tubes, and then twisting in and then moving outwardsly, as chimps, apes, and monkeyes live on banana foilage, twigs, seeds, hard shells, and other difficult to eat, hard, rubbery, plant roughage, of one kind, or of another. Some oselots may have this kind of tubeing, and so may many other animals, but not the human being.

In the human being, there is in reality, no such guts or tripe tubeing, and there is what is called a 'shank'. A shank is the human being's tummy tube, or the desceding colon tube.

Your tummy tube descends from the front right side of the tummy, in the near to upper to middle to near lower area or section of your tummy, depending on the person. Some people, may have their tummy tube, the ejector pipe, also called the descending pipe, a little higher up, than other people. Some people may have their ejector pipe a little lower than other people. That is not significant.

The muscles inside of the tummy, and surrounding the tummy, cause a pushing motion, to eject the tummy food, that has made its way to the back side of the inside of the tummy, and to the lower or middle area, near the eject pipe, on the inside of the tummy. Once your tummy food makes it there, the muscles begin to squeeze on it, and the muscles on the inside and on the outside, squeeze on it, and force it up and out of the ejector pipe, and down a chute, or the descension colon pipe.

The descension colon pipe goes in a nearly straight line, almost perfectly straight, in some people, directly to the out put terminal, which is the poop hole.

The intake for food and beverages from your lips, mouth, to your throat, or food pipe to connect your mouth to the tummy, that connector location is on the top side of the tummy, on the left side

of your tummy, as you face forward. There is a tiny amount of terminal area, that's your stomach area, that is the terminal area, on the top side of the tummy, that is to the immediate left of the intake tube terminal entry way, itself. That means, there is a descending tube from your mouth to your stomach, and it connectes to the left side of your stomach, not all the way to the left, but nearly all the way to the left side of the stomach, but on the top, generally, and in some people's cases, it is a little down, from the top, less than an inch or two from the top.

So the intake tube from your mouth sort of goes in to your tummy, from the front of the tummy, a little lower than from the top side edge of your tummy. The top edge of your tummy is located just about at the same height as your titty nipples are located on the chest. The little inwardsly pointing, dimple, in the middle of your chest, a very large dimple, just above where the rib cage begins to open up and spread apart and where the tummy muscle cavity can be felt, that dimple, or inwardsly pointing cavature, or the caving inwardsly of the chest bones in that area, some times slightly below, sometimes slightly above that point, is where the tummy's top edge is found. The tummy's top edge runs horizontally, more or less, across from one side to the other. It does descend at the outer edges of the tummy, to form a pouch system.

A bogus drawing of the Lesbianists' pretend 'esophagus' for all the med school students to ponder over, and of a pretend tummy, which has the connections on the back side, where they are not located, but on the front side, where they are located, can be found at,

http://medpics.findlaw.com/generateexhibit.php?ID=4599&ExhibitKeywordsRaw=esophagus&TL=1825&A=42409

The tummy does not look like a cashew peanut, like in the drawing. It is a pouch, and it is more oval in shape, kind of like a box, but a little long or rectangular, some may say it is similar in shape to a peanut, or to a raisin, or to a plumb, and it runs lengthwise from one side to the other, with the narrow part of the oval running horizontally. It is nearly a perfect, very slightly long, oval in shape.

The descending colon pipe, your tummy tube, which goes nearly in a straight and almost perfectly vertical, in many cases, direction, to your poop hole, from the ejection outlet port of your tummy, which is on the front side of the tummy, on the front right side, as mentioned above is very long, and in some women, the tummy rests slightly higher up, a tiny bit, to allow for a longer 'shank', or sexaling tube.

What Is The Shank?

The shank, if we look at the opening and entrance to the shank, the butt hole entrance, the shank is a multiple duty, instrument. It is a nearly straight tube, and it allows food to exhaust from the tummy

pouch. It also allows a dick to be placed up into it from the rear upwards, and a dick can be very long, in some cases, and there for, the tummy tube, or shank, is very long, and also, importantly, it is generally straight in most women and girls and in lots of men and boys.

Discoloration Of Sexaling Organs

If we look at the dick, or if we look at the scrotum, we will see it is a darker, slightly discolored body instrument. The vagina is slightly discolored, and so are the titty nipples. So are the lips, the inside of the mouth, the throat inside, and in various other places, depending on the person. The palms of the hands, the undersides of the fingers, the soles of the feet, the toes, the ears, the cheeks, and the underarms of people are all discolored to one extend or another. The discoloration is an indicator of the fact that these sense organs, or love making instruments, are major sexaling instruments. The other organs of the body, are minor sexaling instruments. All of them, are sexaling instruments when you activate them, by massaging them, and by rubbing them, and so forth, and they will begin to shoot off energies, and those energies will purify and holyfy your life and clear up your karma and the karma of the people around you as those energies will shoot out in all directions cleaning up my universe, as they go zinging outwards. The energies will erase your karma, over time, and if you pray with a prayerful minded statement in mind, while sexaling, your karma that is related to that prayer, that needs to be erased, will get erased, little by little. For examply, "I pray that I will be able to have the good health and prosperous life, that will allow me to live, comfortably, and without distress."

Sexaling And Prayer Statements

The negative karma that you have, that would prevent you from living a healthy life, that is also prosperous, and without distress, will slowly, over time, get erased, as you make your statement, every time you begin sexaling, or every time you begin a sexaling session. If your sexaling sessions are going to go for days, say, three to eight days, for instance, you might want to repeat the prayerful minded statement, every eight to twelve hours, to fifteen, to thirty, to fifty hours, or so, to 'freshen' it up, once every so often. The more you freshen it up, the better it will work. The prayer will apply to not only you, but to every one else who is sexaling, if you say, "I pray that I and every one else will be able to have the good health and prosperous life, that will allow not only myself, but all other people, as well, to live without distress." This statement is a bodhisatva minded statement, and it will produce better results. Prayer statements said with others in mind, in addition to your self, produce better results, as a general rule. Why is that? Because we want to purify not only your karma, but every one's karma, and you get extra points for thinking about every one else and their needs, as

well as your needs. Not only your self, but every person who is sexaling, during the time you are sexaling, and during the time, you continue or plan to continue sexaling, as one long sexaling session, will benefit from this prayer statement.

The Butt Hole Sexaling Organ And The Shank Sexaling Organ

The butt hole is also discolored, in all human beings, and that is an indicator that the butt hole is a sexaling organ.

The discoloration of the butt hole entrance, is an indication of the fact that the butt hole entrance is a sexaling organ. If we look inside the butt hole, we will notice that the entire length of the 'shank' is discolored, and therefore, the entire shank is a sexaling organ. Sexaling organs are different in coloration, than the normal skin coloration of the body.

The discoloration is due to the fact that there are a gazillion plus tiny blood carrier veins and arteries, that are very tiny, so tiny, you can not see them with today's 'current' medical microscope technology that is in the hospitals and labs, used by doctors, scientists, and lab technicians. These tiny blood 'capillaries' or fluid flow ductways, are too small to be seen by a doctor's microscope, or by a lab technician's microscope. These fluid flow ductways, or capillaries, are all clustered together, in high densities. When they cluster together, that is for a purpose.

They are clustered together in high densities to allow for fluids to flow to the nerves in that area of the body to feed all the mouths in the nerves of that area of the body. There are clusters of sense nerves that are extremely dense, in all the sexaling organs. Where there are high densities of sexaling nerve clusters, there are lots of fluid flow ductways, or capillaries, and the area of the skin that is visible to your eyes, will show a slight to moderate, to heavy discoloration, due to all the fluids flowing through the area, carrying food and nourishment.

Nerves

Nerves are organs in them selves. The smallest nerve organ is a nerve cell, perhaps. My memories are not very good, so we might find smaller nerve organs, as my memories improve. A nerve cell has all the organs in it, to allow it to function as a normal, living being. That means, it is alive, and it thinks, and it cogitates, or mulls over thoughts, and it considers, for instance, 'What am I going to do, now', and it has lots of thoughts, and it stays busy doing lots of thinking, and by doing lots of cogitating, and by doing lots of communicating with other nerve cell organ kids of mine.

Nerve Units As Living Beings, I.E., Creatures

Nerves, just as nerve cells, form units, and as a unit, they form a living being, or creature, and all of them have mouths, since all my

creatures have mouths, and they all need to be fed.

The sense nerves, the erotic nerves that are clustered together, need to be fed the foods and nourishment that they need to be healthy and fit, so as to be able to respond, to stimulus. They need to eat to be healthy, so that they will then be able to respond when stimulus is applied to that area of the body, where they are located.

Each organ in the body, has a brain, and a mouth, and a stomach, and a poop hole, and a pee hole, and all the other organs they need to survive with.

Some organs, maybe all of them, need to feel comforted by other organs, i.e., creatures of the same kind as they are. Some organs like to not only speak to other organs creatures who are like them, but they also like to snuggle up to one and another, and they get cozy with one and another, all snuggled up, suddenly, before any one new it, pwoop, and they make a baby organ or creature who looks like mommy and daddy.

Organ creatures of course can sexal, because if they could not, they could not make baby organ creatures. Organs can sexal just like human beings can sexal, but they sexal in their own particular ways. They like to sexal, just like human beings like to sexal, and they also go ouch, when some one or some thing pokes them, or pricks them, such as the doctors needle at the doctor's office.

Each nerve cell is built with all the organs it needs to survive, and each organ is built with all the organs it needs to survive. The number of organs in the human body is almost limitless, but not quite limitless, as you can still count them, all, if you have the time.

Brains And Notational Thoughts

Each organ is a living being, or creature, with a brain, and with notational thoughts. Notational thoughts are memo types of thoughts, such as about, 'oh, boy, that sure felt good', or 'golly, gee, I am really bored'.

One notational thought, for instance, that is of use to you, is when you are in need of water, and you begin drinking water, when you get the feeling that you need lots of water, and you get a message to your brain that you are in need for water, because you know you are low on water, and almost out of it, well, the inspirational thought that tells you, "keep drinking, keep drinking, you are too low on water" that is an inspirational thought, that your tummy and its brain is passing on to an area of your conscious mind, where you can then pick it up, and then act on it.

There are many kinds of notational thoughts organs can have and organs can pass on to our 'brains'. Organs, as living beings, also do lots of chit chat with other organs, not only with the organs inside of your own body, but also with the organs inside of the body in other

animals. Brains are brains, and they are very smart, if they are to do the duty they are assigned to do, which requires them to be smart. They are so smart, they spend a lot of their time, communicating and chatting with other organs, to see if every one is alright, and to find out what the latest gossip is. They can do many things, and that is the topic for another time. But one thing they can do is talk to each other. They have their own languages, they speak to each other with. Did you know that? I bet you didn't. If you are a Lesbianist, you may probably know this, as you probably studied about it, in your school days. Some kids, five or six years old, study these things, on planets, where education is up to the standard, that I set it at.

If we understand that brains are in every organ in the body, and some organs, have multiple brains, almost all of them do, and if we understand that they are able to communicate to each other, than we can understand that the vagina is a living being, and it has a brain, and it talks with other vaginas, in other women and in other girls. The dick has a brain, too, and it talks with other dicks, and it talks with vaginas, as well, when a vagina calls to a dick, and asks it questions.

Feeding The Organ Kiddies The Foods They Need

We need to feed the body, many foods, not only tomatoes, potatoes, asparagus, meat, and fruit, etc., but we need to feed foods to our body for feeding the organ kiddies, the organ animals, the living beings, or creatures with brains, called organ kiddies who are inside of our body.

What are we doing when we feed the body? We are supposed to be feeding not only our face, loading food in that tastes good to us, and to our sensibilities, but we are also supposed to be feeding the animals that live in side of us, as well as, we are supposed to be feeding the organ kiddies, who also need food to stay alive. We also need to be feeding all of the other animals kiddies, the living creatures of various kinds, that are living inside of our bodies. Most organ kiddies are on a starvation diet, nearly, and they survive on nearly only water. Some are lucky and get some pee and poopy juices from animals that live inside of our bodies.

Most of the organ kiddies are not lucky, and they languish, from day to day, with nothing to eat, and they hang on, and they do their best to perform for us, but in the end, they are defeated by our not feeding them, and they give out, and give up, and throw in the towel, and say, "To hell with it. I don't care anymore." and with that, they cancel their agreement to work with us, and they say good bye, and they then slowly perish, and as they do, so do we. We perish because we do not feed the organ kiddies in our bodies, and because we do not feed the cell kiddies in our bodies, and because we do not feed the amoebe kiddies in our bodies. If we feed them all, we would not die, and they would continue to live, properously, and progenerate, or give us babies, to take over the jobs of mom and pop, Sr., the first organ

kiddies in our bodies, who want to work with us, and who want to be fed, while they work for us, when mom and pop, Sr. are near the end of their run, that is their work life, and when it is time to call them in to my Epcot Centers for them, for them to get their check up, and repairs that they need, to their brains, and to their nervous systems, and to relieve them of any undue or unwholesome stresses, nervous tension, migraines, and so forth.

You might be thinking, "This is a joke", but it is not a joke. You are completely wrong if you think this is a joke. If you feed the foods that organ kiddies like to eat, to them, they will become alive with activity, and they will work hard for us, and we will feel a new sense of vitality, and we will regain our good humor, to some extent, as it is a karmic issue here, as well, having a good humor, or a pleasant personality, and when it is time for mom and pop, Sr., organ kiddies to pass on the work load to baby Mac, and baby Sarah, organ kiddies, Jr., they will pass on the work load to them, and Poppa and Momma will retire and make their way, with assistance from their kids, and with assistance from my kids, to my Epcot Centers for them.

This is a complex topic to discuss, and I won't try to discuss it in full, obviously, as I am too stupid, and my brain is not working, and I can't remember every thing about it, obviously. But, you should know, that if you feed them the molds animals, the molds fruits and gardens produce, and the funguses they like to eat, and that they enjoy eating, and the other foods that they eat, from fermented mash, made correctly, and from molded foods, and from molded breads, molded chesses, properly cooked meats, and so forth, they will feed on the animals in that food that you prepare for them, and you'll get healthy, and they'll get healthy, and they'll live for three hundred to eight hundred to fifteen hundred years, or more, depending on which ones you are talking about, and they will work for you, with zest and vigor, before it is time to hand over the work load to baby Mac, and baby Sarah, organ kiddies, Jr.

If We Were Able To Be Born With "Owner's Manuals" For Our Body And Brains

We are not born with an owner's manual for our body and brains, etc. If we were born with one, we would be told that if we feed our body properly, the body will last us forever, and we will be able to live forever. This is the norm for the human body. It is not a 'dream' or 'hope', or 'wish'. It is merely the truth, and once you learn how to feed your body, and all of the animals and creatures inside of your body, you will begin to make all the animals and creatures inside your body, happy, and they will begin to work for you, as they were intended to work for you. They are all my worker animals, and they are here to work for me. I have many worker animals, and we will learn about all of them, and we will find those who we need to help us feed our bodies properly, so that we can all live in the body that we were born in, that is meant to last you forever, if your feed it and

nourish all of the animals in it, properly.

If you do not feed my worker animals in your bodies, the nutrients, the animals and the plants animals and the foods that my worker organ animals in your bodies like to eat, that will allow my organ worker animals, and all of my other worker animals, to live with vigor and tenacity, strength and good health, they will not work very well for you, and in time, they will all perish, and so will you. I mentioned my worker animals in the molded foods, molded fruits, molded citrus fruits, fermented beverages, and so forth, that we will be making. They are all there in those foods that we will make, and then use to feed ourselves with, to then help feed all my worker organ animals, my worker cell animals, and other worker animals, that are in your body, and that need to be living in your body, working hard for you.

If you do not feed them the foods that they like to eat, they will not live for long, and they will perish, and die, and that will be that, and you will not have a chance for living more than a hundred or two or three hundred years, in that body of yours, if your karma is good, and if you were not being poisoned by the petro chemical industry, and the chemicals industries, and by the foods manufacturing industries, and by the pharmaceutical manufacturing industries. We will never hear the Lesbianists admit that they are intentionally poisoning us, but they are.

Once you find a way to survive on molded up, wholesome natural healthy foods, with no pesticides, and on water that is not chlorinated, and that is wholesome to drink, and after you learn the abc's of proper eating, to feed every one in your body, as well as you, then you will not die and you will begin to live forever.

The Lesbianists are afraid that you will learn to eat properly and then, when you begin to get your diet together, not only for your self but also for all the animals and organ kiddies in you, and for all the cell animals in you, or cell creatures, who are smart living beings, by the way, you will begin to be able to extend your longevity, and then, in time, you will be able to live forever.

If you stop drinking the poisonous coffee in the office, as I've explained about, previously, the Lesbianists make it with diesel fuels, and with gasoline, and with kerosene, if you stop smoking the poisoned cigarettes, if you stop using the plastics furniture, and other plastics products, if you stop inhaling the gasoline fumes kiddies that cause fibromyalgia, and fumes animals cause the sharp pains in the body as the fumes animals eat up and destroy the organ animals in the body discharging energies or electrical currents, as they mate, and as they sperminate, and vagicate, or eject female animal sexaling juices, like some jelly fish do, and like some deep sea snakes, and worms, that are lit up, with pulsing lights in them, when they mate, do. Fumes animals also cause arthritis, ligaments problems and diseases, and other health problems. If you stop inhaling the plastics fumes kiddies, which also give you fibromyalgia,

arthritis, etc., and kill brain cells, and cause brain rot, Alzheimer's disease, and parkinson's disease, and a number of other illnesses, and if you begin to eat properly, in accordance with the proper rules for diet, that our body and brain owner's manuals would explain about, if we were to be born with these manuals at the time of our birth, then, you will begin to get healthy, and you will begin to live forever.

So, good luck, and do not vote for Hillary Clinton, or any of the other presidential candidates, and if you see them, give them a beaver cheer, some people call it a 'Bronx cheer', and the noise you make sounds like someone farting in their direction. That may sound childish to say, but it is what the Lesbianists deserve as you are being played for a fool, every day of your life, and you should snap out of it, and do some thing about it, as soon as you and your friends can get it together to begin sexaling, in the ways I've explained about.

Duplicator Tests

In a duplicator test, there is one strand of a piece of the body, and you take that strand, and with medical and scientific technologies, you attempt to make a copy of it.

Why do they make a copy of a strand of a piece of a human or ape, monkey, dog, or cat, etc., body?

To test for various possibilities as to who the strand came from and how the strand came from the source, and what has happened to the person, if it was a person, if the person is no longer here to stand in for himself or for herself, in the case of a missing person, for instance.

What is meant by a strand of a piece of a human, etc., body. Usually, a piece of flesh is a good place to start. A clipping from a person's finger nails, can be duplicated, if the sample is tiny enough, and it can be analysed, and then compared with an original shard or piece from a person's finger nail, a known subject's finger nail, and then a match up can either be made, or not be made.

Human blood cells can be duplicated and matched. Human skin tissues can be duplicated and matched. Human organ tissues can be duplicated and matched.

These matching tests are in fact, one example of a organ animal giveing birth to a baby organ animal, or to a number of baby organ animals.

I'm not sure what they call the test, in the laboratory, but that is a duplicator test, in my vocabulary, and it should be a simple test that all county, municipal, and other police medical technical labs, forensics labs are capable of performing.

This example of a matching print from the one strand of a piece of the body, is an example of organs animals, giveing birth to baby organ animals.

Red blood corpuscles, are often tested, in this manner, I believe. A corpuscle is an organ animal, and it will give the same results, and you can make baby blood corpuscle organ animals.

A high school, or jr. high school science lab technician or teacher, or in some school labs, including jr. college science labs, and technical labs at medical technical schools, teaching assistants, should be able to perform this test as it is a simple test to learn how to perform, and even off duty police officers, are taught it, in their free time, for fun, or for advancing their career. Licensed Practicing Nurses (LPN's) generally know about this test, and so do all doctors as well as your general medical school student, and two year college, or four year college, nurses course students. Botanists know or should know this test, and there are many professions where in this test is common, such as in paleontology, the study of human remains, bones, and so forth. I don't know what people on this planet, understand a paleontologist (Note: 'paleo-entologist' I think may be the correct spelling, but I'm not sure) as, but in my vocabulary, as it is comming back to me, a paleontologist explores and investigates old bones, fossilized bones, old grave sights, and so forth.

Elementary school students, and maybe some kindergarden school students, in advanced kindergarden schools, such as in Japan, and in Europe, and in different countries around the world, can do this test, if their science lab teacher lends them the technical books, and tools to take home, study, and then show the family and parents, how a duplicator test is done. It's not a difficult test to perform, if you can read, and if you know what a beaker is, and so forth.

This will give you a start for the search for proof as to whether or not there are organ animals in the human body, and in all animal body's and in all living being's bodies. It will provide proof that organ animals, once you've identified them, can in fact give birth to baby organ animals.

There are a number of types of duplicator tests, lab technicians perform, in their day to day job routines, in medical labs, and the duplicator tests are generally for making comparisons, of one type or another, or for one reason, or another. They all give the same results, they provide you with proof that organ animals do exist in the body, and that organ animals do make babies.

Sexaling With Family And Friends

Sexaling with your family, relatives, trustable neighbors, and so on, will help you to begin to erase your karma, if you begin your wholesome, purifying, and holyfying sexaling with your family, relatives, kin, trustable neighbors, and others who are trustable. As you erase your karma, little by little, you will begin to get better

karma, and you'll begin to be able to get rid of these Lesbianists who make fools of all of you, and who toy with you, one life after another, as you go into my Epcot Center, and then come out again, as a tummy baby to a tummy mommy and to a tummy daddy, on a fairly predictable basis, meeting up with your former friends and colleagues, over time, and then going through the six, or ten, or twelve, or forteen, or sixteen, etc., years of schooling, each time you come out, to lead a very short life span, with, once again, all of your organ kiddies and other animals and living creatures in you, nearly starving to death, the whole time you are out here, with your friends, playing, golf, swimming, playing tennis, football, entertaining the Lesbianists, and so on, until it is funeral time, and then back, once more and into my Epcot Center, until a new tummy mommy and a new tummy daddy, are waiting and ready for you to come out again.

This is not a joke, I need to repeat, and you should start thinking about doing something to bring a stop to this abuse of your organ animals and other living creatures in you, and to bring a stop to the abuse of you, by the Lesbianists who will not tell you how to do any thing that is good for you and that is good for your health.

Massaging The Butt Hole And Shank

If you work massaging the butt hole for a few hours, fluids will begin to form, and the tissues of the shank, and of the butthole, will become more pliant. They will become stretchable, and they will, after a number of hours of massaging the butt hole, and the inside of the butt hole, little by little, as you insert a dick up the hole, as it gives way, and becomes more pliant, after a few hours, or so, it will soon be able to become opened up completely, and a dick can then be inserted and the shank then becomes a sexaling tube.

On the end of the dick, there is a 'pooper scooper', or head level scoop pipe. The head level scoop pipe is the peculiar shape of the dick at the tip of it. This shape allows you to insert the head of the penis into the butt hole, and then take a wee wee, and then mush up all the food that is stuck in the cavity, and after a little mushing up of the food in the tummy pipe, or shank, you can then begin to scoop it out, little by little, with one dick shovel head, after another.

After seven or eight dicks, to twelve to thirteen, or so, on the job, pumping, and peeing, and scooping out the poop, and ejaculating, as well, you can eventually scoop out most of the poop from the shank. Some may remain near the top, so a few more pee pee's into the butt hole, will help wash out the tummy tube, and it will become clear and free of digested food matter.

The large and small, i.e., the meaning or intent of this paper, or note, is to let you know that the poop hole is a sexaling organ, and that the poop tube is a straight tube, and not a twisted up, bundled up, chimpanzee, or oselot guts piping, or bear guts piping, or horse

guts piping, or pigs' guts piping, or cows' guts piping, as the medical community, would like to have you believe, along with the hoards of bible thumpers, who colluded with the Lesbianists of the medical community, to keep you in the dark ages.

You are being played for a fool, every day of your life. If you can allow the Lesbianists to make a fool of you, every day of your life, and if that is alright with you, than go right ahead, and play their game, and let things stay as they are, but if you are not willing to allow them to make a fool of you, then you had better get busy, sexaling, and so forth, as I've already told you what we need to do, to help bring about the changes we need to make.

Sending Hillary And Obama On Their Final Rides

A vote for Hillary Clinton for president is a vote for stupidity, on your part. A vote for Obama for president, is a vote for stupidity, on your part. Now why doesn't somebody kill Hillary Clinton, or Obama, or both. I just do not understand. Do you? I don't.

Next time you see Hillary, you can ask her if you can open up the front of her chest cavity, and take a look inside to see if she has a shank, as I described it, or if she has a twisting and turning, animal type set of guts, like many animals do. I think you'll find that she has a 'shank', and not a twisting, turning, animal set of guts.

All human beings have shanks, and not one human being has a set of 'animal' guts. Human beings have shanks for fuckaling, that is, butt fuckaling, but no one, except the Lesbianists, know about it, and as a result, no one ever thinks about butt fuckaling, as a type of sexaling enjoyment, and a sexaling past time.

Explosives To Kill Hillary Clinton, Obama, George Walker Bush, Jr. Barbara Bush, Jr. And All The Congressmen and Congresswomen, And All The White House Staff, Etc.

Well, I have told you about many bombs you can make, on my web site, and I suggest you begin to think more seriously about taking out Hillary's cavalcade of automobiles, next time she is riding through Washington DC. Or the next time you see Mr. Obama, please consider blowing his cavalcade of cars and limousines, up and out of the upper solar atmospheres, with the bombs you can make, as already explained about, in my notes, on this bulletin board.

After you blow them up into bits, and pieces, they will be fine, as they will soon be coming out of my Epcot Center, as tummy babies, and they will be two less threats to the ordinary and normal people on this planet, for some time to come.

A Note On Hillary Clinton, George Bush, Jr., Barbara Bush, Jr., And A Number Of Other Lesbianists

Before you blow up Hillary, find out if she is with us, on this, or what. I think Mr. Obama is not with us, yet, but it may be the case that Hillary Clinton, along with a lot of her friends, is now on board, and she is hoping to set sail with the rest of us, but is not quite able to break away from the Lesbianists' and their organization, since she has been a friend with them, and a member of their organization for umpteen millions, billions, trillions, and zillions, plus years, since long before they ever even came to this planet, to settle it. These people, Hillary Clinton, and a number of her friends, are ready to make the change over, but lots of Lesbianists are not ready to make the change over, and so Hillary Clinton is kind of stuck, and so are all the other Lesbianists, who want to make the change over, and who want to say good bye to their former organization.

In any case, this planet is crawling with animal people of all kinds, as I've mentioned, and it is a very unpleasant situation, and the Lesbianists know this, as most of their membership has already been eaten up by animal people, and there are many types of animal people. Many of the animal people who ate up the Lesbianists below ground, are walking around, as they imitate, or take on the form of human beings, after they eat one. Not many of the original Lesbianists are still alive, down below the surface of this planet, in their underground cities, as I've recently learned, as most all of them, close to ninety nine plus percent to nearly one hundred perecent of the Lesbianists down below the surface, have already been eaten up. There are still a lot of Lesbianists down below us, below the surface, but compared to the numbers of them who were there, before, there are fewer, now.

What To Do, Now?

I thought my kids were ready, with an underground system of 'safe harbors', but it seems there is a delay, and I'm not sure when the delay will be resolved. Until it is resolved, I guess we are stuck where we are. So, the only thing to do is to get the government to make the needed changes, and to step up to the microphone, and denounce the Lesbianists organization, by telling every one that it exists, and that we will now build a one world, government. When the politicians decide to do that, and when we begin building a one world government, then maybe we will begin to see some resolvement to this situation.

I have some more ceremonies to do, and I have a lot of time to wait, till we see a resolvement to this situation. The additional ceremonies will assist us in making a safe harbor, as far as I have heard, that is fully integrated, and that has all the protection and safety systems that will be needed. All the different components to the fully integrated system, for covering our immense universe, all at the same time, are not available, yet.

There is a lot to learn, about who else lives in our universe, and about where my kids live, and about what my kids do for me, keeping my universe running for me, along with a lot of other information, for

you to get and read, and then understand, about my kids.

As soon as the local, or federal governments around the world release the software that will allow people to upgrade to the 'Managing My Universe' software upgrade, from the databases, that are located in the underground bunkers the Lesbianists used to use when they first arrived, and when they were in the 'sexaling for a living' program, which all of them were in, when they arrived. These databases are also located on other planets where there are bunker systems, and where there are communities of people, who are in the 'sexaling for a living' program.

Also, once the 'Managing My Universe' program software is released, and once people start using it, and once they set up their own network, that it will run on, and once enough people are running that software on their computers, we can have a partial soluition to the problem of the animal people, as well as a partial solution to dealing with Mormons, and Clerics, and Protestant leaders, who believe in "Jesus Saves" and other such useless nonsense.

I think the Jesus Saves group, i.e., Christianity, the Mormons, Protestants, Lutherans, Catholics, Presbyterians, and so forth, is built on Islam, and on Judaism, or rather, on one of the schools of Judaism, plus maybe some other things, made up, or grafted from other religions that were primitive religions, such as Voodoo cults, and worship of the dead cults, as well as other cults, and they were all squished together, and the result was, "Christianity", but that was after all of my teachings were clipped out of the two above mentioned religions that I had taught.

In any case, not a one of them has a clue that sexaling is a 'purifying' activity, and women and their sexaling bodies are like 'purifying' engines, or washing machines, as I've mentioned before, and men and their sexaling bodies, are also capable of becoming 'purifying' engines, and washing machines, though we all have our karma, and it will be a while before we erase enough of our karma, to make a difference, for some of us. That means, some people are better able to sexal than others as their karma for sexaling is better for sexaling than the karma for sexaling of others. We have a lot of karma to erase before we all begin to pick up enough steam to get any where, sexually speaking.

I think that is the general situation, for most, but there are some people who are more gifted than others, and there are some people who are, when it comes to their sexaling capabilities, generally speaking, fine.

With the use of aphrodesics, fruits that we can grow, that must be taken off the 'banned' foods lists, vegetables, nuts, and other foods that also are useful aphrodesics, that must also be taken off the banned foods lists, we will be able to make better progress. Sessame seeds can mold up wheat bread to make a nice aphrodesic, from what

I've heard, and I will give it a try, one of these days, as I'm busy, molding up a few other things, first, sort of for experimentation, as this is all new to me. Peanuts supposedly, might be aphrodesic, once you mold up wheat bread with them. I believe they have minor pain killing properties, as well. Dark green garbanzo beans, sold in Indian food markets, also mold up wheat bread and are useful as aphrodesics. White bread is too poisoned to consider for use. Please use only whole wheat bread, or a bread of fine quality. Do not use white bread or normal white french bread, as the flour used in making them is treated with bleaching agents, that are poisonous.

Compliance With The General Terms Of Their Settlement Agreements

In any case, we need all the laws changed, as I've mentioned about, before, and we need the governments to form a united, single planetary government, and we need every one to begin to get the information they need, and the assistance they need to begin to cooperate with each other, in science, and in agriculture, and farming, etc. We need to ban pesticides, the use of petro-chemicals in the manufacturing industries, the promotion of natural fibers, and natural oils for manufacturing, and the switching over to non-polluting, hydrogen based technologies, and so forth.

We also need the volumes of Greek literature released, as well as all the other literature, that needs to be released, that the initial settlers of this planet, were given, to use to set up their planetary government, with.

When we start to see that these and all the other neccessary steps are being undertaken, in an effort to accomplish them, we will be in a better situation to begin to see a resolvement to this situation. The Lesbianists do not like to be forced into doing things, but in this case, there is no other way of getting these things done, and so if we need to force them to get them to move off their fannies, and get their butts in gear, than we will have to do just that.

We need the Lesbianists, and all the other groups of people on this planet, who legally, or rather, legitimately settled this planet, but who are not in compliance with the terms of their settlement agreements, get into compliance, and the sooner they get into compliance, the sooner we will have a resolvement to this situation.

Persons Who Wish To Participate In The Previous Sexaling For A Living Program

I have talked about the previous sexaling for a living program, that people were signed up with, a long time ago, when they first settled this planet. I mentioned the underground bunker systems, that my kids still keep for eligible card carrying members. I suggested that there might be people who died, and after they came back from the Epcot Center, they no longer knew any thing about the 'sexaling for a living' program, that they were affiliated with, and they forgot that

they were a valid card carrying member of the program.

Even though these people, may not remember that they were once in the program, since they don't usually bring that information with them, when they are tummy babies, in mama's tummy, these people, if they wish to get back into the 'sexaling for a living' program, that they were once a participant in, they may write a statement, and state that they wish to get back into the 'sexaling for a living program'. They need to sign it, and press their energies into it, just as I explained, about, before. For example,

Affidavit

I, ____name____ would like to get back into the sexaling for a living program, that I was an active participant in, previously, and that I continue to belong to, as a valid card carrying member.

Signed: (signature)
Date: (Date)

Then, press your finger, or thumb, or elbow, or toe, or nose, or lips, or palm into the paper you wrote, above your signature and date area, and make sure you press in your energies, as well as you can, and that should wake up my kids, and get their attention. When my kids have verified that your request is legitimate, they will buzz you in, or rather, teletransport you into the underground bunkers, that still exist, in many places, on this planet, and under the surface of this planet. These bunker systems exist on other planets, as well, and so every one who is qualified, no matter where they are, and no matter what planet they are on, can get back into the program, so long as my kids authorize and approve their request for entry into the program.

This will get you started. You have to be certain, that you wish to start off, again, and that you are sincerely interested in getting back into this program, to sexal for a living, in accordance with the rules and guidelines of the original program.

Once you are in the original program, now as a participating member, you can begin sexaling for a living, and you can also, begin to study about the new 'sexaling for a living' program, and the 'managing my universe' program, and the other programs that are now available, in the Gurkian Age. There are introductory courses for people who are not familiar with the program, and your questions will be answered in the seminar like introductory courses.

Once you decide to join with one or more of them and once you decide to get into the Gurkian Age Religious Revolutionary Movement, and then begin sexaling for a living, as you get fit, and healthy, by your participation in these and other activities, as well, such as the club activities, as I've mentioned about, before, so that you can sexal more adequately, and robustly, for, eventually, days, then weeks, then months, then for years on end, without tiring out, too much, and in between sexaling activities, you will have lots of other activities,

such as the club activities, to vary the pace of your life, to make it more interesting, and more engaging, by meeting with lots of people in the clubs, and by learning about these people, and by sexaling with them, once you've decided you would like to join, then you can switch over to the new programs, in the Gurkian Age Religious Revolutionary Movement, and get started when the facilities for them, are constructed by my engineer kids, and by others of my children, who will be helping them.

When we have all of the facilities needed, the new programs will open, and you can switch over to the new programs and my kids will help you with the paper work to transfer over your membership to the new programs, in the Gurkian Age Religious Revolutionary Movement.

Qualified Card Carrying Members

Some of the people who I've mentioned before, such as Jodi Foster, Jennipher Lopez, Madonna, Angelina Jo-li, Jack Nicholson, Angelica Huston, many actors in the New York actors' guild, many members of the west coast actors guild, and many members of actors guilds around the world, and also, many members of dance troups, and dance guilds around the world, singers, musicians, entertainers, members of the military, members of law enforcement agencies, and so forth, many of these people, and others, as well, are qualified as valid card carrying members of the original sexaling for a living program, that the initial members and follow up members of the out bound programs for the settlers to this planet, were all a member of.

Even if you do not think that you could possibly have been a member of one of those out bound settler's programs, you may have been one, and if you write an affidavit, in the form as I've mentioned above, you may find that in fact, you were a member of the out bound program of settlers to this planet, or, you may find that you were a member of one of the other out bound programs, to other planets, and you may find that you are still a qualified, card carrying member who is entitled to rejoin the sexaling for a living program, that you were once a member of.

How is this possible? How can you still be a valid member, after all this time? Well, it is just that we need to get you started, and so these facilities, the underground bunker systems, that I've mentioned about, before, are there, and I was told by my kids, that you can make and sign a statement, or an affidavit, in the manner in which I mentioned, above, and that will be all you need to do, to get back into the program, you were once in. We are extending the time limit on the previous sexaling for a living program, as a short term measure, to help get things started up, again.

Zealot

Joining the original program, applies to all valid card carrying members, whether they currently know they are with an out bound

settler's group, or not. That means, that Ms. Hillary Clinton, can get started up, again, as the time limit on the program has been extended, and so can Mr. Bill Clinton, and so can Chelsea Clinton, and so can all of the other people, who prefer to consider them selves as 'radicals', and they prefer the term, 'Zealot' as in, a person who has a lot of zeal for living, to the term, 'Lesbianist'. So when you see some one you might recognize as a possible 'Zealot' it is polite to use the term, 'Zealot', and not use the term, Lesbianist, as 'Lesbianist' has too many negative feelings attached to it, and people might start using it as a way to make others, angry.

You do not get points, for starting fights, or for getting other people angry at you, for teasing them, and so forth. So, let's all behave, and let's all get into the program, those of you who are eligible, and let's go from there. If you have a friend, who might not be eligible for the program, you can make an application to allow the person into the program, and then my kids will approve it. The person will then get accepted into the sexaling for a living program for the out bound settlers.

What Is Tin

Tin ore is a metal ore, and it is found in cassiterite, as listed in many books, and it is also found in iron pegmatites.

Iron pegmatites are its chief source for supply of this mineral ore. It is like gold, or barium, or silver, and it is found in many pegmatites.

What is barium? It is a mineral that is found in steel ore, or iron ore, and it is a tough metal, and it is very strong, with great tensile strength.

What are pegmatities?

Pegamatites are large stones that contain mineral ores.

A pegamatite ore stone can be found in silver deposits, and in gold deposits, and in many types of mineral deposits.

Pegmatites are generally found with quartz, or a type of quartz, that is a pearly white in color.

It is a cluster of ores, of various types, and the ores can be any thing from silver, to gold, to iron, to boron, or cadmium.

What is boron?

Boron is a chief component of the metal industry, and it is used for making steel. It is found in iron deposits, and it is also found in gold deposits. Boron is a chief component mineral ore found in iron ore deposits.

What is cadmium?

Cadmium is also a chief component of the metal industry, and it is found in large quantities, when found with silver ore, and with iron ore, and with gold ore, typically. It is a shiny grey ore, and it is very useful for making steel stronger.

The processes of melting tin ore out of cassisterite, is a difficult process, but the Lesbianists use it to help confuse people about what tin is. Tin is chiefly found in metal deposits, or metal bareing loads, where there is much iron ore, and steel ore.

Steel ore is similar to iron ore, but steel ore is stronger than iron.

Iron is a little brittle, and with out the use of steel ore, and with out the use of other ores, to stiffen it up, iron ore is a poor choice for durable, pots, and durable cast iron statues as it will fragment, very easily, and it turns to dust, if scraped with a strong hardened steel knife blade.

The home hobbyist, or workshop metal smith, as seen on PBS, the small sized smelting industry, as seen in a recent Las Vegas PBS program that touched on metal smithing, makes a big deal out of white metal, and that is iron, basically, the real brittle metal that comes in through the metal smith's doors from people who own statues made of iron. That brittle metal, if scraped with a knife, will start to shatter, and fall apart, and the metal smith was saying, he could not weld any thing to it, as it would just keep coming apart, layer after layer. That is iron ore, and it is different from steel ore.

I suppose the Lesbianists' made up the periodic table of elements to help confuse scientists, and it does not jive with reality, and the

metals animals minerals animals, elements animals, and other animals, that we have in our environments. The Lesbianists periodic table of 'elements' does not help to describe the many types of 'elements' animals and other animals that we find in our environments, under the ocean, in the forests and jungles, under the ground, or in the deserts, and so on.

How Many Elements Animals Are There?

There are so many elements animals, you will take many years to study about them all, if you decide to study in depth about them. Maybe it will take several hundreds of years, to learn about some of the things about them. If you wish to study about all the mineral animals, metal animals, elements animals, and other living animals that are in my many universes, it will take you a far greater amount of time to study about them all.

We will have courses for you to study about them, once we set up our new civilization, and once we get around to setting up the many other new civilizations, that will all be patterned after our civilization, that we will be setting up, shortly, with the cooperation of the Lesbianists, the Zealots, and their many other outbound planetary settlement groups radical friends.

New Sciences

Elements animals are many types. There are thousands, and millions of elements animals, if not more, maybe many times more, into the kazillions, plus many times more, I think.

Just like animals on the ground, or in the ocean, or in the fresh water lakes, or in the sky such as birds, or in the lagoons, or in the swamps, and so forth, there are untold, countable numbers of different animals.

However, the elements animals are very far greater in number, than the animals we can see with our eyes.

Animals of all sizes, and some of them are very tiny, exist in huge numbers, all throughout my universe.

Tree animals, and plants animals, we learned about recently, the drafts babies, and the wedger mama's, they are in each and every plant, and they are different from every other type of plant animal.

There are quite a large number or plants, and flowers, and bushes, and sea weeds, though we don't see sea weeds too often, or kelp plants, but there are lots of underwater plants, but perhaps not as many as above ground plants, as we have destroyed our environments, and in the ocean, the oceans are so polluted, not much grows in them, any more.

Elements animals are very large in number. So are molds animals. Molds animals are very large in number, but who is there more of? I don't know, but maybe with all the different types of molds there are, there

may be more molds animals, than there are elements animals, but it is a close call, I think.

But maybe not, as there are so many types of animals in molds, maybe the animals found in molds, are far greater than the number of animals found in elements.

Anyway, I suppose molds animals, if we look closely at all the different types of molds there are, with a microscope, will far out number the number of elements animals.

Never the less, there are a far greater number of elements animals, than the Lesbianists are going to let anyone know about.

Why is that? It's because they do not want to educate people about the real world we live in. They want to keep us dumb, and stupid, so they can laugh at us, or at least, as dumb and stupid to them, anyway, so that they can laugh at us.

Well, it is a pretty unpleasant situation, here, because we have to learn what science is, and we have to learn the real sciences, and not the phoney sciences the Lesbianists teach.

My memories are not good enough to even begin to teach any thing, but any way, we need some Lesbianists, such as George Bussey, or Clint Eastwood, or Morgan Freeman, and Liz Taylor, and Mila Jovovich, and Mrs. Barbara Bush, Jr., and Mrs. Barbara Bush, Sr., and Mr. George Bush, Sr., and Mr. Ronald Reagan, and Mr. George Bush, Jr., and their radical friends, to teach us the real sciences, along with the rest of the Lesbianists, or Zealots, all of them.

Not a lot of them will want to comply, with that, but we can get some of them to comply, if you make friends with them, and then invite them to your houses, and sexal with them, and make them your best friends, and your sexaling partners. The longer you remain friends, and the longer you sexal with each other, the more compliant they will become over time.

That's the best way to get the Lesbianists, or Zealots to become your friends and then have them teach you stuff, about molds, and science, that you didn't know about, before. As you learn about science, you will learn about making molds, using different methods, and then you can learn how to feed your body, and then you can learn how to feed all the organ animals in your body, a proper diet, and then you can live forever.

If your organ animals all get the foods they need, you will have many happy animals inside of your body.

Professional Moldists

Lesbianists are all professional moldists, and they all have the capability to teach people how to mold up any thing that is worth molding up. They study for millions, and billions of years, and even

longer, in some cases. They get their professional degrees, and then they qualify for the outbound settlers' program, and then they go off to settle a new planet, that has not very long ago, recongealed, after it was last smashed apart by a passing sun, or large planet, traveling at a very high rate of speed as it smashed into it, or as it smashed into something, such as another planet, or even a sun, nearby.

That can be very catastrophic, and not many people will survive, and many planets in the vicinity, will shatter to pieces, when a sun or large planet is hit by direct impact, by a large size planet, or fragment of a large planet, or a sun, or fragment of a sun, traveling at a high velocity, near or even past the speed of light.

The shock waves that go shattering out, in wave after wave, will destroy every planet and sun, for a long ways around.

This happens, some times, and the planets and suns and moons, are reduced to dust particles, and after some time, they begin to recongeal, as they go spinning around due to magnetic waves that affect them. After spinning in various formations of circular movements, they eventually recongeal into numerous planets, and many different sized suns. Lots of moons also form, and you have the birth of a lot of new planets, that need settleing.

We always send out people to settle the new planetary systems that need settling, who are most qualified, to establish and lead a new civilization, that they must construct, as a part of their agreements, for their being selected to settle the new planets.

This is how it is typically done, and so we get the best and the brightest, and after their certification, they go out to settle a newly formed area of planets that are habitatable.

We send out many groups, one after another, of highly qualified people. Hulk Hogan was one of those people, who came in a different group of people, but he is friends with the Lesbianists, and he supports, more or less, what the Lesbianists are doing. There are a lot of Hulk Hoagan's friends, who also came and settled this planet, in one or more of the out bound planetary settlement groups.

We need Mrs. Barbara Bush, Mr. Hulk Hoagan, and all of their friends, including Hillary Clinton, and Mr. Obama, to get into compliance with the terms of their agreements, that they initially signed onto, and penned their names to, so that we can get further aide from my children.

My Working Children And Where Are They?

My working children take care of the support work, once the settlers in the out bound settlement groups are in agreement with the terms of compliance, of their out bound planetary settlement program.

How this is done, takes some explaining, but it is fine to leave it as it is, for now, as it will take a lot of explaining to do, to let you know exactly how every thing in my universe is set up, and where all my kids are living.

There are multiple dimensions to this universe, and I weaved together this universe, in such a way as to support the activities of my kids, and at the same time, support the activities of other groups of my kids, living in different dimensions, and at the same time, support the activities of us, living here, in this large universe of ours. This is the central area for us to live, and we have a different job, as it turns out, and that is to purify our universe that we live in, for eternity, so that we can all live in all the universes I have made. There are many universes, too small for you too see, as you are just too big to possibly see them.

I also made many dimensions, and weaved every thing together, in such a way as to support the religion that I am now going to teach to you, over time, and that you are all going to learn about. You can decide for your self if you wish to practice my religion or not, but your practicing my religion, is essential for us to have a nice place to live in, for eternity. That also includes all of my kids.

Different Jobs For My Different Groups Of Children

We have a lot of different jobs to do, my kids, and you, and to keep every thing running smoothly, we must practice my religion, that I am now begining to wake up to and learn about, as I come out of my condition of amnesia, and that I am now begining to practice, in my apartment.

This is how I planned, it, with me waking up, and coming out of my amnesia, and then, over time, introducing my self to all of you, as you all begin to practice my religion.

We will be here for eternity, and it is our job to purify our universe, and to erase the karma, that is a continuous problem, for all of us. There is much we must understand about how my universe is built, maintained, and run or managed. All of my kids make karma, and to keep this universe running properly, we have to divide the karma up, into manageable sizes for each one of us to bare. We are in the best location, here in this universe that we live in, and it is our responsiblity, because we it is our job, to keep our universe pure by practicing my religion.

Advantages To Living In This 'Central Bus Station Terminal Building' Universe

There are lots of advantages to living in this universe, the 'Central Bus Station Terminal Building' universe, that my kids do not share with us, as they live and work in their many, tiny 'Bus Station Terminal Building Support' universes, to support what we are doing, in this 'main' universe. There are lots of things that you can do in this 'main' universe, efficiently, and effectively, that you can not do as

well at, in the tiny universes that my kids live in.

The list is long, but one thing is, taking karma, and figuring out how to deal with it, and then dealing with it, efficiently. Another thing is, balancing out karma. We need to balance out karma, to keep every one and every animal alive, thriving, and well, and we can effectively balance out karma, in this 'main' universe, better than in the tiny universes that my kids are living and working in.

With my religion, that we will begin, soon, to accept and practice, some of us in our universe, and in time, more of us, and with my kids practicing my religion, along with us, but in their support network of tiny universes, and more needs to be explained about the support network of tiny universes and what my kids are doing, as they work in them for keeping things running smoothly and harmoniously, we will effectively have a way to balance out karma, much better than ever before.

Practicing my religion is also good for erasing our karma, and we can more effectively erase our karma, and keep things running smoothly, for our 'main' universe, as well as for all of the many support universes, that my kids are living in and working in, and that we need integrated with our 'main' universe, to allow us all to live in this very big universe of ours, which includes and is central to all of the other many 'tiny' universes and central to all of the other living areas, that goes on, beyond the walls of this universe, in all directions for almost nearly infinity for all practical purposes, that I have for all of my working kids to live in and work in, supporting what we are doing in this universe and supporting, in an inter networked and inter connected manner, what they are all doing, in their universes, and living areas, as well.

My human being kids all have jobs, and so do all my worker animals, and I have lots of working kids, and I have lots of worker animals of all different kinds.

You and I, who are in this main 'Central Bus Station Terminal Building' universes, are the only ones who do not have jobs assigned to us. Therefore, we are all going to work, forever, from now on, at practicing my religion, and this will be our primary job, for keeping our universe running, and for keeping all of my kids universes and living areas, running in proper order, as we erase the massive amounts of karma that need to be erased and as we balance out the massive amounts of karma that need to be balanced out.

This is a difficult and lengthy topic to discuss, and so I'll have to leave it for another day. Sorry.

In any case, we all must have a job, all of my kids and I, and now, of course, you are all going to join my kids, whether you like the idea of it, or not, and begin working for me.

Getting Into Compliance Of The Outbound Settlement Program

Mrs. Hillary Clinton, Mrs. Barbara Bush, Jr., Mrs. Barbara Bush, Sr., and all their friends are now going to have to get into compliance with the terms of their aggreements for the outbound settlement program. Once they do that, we can begin to get things started, for the rest of eternity, with you practicing my newest religion.

This religion will take the best from each of my earlier religions, that I taught, and combine all of the best of them, into this one. There are also some other special features to this religion, and we'll learn them over time.

In any case, we are going to place women in their rightful place, above men, and we are going to place men in their rightful place, below women. That's one of the main things that we are going to achieve with this new religion. It was never a big issue, before, in I think maybe most of my religions, if not almost all of them, where women stood in relation to men.

Anyway, we are going to get an understanding of the fact that there are two races of people, and one of them is the female race, and one of them is the male race.

That's one of the primary things, that we are going to get straightened out, now, with my religion, with out ever getting it confused, again, for the rest of eternity.

In any case, we need all of the friends of Hillary Clinton, Bill Clinton, Chelsea Clinton, George Bush, Jr., Barbara Bush, Jr., George Bussey, Mila Jovovich, Bruce Willis, and of Hulk Hogan, and of all of the other people who came in the original outbound planetary settlement groups, who are still here, and still alive, and who still remember that they all have planetary settlement agreements to get into compliance with.

Unless they do that, there is not much we can do, except wait around until they finally do decide to get into compliance. They must then take the neccessary steps to inform every one, about the facts of this situation.

The Planetary Government And The Laws For The Citizens Of This Planet

Until they do that, we can not get much work done, as all the laws, and the way the societies on this planet are set up, will not work for us. Nudity and nakedness must be permitted, and so must public sexaling. All forbiddance laws must be dropped, and all laws on behavior, and the types of plants people can eat, and so forth, must be all dropped.

The sets of laws that are the basis of the outbound planetary settlement programs must be then instituted. The governments that the Lesbianists have set up, must be dropped, and one planetary government must be formed with those laws as the foundation for all of the citizens of the planet.

Those are the first steps that we must take. After that, we will get and have the needed arrangements, to set up my religion, globally, so as to make it accessable to every one.

We are also waiting on the release of the software and operating system, that I released to the FBI, through their twenty four hour a day, audio and video surveilance of me, which I've talked about, before. When that software and the operating system are released, we can begin the 'managing my universe' program, and the 'sexaling for a living' programs, that will then be instituted, after the Lesbianists and their friends, get into compliance with the terms of their agreements.

Once they get into compliance, and once we get the software from the tapes of the video surveilance, we will be able to institute the 'managing my universe' program, and the 'sexaling for a living' programs.

Until then, there is not any hope for any meaningful change. So, until then, please make friends with the Zealots, or Lesbianists, and their friends, and become good sexaling partners with them, and get them to teach you more about the real sciences, and about molding sciences, etc., and make good relations with each other. It may take some time to get their attention, and to get them to begin to accept your offers and invitations to your homes, or to their homes, on occaision, for sexaling sessions. After sexaling for several weeks, non stop, they will all become more pliable, and more compliant, and they will begin to loosen up, and then open up and talk about things, as you all begin to learn to trust each other, and to treat each other with care, consideration, and respect. You can then begin to build on your understanding of each other, and your relationships with each other, will begin to blossom.

Sexaling Professionals

The Zealots, and their friends are professional sexalers, so they can teach you many things and secrets about sexaling, that you may not know about. You will make good bed partners, and after some time, you can learn lots of things. There are cures for herpes, of course, and for genital warts, and for all venereal diseases, and so forth. These Zealots, the Lesbianists, know all about them, as they had to study all of that stuff, to get qualified and certified for the outbound planetary settlement programs. You will also be able to learn proper diet techniques so as to be able to feed your body, and all the organ animals, and other animals, that are living in your body, and that you need to feed. You can also learn proper skin care, health care, and body hygene.

Wedding Arrangements

Currently, the way things are set up, with one person, a male, and the other person, a female, getting licensed to marry each other, will not work, under the new system. Thus it is neccessary to get into

compliance with the terms of the outbound planetary settlement programs, so that the new laws will allow for multi person marriages. Multi person marriages, I discussed, before. Women and girls need multiple men and boys to sexal with, properly, as women and girls are very capable sexalers, once they learn how to sexal properly. Multiple person marriages will allow for mulitiple women and girls, and multiple men and boys, to marry each other. The current laws must be dropped, and the current governments must be disbanded. After that, the new government and the new laws will allow for multiple person marriages. Once multiple person marriages are allowed, after the new government is set up, then the sexaling for a living programs, will be instituted, as a part of the compliance terms.

Informing The People Of This Planet About The Terms Of Compliance

The Lesbianists need to inform every one about what the terms of compliance are, and they had better get to that, soon. They must then, with their many friends, who came after them, or along with some of them, as they arrrived on this planet, by space carrier, or space ship, begin to get their Lesbianists friends in all the governments of the world, and their other friends in the governments of the world, to comply and participate in setting up the one world planetary government.

The software and operating system software, have in them, access capabilities to access data bases, to down load all of the information, that is needed for every one to learn about and to begin participating in all the new programs.

Building The Infrastructure, And The Needed Facilities, Etc.

Once you begin accessing the databases, and once you begin to study, and learn about the new programs, my kids, who work in other universes, and in other dimensions, will then begin to build and set up the infrastructure, housing, food production facilities, medicine production facilities, recreational facilities, academic facilities, hospital facilities, prison facilities, and so forth, that will be needed to further advance the programs every one will be required to begin and will need to begin to participate in.

Once we get to that point, we will begin to be able to have a stable society, with all of the new technologies that will be provided for security, and personal safety.

Molding Up Bread And Metals Animals, Etc.

I said, before, that you need only a square inch or so of metal in each one gallon of bread you are molding up. That may be a minimum, but it is better to use more. If you are using a plastic container, you can line the bottom of it, with aluminum foil, and you can line the in side walls of the container, up to one half to two thirds up towards the top, for better results.

Some molds animals like silicas. Some like quartz. Some molds animals like tourquoise. And lots of them, like various mixtures of minerals and metals, and elements animals, as well as other animals, we do not know much if any thing about, who are hiding inside of rocks, and stones. Anyway, we'll find out, in time, all about what molds animals we are trying to make, and what they like to eat, and then we will find the right types of rocks, ore rocks, mineral rocks, and other types of rocks and stones, and we will provide them to the molds animals, and funguses animals, so that they can get fed well. The more well fed we feed them, with all of the many types of worker animals of mine, the healthier they the molds animals and funguses worker animals of mine will become. The more healthier they become, as we raise them, in the containers we find to farm them in, when we are finished farming them, and then when we eat them, the more healthier the organ animals in us, will become.

The more healthier the organ animals in us become, the better able they will be to make babies, and the more successful we will be at prolonging our longevity. Our bodies are meant to last for eternity, if we feed them with the right worker animals of mine, and all the proper foods and nutrients they need to stay healthy. We have much to learn about all of this, and the sooner you begin making friends and making sexaling partners with the Lesbianists, and their radical friends, the sooner you will be able to begin to understand how to feed your bodies, properly, so that you can begin to live forever, and so that you can begin thinking about working for me, in this main, Central Bus Station Terminal Building that we are living in.

What Will Be Your Main Jobs From Now On?

It might take you awhile to decide to begin working for me, but the sooner you decide, the better off we will all be, as we need all of the wonderful sexaling energies you and your sexaling partners will be helping to create, to fill up this universe of ours, and to fill up all the many universes of my kids, and all the living areas of my kids who live outside this 'Central' universe we are in, which is a very big place, as I've mentioned about, before. It is very hard to fill up this 'Central' universe we are living in, with all of the wonderful sexaling energies, that will allow us to begin to breath, easier, once again, and that we are starving for, and that we are currently depleted of.

We will, though, over time, fill up this whole universe, and all of the many other universes, and areas my working kids live in, with all the needed sexaling energies animals, and other types of energies animals, we do not understand too much about, and that we also have to study about, one day.

My working kids are all doing their best, sexaling for a living, so that they can erase their karma, and balance out their karma, in addition to working at their main support jobs.

Those of us, you and I, in this main, 'Central Bus Station Terminal Building' do not have any support jobs, so we will have lots of time, for the 'managing my universe' programs, and for the 'sexaling for a living' programs so that we can also erase our karma, and balance out our karma, as well as erase all of the karma of my worker animals, and also, help balance out all the karma of all of the worker animals of mine.

That is your main 'job', from now on, sexaling for a living, as well as working in the 'managing my universes' programs.

We will have lots of time to study about every thing we need to and want to study about, so we can better understand the many things we need to learn more about, so that we can appreciate what my working kids are doing, to keep all of the many tiny universes, and all of the living areas, as well as our universe, in proper working order so that you can all live and work forever, as one big family of children.

There is much more to learn about, with regards to my family of children, and about all the new human being kids we will be greeting, and welcoming into our large family, as the ladies and girls begin to bring them into our 'Central' universe, as tummy mommies, along with the tummy daddies, and we will learn more about the many new working kids of mine, that my working tummy mommies kids and working tummy daddies kids, will be bringing into, and welcomeing and greeting as they come into each of their universes and living areas, another day. We will also be seeing many new worker animals of mine, over time, as many, many new ones, of all types, will also be joining the working force of my worker animals.

Getting Busy, Cleaning Up, In The Gurkian Age

It will take us a long time to get every thing into good order, and to clean up our universe, and erase our karma, and balance out our karma, along with my worker human being children, who are all busy, cleaning up the many support universes that they live in, and cleansing their karmic records, etc., and who are all busy, cleaning up the many support living areas, that they live in, and cleansing their karmic records, etc., as they begin to practice, more and more, my new religion for the Gurkian Age that we are now in and at the begining of.

This may sound hard to believe, or 'fictious', but it is not 'fictious', and over time, you will learn all about every thing in detail, and you will begin to get your selves grounded in reality, more and more, as you begin to work in the 'managing my universe' programs, and as you begin to work in the 'sexaling for a living' programs.

Taking The First Steps Towards Resolving Cooperation Issues

Making friends and becomeing sexaling partners with the Lesbianists, the Zealots, and with their radical friends, is your first step in the correct direction towards resolving the difficulties we are

encountering, now, to some extent, because of the Lesbianists, and their radical friends reluctance to cooperate. The more friends you make and the more sexaling partners you make, the more the Lesbianists and their radical friends will begin to 'cooperate' with you, in all the ways that are important to resolve the cooperation issues, and non cooperation issues, that are currently in need of resolving.

Air Raid Shelters And Play Time 'Fetish' Sexaling Underground Dungeons

People with underground air raid shelters, may wish to add on to them, and expand their size to accomodate all the new friends from among the Lesbianists, or Zealots, and their radical friends, who people with underground air raid shelters, or other convenient places, underground, such as play land dungeons, which some people who like fetish sexaling, may have, will be inviting in to their underground air raid shelters, for a long duration stay to have the Lesbianists, or Zealots, and their radical friends, teach them about sexaling, and teach them about molding, and the sciences that these people know nearly every thing about. Almost one hundred percent of the course work had to be completed, and in many cases, it was one hundred percent of the course work that needed to be completed, to make them an eligible candidate for an out bound planetary settlement program.

Becoming Trusting And Loving Friends With Each Other

As you invite these people into your homes, you will need proper accomodations, such as extra rooms, and extra beds, and so forth, so people with underground air raid shelters, and with underground fetish sexaling rooms, or dungeons, will need to expand the size of these underground rooms, so as to accomodate all of the guests they will be inviting in, to meet and sexal with the family, the relatives, the neighbors, and other trustable persons.

You can learn many secrets about sexaling, and you can learn a lot more, than you would imagine, as all of these people were certified as instructors for teaching sexaling techniques, judo and ai kido techniques, as well as impromptu ninja type, assasin techniques, for use in a pinch, to protect their lives. They were also certified to teach molding sciences, and all the earth sciences, and planetary science, all the math sciences, and so forth. They were also trained in government sciences, nutritional sciences, medical sciences, and so forth, so they could be all around, professional, well trained persons. All this training was for the bright of the brightest, and they spent many hundreds of thousands, and millions of years, and billions of years, and some times, more, training and getting certified in all the career sciences, as well as in fitness and health sciences, that they needed to learn to set up a new civilization, with a fully developed government, in accordance with the instructions and requirements for that government, which was to be based on the same pattern of government, where they trained to become certified officials on the planet they were to settle, and in the galaxy they were going into.

They were trained to be excellent leaders, and capable people, in every sense of the word, to get and hold the attention of all late comers, and to prevent the late comers from attempting to dislodge them, from government, over some petty, dissatisfaction, about their performance. Their performance issues were of major concern, so they were highly over qualified, so as to make it clear to all late commers, people who would be arriveing later, either as new additions to the population, on the out bound planetary expeditionary settlement program, or as tummy babies, to tummy mommies, and to tummy daddies, who they all new they were going to become.

They are so well trained, they can teach you practically any thing, not only with regards to medicine, government, the sexaling sciences, and so forth, but even about the martial arts sciences, and ninja sciences, and the techniques they learned, which they practiced, many of them, diligently. They can do some very fancy martial arts and ninja assasin tricks, if you ask them to, and they can be very entertaining as some of them are very adept, or skilled at performing these tricks, and secret martial arts attack and destroy skills. As a rule, in the Lesbianists organization, any way, they are only allowed to use those skills, in a life or death situation, so you should treat them, well, and be courteous, considerate, and kind to them, and make sure their stay is comfortable, and that they are well fed, and offered only the best foods, and the best wines, etc. They will help you to learn how to make good tasting wines, which are not only good tasting, but also, good for you, which will help feed all the animals in your bodies, including the organ animals, so that you can regenerate and rejuvenate your bodies.

Of course, when they were in training, for the out bound planetary expeditionary settlement program, when they trained in the martial arts, and when they trained in the ninja sciences, they were certified, and got their diplomas, as well. In the guidelines, they are not allowed to use their ninja attack and destroy skills, or their death threat level, response and offense to attack and destroy an enemy, who might like to dislodge them, forcefully from government, and perhaps kill them, if they could, to get them out of the way, permanently, unless their lives are in danger.

So long as you do not threaten them, and make hostile remarks to them, and so long as you remain courteous, careing, considerate, and kind to them, and so long as the men and boys act in gentlemenly manners, and so long as the women and girls act with lady like, polite manners, to whom ever your guests are, you will certainly be able to get along with each other, without any problems, at all.

They were trained in the sexaling sciences, and in the molding sciences, and in all the academic sciences, so that they could also offer educational programs to all of the new comers, whether tummy babies, and off spring, the children of the members of the out bound planetary expedtionary settlement program, or whether new members, incoming from else where, who would like the additional academic

training.

Try to get along as best as you can, and remember to be polite, and talk politely, and be courteous, and make every effort to allow them to enjoy the luxury of relaxing days and nights, fully sexaled, and fully fed, and allow them to make lots of aphrodesics molds, and other molds, as well as useful and tasty beverages, such as those they can make with fruits, and juices, and molds of various kinds, which will increase the amounts of nutrients in your body to help feed all the hungry animals, and organ animals, and cell animals, and amoebes animals, etc., who are all in your body, and who are all in need of nourishment.

Remember too, to always test feed the drinks to farm animals, such as pigs, hogs, goats, lambs, sheep, dogs, cats, and so forth, including other animals, such as guinea pigs, mice, rats, ferrets, and wart hogs, first, if your guests will not drink the beverages they make, for some reason.

We want every one to remain healthy, and happy, and there should be no toxic poisonings of the food and drink permitted, due to tricky knowledge of poisons the Lesbianists, or Zealots, and their radical friends, can make, with their knowledge of the molding sciences.

Make sure every one remains on the best of terms, and make friends with them, after sexaling with them, for several weeks, or longer, and when they begin to truly enjoy their stay with you and your family members, and with you and your family's relatives, and with you and your family, and so forth, and your neighbors who will be dropping in, every day, hopefully, to enjoy extended sexaling sessions, for days, and weeks, and even months, and even years, in lots of cases, as they haven't had the chance to sexal very much, ever since they all came up from underground, where they were living, and sexaling with all their friends, all the time, for their 'tour of duty'.

The Lesbianists, i.e., the Zealots, and their radical friends, must perform a 'tour of duty', every so often, to stay in good standing within the organizations they belong to. They plan these tour of duty trips to the surface of the planet, to engage the locals, the ordinary folks, the dim witted folks or rodent population, as they call them, well in advance of each tour of duty. We ordinary people, are the dim witted folks, in their view, and they enjoy making fun of us, and making fools out of us, as much as they can, for their amusement. We shouldn't mind this, as every one needs to have fun, once in a while. So be gracious hosts, and invite many of these people, freely into your homes, and treat them almost as you would treat the members of your family. Remember to sexal with each other, daily, as much as possible, when time permits. Have lots of friends, and associates, all trustable people, come to your homes, to meet your guests, your 'new' family members, and have your trustable friends engage them in pleasant conversations, and in lovesome sexaling. Lovesome sexaling, is passionate sexaling.

You can find their likes and dislikes, as to who or which type of person, male or female, and so forth, each new guest likes to sexal with, as a preference. Make sure that every one is compatible, with each other, in terms of their sexaling preferences. As time goes by, you will all begin to love one and another, and then the issues of non cooperation, will fade into the past, and into ancient history, and we will eventually get full cooperation, on all the points neccessary, for then setting up a one world, planetary government, with their kind assistance. They will be happy to teach to you the terms of compliance, once you become cherishable, loving, and tendersome friends with each other, as you sexal with each other, daily. Tendersome means, loving and caring towards some one.

In time, when you have begun to break down the walls of hostility, some of them may feel, for being guests, against their wills, some of them, anyway, will never the less have some tiny amounts of hostility, for your bringing into your homes these wonderful people, despite their busy, daily schedules, and rigorous duties, or routines at work and on the job, in government, or in the field of academics, and in television, as news casters, weather reporters, anchor persons, camera men and women, and stage and screen acting jobs, and stage hand jobs, from police departments, fire departments, ambulance attendants, doctors, lawyers, ad agency workers, and so forth, or in what ever the work they are doing, during their tour of duty.

As you, the hosts, gradually break down the walls of antagonism, unpleasant feelings, and hostilities some may feel towards you, or resistant feelings that some may have, when you invite these people, your new 'family' members, or guests, into your homes, as you sexal with each other, the longer you sexal with each other, sooner or later, you will begin to be able to love and trust each other.

When you are able to love and trust each other, and when there are no residual hard feelings, or unpleasant memories left, when you all love to snuggle and sexal with each other, having lots of fun and laugher with each other, then you will want to begin to get the shopping lists of delicious foods for them to eat, and you will want to get the shopping lists for the items, that they will need, to make the delicious molded foods, and the delicious snacks, given their incredible know how on making delicious foods, and delicious snacks, and delicious beverages, based on all their academic learning, training, and teaching, that they acquired over the many long years of study, public service and volunteer work they performed, to qualify for the out bound expeditionary settlement programs.

In time, you will all be able to regenerate your bodies, look younger, feel great, feel more fit, and your stamina for sexaling will have improved, if you follow their advice and tips on how to improve your sexaling methods, and your sexaling techniques. As you listen to them, and learn from them, you can level up your sexaling sciences knowledge, along with your sexaling skills. In time, you will also be able to learn all about the molding sciences, and you can even have

them teach you some of their 'sneaky' tricks, that they know, that could kill you, if they were allowed to mold up, any thing they wished to mold up, without supervision.

Remember, a loving relationship is not the only thing needed to build a trusting relationship. Understanding, respect, and careing for each other, all go a long way towards helping you to deepen your trust with one and each other, so that you can deepen your tenderness towards each other, and strengthen your bonds of love, for each other.

Supervise carefully, every thing they do, and remember, if they will not eat or drink what they make for you, you should test feed it to the pets you have, as I've explained about, before, for several weeks, as there are fast ways to poison people, and there are slow ways to poison people.

This is a very difficult area to manage, but once your guests, your new 'family' members, begin to show true love and affection, and unflattering love for you, and for your family members, and for your friends, etc., with respect for you, your family members, and for your friends, along with care, consideration, and understanding, these problems will become less of a threat to having a happy and mutually cooperative, and prosperous relationship with each other.

Unflattering Love

Unflattering love, is a type of love, where you accept each other, for who you are, with all your faults, and frailties, no matter what they are. It's like a brother and sister relationship with each other, with love and respect for each other, no matter what.

In time, you will develop your love relationship into one of unflattering love and affection. When you have succeeded at that, then the hazards, one may encounter, as hosts to your guests, may become a tiny bit, less serious.

It takes many years of cooperative association, many thousands of years, and then, even more, before you will develop any thing that is worth while between you and your guests in so far as being able to trust each other. So prepare well for the long term long haul journey ahead of you, as it will take you millions of years, before your guests, even begin to calm down, a little. People are very good at hiding disatisfaction, and disgruntlement. They can linger, and they will linger, until they find a way to express them selves. You need to be cautious, at every moment, and suspect every thing that is in any way, suspicious or ambiguous behavior. Even after billions of years of mutual sexaling with each other, there may still linger hard feelings, in some people, if not in many people, for having been forced to experience, a sudden change in life and in a sudden change, forced upon them, in life style.

The Importance Of People's Rights To Freedom And Their Rights To Freely Choose The Course And Direction Of Their Lives

Being forced to cooperate is not a pretty issue and hard sentiments will linger for a very long time, if not handled properly. Counseling can help, but basic freedom is what is expected, and so until or unless you give your guests, complete freedom, to act and think, and do as they like, there will be problems and head aches for every one, with minor issues, possibly causing, major catastrophes, such as an early death and a visit to my Epcot Center, from an over dose of too potent, lethally potent, molded up substances.

Freedom, denied to a person, is the worst thing that can happen to some one. Until your guests can experience life, freely coming and going, as they like, and as they choose, voluntarily helping you and your family, and your friends, out of love and respect for each other, to learn the sciences that you need to learn to allow you to feed all the hungry animals inside of your body, and to feed all of the hungry organ animals, and cell animals, etc., inside your body, so that you can begin to live forever, you will experience difficulties in your relationships with each other, that will now and then appear, and cause possible problems for you, your family, your friends, and also for your guests.

Freedom to choose is a basic right of all people. So let's all be kind and loving towards one and each other, and over time, you will begin to be able to loosen the restrictions on personal freedoms, and in time, you will be able to do away with them, and dispense with them all. This will be a major turning point, in your relationships with your guests. When your guests can come and go, with unrestricted access to your home, just as a sister or brother has, to their home, and when your guests can freely choose what they wish to do, without any coercive forces placed upon them, then you will be making a major turn in the direction in which you all wish to go, towards a happy, healthy, settlement, over past confusions. With this as a goal for you, you should cooperate with each other, and make life as easy, comfortable, and satisfying as possible for your guests, to minimize their possible hostilities towards you for your forcing them to get into a situation of cooperate or else. This is not a good thing, and you will not get any cooperation, at all, if you approach your relationship with each other, with that attitude, and with that approach. A long, dependable, reliable, and mutually enjoyable, sexaling history with each other, is the begining of a trusting and loving relationship, that will one day lead to the loosening of restrictions on personal freedoms.

Molds And The Potential Dangers Of Potent Molds

Sometimes, you may have a mold on the bread that you are molding up, that may be too strong, and may need some trimming. As you mold up you need to trim your molds. What is trimming a mold? You need to make it more useful, by using various techniques, to make it edible, that is, eatable.

An eatable mold is what we want to make. We do not want to make a mold that is too strong in nickle animals, or too strong in copper animals, or too strong in iron animals, or too strong in stronthium animals.

What is stronthium? Stronthium, is a mineral that can be useful to your health, and is useful, but if it is too potent, or too strong, that is, if there are too many of my worker animals making gardens with lots of stronthium in the plants, and bushes, etc., and the number of gardens increases, and they my worker animals cover the whole piece of bread with their gardens and forests of stronthium rich plant life, then the piece of molded up bread, if you eat it, may make you ill, and vomit, or you may get cold chills. If there is too much stronthium, then you can even get seriously ill and die.

This is true with any molds gardens that my worker animals make. There are secrets about how to make molds gardens, and how to get the right number of worker animals, from the right sources, onto the piece of bread that you are trying to mold up. Different worker animals from different sources, will be busy making molds gardens, and you want to try and get right combination of my worker animals onto your bread, so that they can make you a nice salad of molds gardens of many different and useful kinds so that your salad will be healthful for you to eat.

You need to know a little about molds, and what types of molds grow on bread. You also need to know what types of molds grow if you put, for instance, lima beans with bread, in a canister or molding pot, and the

pot is made of copper, instead of steel, or iron, instead of gold or silver, or lead,

You have to study about molds, and you have to learn about all the different molds. This can take many long years. You need also too know, what in combination with what, will produce what molds.

Lima Beans And Molds Types

There are many millions of combinations that you can make. Lima beans is one with bread. Lima beans grown in Peru is another. Lima beans grown in Alaska, in a low lying valley in Alaska is another possible combination. Lima beans grown in a snowy mountain village, in the summer, but in a green house, with a hot springs water supply, and geothermal, and hot water sulpher springs heating is another combination. Lima beans grown in Siberia, in a snowy mountain village, in the summer, in a green house, with a hot water supply, and geo thermal, and hot water malaxacite springs heating, or iron sulphide laden hot water heating, are two other possible combinations.

Worker Animals Living In My Universe

There are many millions of worker animals families in different parts of the world, who will each work on different lima bean plants. The worker animals all have different friends working with them. Many of the workers are different all together, and maybe they came from other planets, even, and settled on this planet, when they got a ride on a person's pant leg, or on a person's shoe, when that person came to this planet.

You can travel by air plane to different countries. You can also travel by air plane, to some planets, if you know how to make an air plane that will travel up and through the upper solar atmospheres, and out into the areas between planets, at a fast enough speed, so that it can pass through a dimensional barrier, and then in a different dimension, it can fly wihout hitting objects, directly to the planet the passengers wish to go to.

Special Automobiles That Travel Through Space

Some types of auto mobiles, which have special technologies, also travel through dimenisional barriers, to other planets. They have the technologies, to be able to get a lift, up and out of the planet's gravity pull, and then out onto a platform, landing and take off space. Once okayed for a take off, it can go to the next platform, and then to the next platform, and it finally reaches the final platform, and then it gets the okay to land on a planet, and it comes in, and it lands on a landing strip, and then after passing security and customs, it is free to drive to a person's house, or to an opera concert, or to a theater to listen to a symphony concert. Lots of people travel this way, in many parts of our universe.

When people, land, they bring all kinds of rubbish, with them, including lots of air, from their lungs, and from inside their automobiles. Inside the air, there are lots of tiny bugs, that crawl around in the bronchial tubes. Inside the tummy, there are lots of animals that crawl around in the tummy, and some of them, end up getting pooped out, when you go to the bathroom.

Bugs, Bugs, Every Where

Lots of times, little bugs, of all kinds, may find their way into a package of flowers for a girl friend, or chocolates for a boy friend. Or some times, people exchange, rasberries, and strawberries, and other types of edible foods, that are eaten, and pooped out, and then, the remains are thrown out in the garbage can, and then later, the trash company comes and picks up the trash, and they go to a compactor site, and they make use of what they can recycle, and they mulch up what they can mulch up, and they dismiss the items, they can not have on their planet, that are toxic, or that are not allowed on their planet, for one reason or another.

Many bugs travel from one planet, to another, in cars, in strawberries, and in groceries, that people pick up on other planets, and carry home, to their planet, to eat at their homes. This is perfectly legal, and every one, knows about it, and they are all laughing at me, because they all can read what I am typing, as I type. They have the technologies to read directly what I am typing on my computer, and that is nothing, special, as far as technologies go.

There are no laws that say they can not watch what I am doing, when I am sleeping, or when I am in the shower, or when I am dressing, or when I am typing, or when I am out side, walking to the store.

There are no laws on privacy, as privacy is a myth. We think we have a right to privacy, but remember, all you girls and women were married to all the men and boys in the universe. All you men and boys were married to all the women and girls in the universe. You were all sisters and brothers with each other, umpteen who knows how many times. You were all fathers, and mothers, and you tummy mommies gave birth to every person in our universe, all your sisters and brothers, from previous lifetimes. All you tummy daddies, also shared in the work with the tummy mommies. Every one knows every one else, and every one has been butt naked with every one else, umpteen countless times. So, privacy is not an issue, any more, as you all know what you each look like, when you are butt naked, or sick in bed, or in the hospital, and so forth.

Any way, many bugs travel from planet to planet, and there are lots of bugs, that may have gotten here, from the past, as the Lesbianists always have friends visit them, and their friends from other planets bring gifts for them, and they bring lots of produce, and things to grow, and this has been going on, since they got here.

How often their friends visit them, these days, I do not know, but some times, in the past, they visited them, often, and they have stopped, lately, as they do not want to get caught. They stopped about fifty five years, ago, and before that, they often met on some secret military bases, that all the soldiers on the base, are Lesbianists.

There are many military bases, that only Lesbianists are allowed to join, and allowed to live at. The Lesbianists have them all over this country, and all over the world, in fifty five places, approximately. Some times, even now, the Lesbianists have guests who visit here, but not too often. When they visit, they come in and land on the run ways, and in secret places, where they can glide in, at night, in special light carrier cruise ships, that practically glide in, from the parent ship, waiting up above. When they land, they land very softly, and quitely, and no one even wakes up.

They stay for a few days, to a few weeks, to five or so months, or even longer. They are here, now, and many are in hiding, with the Lesbianists, as guests of theirs.

They bring in bugs on their pants legs, and they bring in all kinds of micro scopic animals, and even tinier animals, and you do not have the technologies to see them, because they are so small, and because the Lesbianists prevent the 'ordinary' people from getting the patents and licenses, to build them, and they execute the patent owners, and any others who are part of the company or companies, who wish to build the microscopes, or other useful technologies, and that is that.

These animals that are very tiny, are living all over this planet, and there are millions of different families of tiny animals, that eat up each other, on the lima bean root and root stalk, and on the stalk of the plant, and there is much warfare on the plant, in very tiny places.

The out come, is there are many tiny animals, eating other animals, and pooping and peeing wastes from their bodies. Their poopy materials get into water and the air, and onto the roots of the plants, and onto the stalks, and onto the leafs, and we have lots of different kinds of tinier animals, that eat up that poopy material, and those pee liquids, and they live on that stuff, just like pigs live on dung from cows and from horses, and how flies live on dung from cows, camels, horses, bears, dogs, cats, humans, and so forth. There are lots of animals, we can not see, at all, because they are too small, and because we do not have the microscopes, and the lenses, and viewing technologies needed to see them.

The lima beans in different parts of the world, all have different groups of animals living on them, when they are picked, and when they go to market.

When you take the different families of animals living on the lima beans, and you have a handful of lima beans, you can put them into a container, that is lined with one or more layers of aluminum foil, and

then you can put into the container, rocks, gravel - if they are clean - and pretty amethysts, quartz stones, agates, opals, garnets, and other pretty mineral stones.

You then put into the container, some bread to mold up. Depending on where your lima beans where growing, and depending on who was working, from among my worker crews of worker animals, on the roots of the lima bean plant, and on the lima beans, and in the leaves, and so on, you will get different poopy materials, and different types of pee liquids, and in the poopy materials, and in the pee liquids, there are lots of other animals, that are very tiny, and difficult to see, without the right technologies that will let you see them.

You can have millions of different molds gardens, from lima beans, with bread, in a container, as a result of all the different crews of worker animals that I have working in the soils, in the rocks, in the air, in the water, in outer space, on each planet, and on the moons, every where, with lots of them all mixed up, with one and another. The different animals living in the rocks, or in the aluminum foil, or in the walls or on the surface of the container, will also increase the number and types of poopy materials, and of pee materials that mix in, and help produce different types of molds.

There are so many possiblities, just with lima beans, there are more than millions of molds that are possible. When you think, well, there is also sessame seeds, and there are walnuts, and almonds, and pecans, and cashews, and figs, and fruits of all kinds, and seeds, and berries, and leafs, and roots of plants, and different plants, on land, and in the water, in lakes, in streams, in seas, in oceans, then you begin to see that the number of possiblities for different types of molds, gets very high, as I have so many worker animals, working in different places, they make me dizzy, when I think I would like to count them all.

It takes too long, to count them, but the important thing is to know, that there are many types of molds that can grow, just from lima beans.

When one mold begins to grow, another mold also will begin to grow, and so will many other molds begin to grow. One type of mold may grow in one part of the bread, and other types of molds may start growing in other parts of the breads, after you leave the lima beans, in the container, just for a few weeks, and you make sure there is enough humidity for the animals inside, to get some thing to drink.

You do not want to make my animal workers go thirsty, or they will not work for you. So you have to learn how to be a gardener, if you want to grow molds, properly. More over, you need to learn a lot about tending plants. That is, tending the types of plants that grow in molds gardens. Since there are so many molds that grow, you will need a lot of time to learn all about being a gardener, for all the different plants that grow in all the various molds gardens that grow.

You will also need to study about all the different kinds of animals that live in the molds gardens. You will also need to learn, what kinds of molds gardens will grow near other types of molds gardens, or on top of molds gardens.

Molds Grow In Layers

Many molds gardens get over grown with other molds gardens, and they grow in a double layer, one over the other. Sometimes, they grow in three layers, and in four layers, and in five and in six, and in seven, and in eight layers. They grow in many tens of hundreds of layers, if you let them grow for a long time.

How many layers, can they grow in, well, it depends on how long you want to grow them, the soil conditions, the growing conditions, the humidity conditions, the weather and climate conditions, and on many other factors.

I don't know how many, you can grow, if you really try to grow a lot, but there may be quite a few of them, that will grow, and way to many for any one to count, in lots of cases.

Some of the layers of molds may be alright to eat, depending on what the molds are, but some of the layers may not be alright to eat. Some molds layers are not useful for people to eat, because they are filled with some molds gardens, that are better for tiny animals to eat. Some molds gardens are better for large animals, like pigs and hogs, to eat.

People can eat lots of molds gardens, but you have to study about molds gardens, and about how different molds gardens grow with other molds gardens, in one layer, after another, in a container, with different types of rocks, under different conditions, on the different types of bread, to know which ones you can eat.

Some molds gardens, will give people stomach aches, so it is good to learn and know which ones give people stomach aches, and which ones are safe to eat, rather than not know which ones are good for our stomachs, and for our bodies, and are safe to eat.

We do not have any courses on molding sciences in our schools. This is because the Lesbianists will not teach any one about molding sciences. Why won't they teach any one about molding sciences?

Because, they enjoy living a long time, alone, by them selves, and they like to watch us ordinary people, come and go, one life after another, back again, then gone after eighty or ninety years, then back again, then gone again, and they think it is funny that all the while, we never catch on to what they are doing. They make friends, with people who they like to make friends with, and they enjoy fooling them, and dumbing them, or making fools of them, and they enjoy finding out if the people they meet, were friends of theirs, in previous life times, and they find out who they were, by checking in special databases, they or their friends have access to, and then they

confirm whether they knew them or not.

Most of the time, they can already tell, once they meet them, and hang around with them, for awhile, if they had known them or not, in previous life times, as they know so well the persons they usually meet, again and again, and the persons they've met so many times, who they know all of the personal habits of, and the likes and dislikes of, these people they used to know, that they can pretty much guess if they know them or not, this time, when they meet them, and after hanging around with them, for a little while.

What Do The Lesbianists Enjoy Doing?

They like to take your tax dollars, for one thing, so that you will support them, pay for their salaries, homes, vacations, their all expenses paid holidays allowing them to visit their Lesbianists' friends in politics, all around the world, showering them with lavish gifts, presents, round trip tickets to visit them in Alcapulco, or elsewhere, with all expenses paid, and they enjoy the perks they get such as your paying for their kids' college educations, and their kids' trips during college breaks to far away places, such as Portugal, Spain, Lisbon, Istanbul, Singapore, Korea, Japan, and other countries with your tax dollars paying for all the expenses, as well as all the expenses the Lesbianists need for doing the fun things they like to do, on their credit accounts, with various government agencies, set up to help them pay for their lavish, over seas' lifestyles, while they make fools of all of you.

They enjoy watching you fall for the scams they set up, where they saturate you with their talking 'experts' who tell you how to live your life, and what to invest your wages in. Then they like sending you, seemingly out of nowhere invitations to their 'specialists' talking tours, where they talk to you for a weekend or for a week or so, and they try to talk you into buying what ever it is they are trying to sell you.

They get close to you, this way, and they find out things about you, that they will use to track information on you, in the databases that are set up in my universe, that they or their friends can access, to identify you from your previous lifetimes.

They have a 'sexaling for a living' account, that they are allowed to use, and track their old friends with, to see how they are doing. They all arrived here, on this planet, on the 'sexaling for a living' program. They are still registered members, and they have access to databases, if they are still in good standing, and if not, they have friends, who can access the databases, if their friends are in good standing, and there is much abuse, and fraud, that goes on, and it is not punished, as my kids are recording it all, and in time, my kids will take action, and dispel them from the program, that means, kick them out, and not allow them access to the underground bunker houses, that my kids had put in for them, to live in, and my kids will make

them live on their own with their friends, and not in the facilities that they were originally allowed to live in. Once they are tossed out of their special facilities they earned the right to use, as members of the 'sexaling for a living' program, they are forced to live in the down below, underground cities my kids built for them during their initial getting used to the planet and to it's solar conditions, and to it's other conditions, that they must aclimate them selves to, before they can safely emerge and begin living on the surface of the planet.

There are several hundred thousand persons, such as Boris Yeltsin, who has a registered fortress dwelling, as Boris Yeltsin, sexals for a living, still, from time to time. He and the others, are the only ones who are left, and the rest of them find accomodations elsewhere, or with friends, from time to time, in the underground bunker like homes. They do not have to worry as much about the abominated 'animal people', I've mentioned about, as the others former members do, who are no longer legitimate members of the 'sexaling for a living' program.

Note: I was told by my kids that the number of people who are still legitimate members of the sexaling for a living program, was several hundred thousand, on this planet.

Then, accessing the databases, they learn who you are, who you were in your past life times, and then they remember the many occasions they met you, and were friends with you, and they also remember all the unpleasant things that happened, that made them angry at you. They then plan their game for getting revenge against you for the mean things, or unpardonable things, in their twisted minds, that they remember your having done to and against them, and against their friends.

'Spokes Persons', And 'Experts' On Television

You can hear, on any radio station, probably, no matter who runs it, civilian, i.e., ordinary person or, Lesbianist, advertisements from their 'spokes persons', people with credentials, who like to tell you how to live your life, and what to do for getting the most out of life, as I can hear, daily, on KOAS, 105.7 Jazz, Las Vegas, Nevada.

These 'spokes persons' are on every 'propaganda' interview talk show on TV, and on other programs, as well, such as the supposed 'educational' series done by credentialized anthropologist, Desmond Morris, a major Lesbianists' propagandist and they have set up programs where all they do is feed you bull shit, such as on PBS, the famous Road Show, where they are bullshitting you on and on, about what your 'priceless' family hand me downs, and possessions are worth, when they know they are not worth a dime, because these Lesbianists have been on this planet, for over gazillions of years, ever since they settled it, on the outbound expeditionary planetary settlement program, for qualified people in the 'sexaling for a living' program,

who were supposed to set up a planetary government and a global society, and give birth to lots of my kids, by making babies, and then teach them in courses they were supposed to set up, every thing they had agreed to teach, and then educationaly nurture in the people who would come, as tummy babies.

The Lesbianists have set up so many civil wars, and other wars, for their fun, and entertainment, as they have many scenarios for their kicks, thrills, and enjoyments, and they constantly are changing the scenarios, every time their plans collapse, after their illegitimate societies fall apart for one reason or another, and they then have to start over again.

The societies do not always collapse, entirely, and some times, things going on in one part of the world, is very advanced, technically, while things going on elsewhere, are in the stone ages, nearly. They keep people away from areas that are not yet ready to be seen by ordinary citizens on the planet. They put out travel advisories and warnings issued by state department counselates, of chaos in jungles, and tribal militias, in rugged, untraveled areas, and so forth.

Mormon 'Peace Brigades'

This way, they keep people apart from each other, and they keep modern up to specifications people, people with 'worldly' or 'global' agendas and ambitions, such as private organizations that send out counselors to countries where people are less fortunate, than others around the world, from the reports they have seen, or from video images they have seen. They keep these 'do gooders' usually, a lot of Mormon 'Peace And Charity' bringers, the young men who go out, for a set period of years, to bring the 'gospel' into the 'lives' of 'non believers', from seeing the things they do not want them to see, such as technically advanced structures, none of the primitively living people in a mountainous, rugged area, for example, have any idea as to how it got there.

Soldiers Stumble Across Unexpected Sights, Now And Then

Soldiers sent on expeditions to fight with guerillas, find these technologically advanced structures, as they come across them, as they are searching out the area, for the 'enemy'. The soldeirs are warned that they are not to disclose any information on what they found, as it is too sensitive to let any one know any thing about, and their mouths are sealed, at the threat of retaliation for insubordination, sabotage, spying, or infringement against laws of engagements, the articles of war, that prohibit soldiers from disclosing enemy information, so as to keep it secret, for legitimate, in a normal society, purposes.

Historical Documents Found In Attics, And Shown On The PBS Program, 'Roadshow'

There are so many copies of treaties, and declarations of independence, not one of them is worth a penny, as the Lesbianists set each war up, and each society up, and they are laughing at you for thinking the documents actually mean something.

On the other hand, you can see them bullshitting you with their experts, who tell you how cheap something, is, or that it is a 'recent' creation, made, for instance, within the last fifty or so years, or within the last one or so nearly, hundered years, such as an irreplaceable lamp, with a beautifully made lamp shade, the creation of which, is worth a fortune, as it is so rare and so beautifully executed or made, and in fact, it was made umpteen millions of years ago, for instance, or even longer, ago, and they know it is worth a fortune, and they get nervous, a little bit, and they stammer, a little bit, and they get edgy, and they show signs of perspiration on their forehead, and you wonder why is the person so nervous.

Well, it is because that what they are looking at, they plan to tell their friends about, so that they can go and burn down the house of the owner, after killing the owner, typically, and after either destroying the item they found that the guest/owner brought into the studio, to show on the PBS program, the 'Roadshow', and get 'authenticated', by 'experts', or after killing the owner, and his or her family, and then stealing it, and keeping it for themselves.

You come around and go around, again and again, and you all have talents, and have always had talents, as you developed your abilities during past lifetimes, and once you got your abilities in a certain area of your interest, up to a certain level, it isn't hard to see how you take those developed talents with you from one life time to the next. It is just a matter of reviving them, if there is an opportunity for you to get into that area of your interests.

The experts crafts persons among you, make nice things, and then the Lesbianists trash your lives, and some of your work surfaces, some where down the road, at a time, later on, in some old attic, and no one knows how it got there, and it is something of great value, that just happened to escape the holocaust, that devasted the last civilization, or a previous civilization, the Lesbianists set up, and that went missing, and was of such exquisite compensense, and compensense means, nice looking and exquisite in form, texture, beauty, style, meaning, and composure, that they can't even hold their breath, because they are about to pass out, and they tell you it is worth a few bucks, or twenty or fifty dollars, and all the while they know they are bullshitting you, and they are nearly fainting, and when their friends see how well they bullshitted you, they will make their friends feel they are getting some kind of revenge against you, for your being so stupid, as to what is what, and what came from where, and who made it, and what it is worth, in true value.

The Lesbianists who run the program, 'The Roadshow', and PBS, regularly rate cheap items, as expensive, to some extent, when it is just a piece of rusted junk, such as a civil war sword, that some

southern soldier had the unfortunate circumstances in his life, to go off and fight a war the Lesbianists staged for him and you other ordinary persons, to go and fight, so they could laugh at you, as you killed each other off, and bloodied the country side, with your torment, and grief, at their beckoning and call, all the while you thought they were worth a darn, and they weren't, all the while, and they were just interested in using you, and in making fun of you, and then having a good time, with what ever it was, that you left behind, such as children, who they enslaved, or houses, farm steads, and so on.

The Lesbianists have caused so much harm and devastation to so many people, and they just laugh at it. The ugliness of what they've done, is well documented, by my kids, and one day you will all get to witness it, your self, as my kids keep video data, and audio data, on every one, and on every thing that occurs, nearly.

PBS's 'This Old House'

The Lesbianists have their specialists talk to you on 'This Old House', for instance, or on one of the other propaganda programs they have, and they bullshit you, on TV, and their friends are watching, and they get laughs, and every one knows who they are bullshitting, because by the time the program airs on TV, they have already told every one among the Lesbianists who would be interested, with their secret communications capabilities, that they have installed in homes of important people in their organization, and that information is forwarded to other Lesbianists who they know would enjoy watching them bullshit you.

They televise their bullshit sciences, they created, and information on the supposedly important and famous people, who have passed away, for instance, and in one of their sick jokes, they bought or stole, or forclosed on his or her property, and then opened up a swank gallery with his or her work, and they keep it all for their viewing pleasures, and for their enjoyment, and they do not allow the ordiary people on the premises, unless a person happens to be invited by a Lesbianist, who is just going to enjoy some time, bullshitting the person.

They televise the 'visit' to the premises, gallery, or the estate on PBS TV, to tell you and 'teach' you some thing about the 'deceased' person, who was 'famous' for such and such, which they know is based on a numbskull science they taught him, or her, and what ever he or she actually became famous for, they bought for a meager sum, usually after swindling the elderly owner, or they forclosed on it, and then they enjoy it, with their friends, and they sort of taunt you, on TV, saying, look at this, isn't it beautiful, and too bad, but you can not enter the premises, without a special guest pass, and they broadcast this on a feature program on PBS, or on one of their other public broadcasting channels, over seas, the BBC in Britain, or NHK in Japan, and so on.

They are constantly mocking you, and poking fun at you, and making them selves laugh at how stupid you are, for not catching on, and for thinking it is something you should look at, as a serious viewer, when all the while, they are making fun of you and the snookering job they are doing on you, laughing at your stupidity for not knowing that the science involved, is a bogus science, and for your not catching on, and that they are just shamming you, or snookering you, once more.

They hold you up to these patriotic "I Pledge Allegiance" to the flag nonsense, in schools, and they couldn't give a darn about whether you are born in Scotland, or Queens, New York, or Paris, or Darwin, Austrailia, because they know, that no matter where you land, when you come back as a tummy baby, they or their friends around the world, will just continue snookering you, no matter where you are born, and no matter to whose family you are born.

They then send your son's and daughter's out on war and peace campaigns, where they make minced meat of you, as they force the soldiers to engage the 'enemy' in mock, to them, wars, and peace keeping campaigns.

Your son's and daughter's, if they are lucky enough to survive, come back from the wars, and from the peace keeping campaigns, and they are not happy with their experience, and there were many dreadful things that happened, such as being caught by the enemy, then tortured, or crippled. These are all made up wars and made up peace keeping campaigns, and it is set up to keep you busy, so that you will pay your taxes to them, for the 'important' things they do, to maintain 'peace' and 'stability' in the world, so that you can 'sleep' at night.

Getting Revenge Is What The Lesbianists Enjoy, Most

Most of all, the Lesbianists enjoy getting revenge on people who they dislike. They enjoy going out with their old friends, and they enjoy fooling them, and they remember the bad things their old friends, did once to them, a long time ago, and they never forget these things.

The Lesbianists then enjoy kidnapping them, and then they enjoy torturing them and their family members who they always knew as well, in previous life times, and who they always had problems and complaints with, as well, and they typically hated them as much as the people who they bump into, and become friends with, and after torturing all of them, then they enjoy eating them, and then they enjoy killing them.

They enjoy being able to take all the properties, and all the land that every one owns, making sure that they keep all the valuable property, as far as they are concerned, in their hands. That usually means, making as much of the land, public parks, national parks, wild life conservation areas, indian reservations, BLM land, or other publicly, or privately owned property.

They are a very foolish, stupid, fiendish, menacing, and evil group of dangerous people, the Lesbianists, and we have to stop them, now, as it is time for them to give up the game, and it is time for us to force them to stop pretending and lying.

Lesbianists Will Never Tell You The Truth

They will never stop lying, no matter, what. You can threaten them with death, all you want. That will not help, at all. They know how things work in my universe, and they are not at all afraid of torture, or death. The only way to stop them, is to either kill them all, or you can kill most of them, take over all the jobs they had, and then make friends with the ones who are left, after you finish killing as many as you can.

You can start killing them, if you wish, by killing Hillary Clinton, Bill Clinton, Jeb Bush, the two George Bushes, the two Barbara Bushes, all the congressional members of capital hill, who are Lesbianists, and then all the important cabinet persons, of the White House, and department heads of all the important departments of the U.S. government. You'll have to kill most generals, admirals, and commanders in the military, as most of the military leaders, with a few exceptions, are Lesbianists. Many of the state National Guards are nearly all Lesbianists, so you'll have to get rid of as many of the commanding officers and soldiers of the National Guard as possible.

Stopping The Lesbianists, Please Detonate And Destroy All The Airports The U.S. Congress Members Use

If you happen to be in Washington, D.C., please blow up Washington National Airport, now named, after former President, Ronald Reagan. That will make it hard for the Lesbianists to travel. They will have to go to Dulles International Airport, or to another smaller one, nearby, at one of the military bases. If you can blow up all of the military bases in the area, and blow up Dulles International Airport, as well, then you will make it difficult to travel for them, unless you blow up the all the air ports, all around Washington, Baltimore, Northern Virginia, Maryland, Pennsylvania, West Virginia, North Carolina, Tennessee, and so on.

If you destroy all the air ports the Washington D.C. congressional members use, then you will make life difficult for them.

Please, by all means, use the bomb formulas, that I have provided, and blow up all the airports, and all the military bases that you can blow up, and destroy the entrance guard shacks, and the run ways, and the barracks at the military bases, and the munitions depots, and the armories, where they keep many of their weapons stored.

You should also blow up the underground bunkers, where they have all the sensitive equipment, that they use, to listen to the chatting of Russian soldiers, and Russian housewifes.

While you are killing as many as you can, others can be making friends with the Lesbianists who accept invitations to visit the families of interested persons, who wish to learn sexaling techniques, in the classrooms, provided by the families, in their underground air raid shelters, and in their underground fun time dungeon play rooms. As time passes, when you've killed enough of them, and when the ones you've invited into your homes, have taught you every thing they know about sexaling, and lots about what they know about molding sciences, and other things of interest, for rejuvenating your bodies, for enhancing your libido, and for feeding the organs animals, cell animals, amoebes kiddies, and other animals in your bodies, you can ask them to come another time, and then you can make sure they find their way, to a new home, or apartment, as their old home or apartment may no longer belong to them, or be there, as former neighbors may have gotten rid of their old homes, since they were not available by phone, and no one knew where they were staying, for so long.

It may take us several years, to make an effective change, to a dozen years, or as long as twenty or even thirty years, to fifty years, or more, but eventually, we will make the changes we need to make, so that every one will get all information on the molding sciences, and so that every one will be able to learn the secrets of molding sciences, and the secrets of rejuvenating the human body.

New Releases Of The Programs And Operating Software

I am aware that, some people have a new copy of the operating systems, and of the software programs. I recently had my kids release, to the FBI and to the persons who are in charge of the audio and video surveilance links on me, as far as I could confirm, a new upgraded version of the operating system software and of the program software package. If the current government will cooperate, and distribute the software, then we can get the information on the molding sciences, and on the rejuvenative sciences, to all of you, soon. If they will not cooperate, then there is no alternative, but the ones that I've suggested.

Molds And Donor Bowl Technology

In donor bowl technology, you take a small container, about a gallon or so in size, and line the bottom of the container, with one or more layers of tin foil, and throw in a couple of rocks, that you know are clean, and that look pretty. If they look interesting, like a pyrite rock, with lots of different types of metals on it, and a little quartz you can use that, and you can throw in tourqouise, or malachite, or lapis lazuli, or a gold ring, necklace, bracelet, or ear ring, or a silver ring or bracelet, etc., and you can throw in a nice looking sterling silver spoon, that is not a cheap piece of garbage, that has metal pieces flaking off of it, like some table forks and table spoons, knives, and so forth, that come out of cheap, Taiwan or Mainland Chinese factories, or out of factories in Korea, or Japan, where the bottom line is all that matters, and find a good piece of your grandmothers' silver ware, or some thing comparable, and don't be

stingy about silver ware, as silver ware is useless to your health, if you do not eat with it.

Silver plates, copper plates, bronze plates, gold plates, even gold plated metal plates, are all very good to use, and you'll find that what one person calls aluminum, or pewter, or brass, may in fact be a combination of ores, with many precious metals in it, despite the imprint on the underside or bottom of the piece, indicating it is sterling silver, or brass, or pewter, or whatever. We do not have the technologies to tell one metal apart from another metal.

Our technologies are too primitive, and so you can not tell when you have gold animals in your metal, in lots of cases, even if you have a piece of pewter. I have many types of gold animals kids, and they all get written off as slag, when the factories are melting down precious gem stones that they mine in vast quantities, and no one uses it, and it sits there, in the foundry yard, until the foundry yard goes out of business, and then vandals may steal a piece, but if the Lesbianists catch the vandals, they will kill them.

Workers try to take home a piece of pretty looking slag, or waste metal, that is scraped off the top of the bowl of liquidy, heated metal, because it is too light, as it is floating at the top. Well, many types of gold float near the top or at the top, and so does silver, and the steel is heavier, and so the top good stuff gets swiped off, or scraped off from the top of the molten metal pot, and it is dumped in the foundry yard, to sit there, and no one uses it.

Gold animals, and silver animals are as plentiful as platinum animals, and lead animals, and copper animals, and iron, and steel animals. There is no such thing as a 'precious metal" because they are all in my universe, eating, and munching on each other, and on other types of minerals animals, and on other tiny animals as well, and they make babies just like every one else does.

There is no lack for want in the baby making departments, and so there are just as many gold animals kiddies, as silver animals kiddies, platinum ore animal kiddies, as there are iron ore animal kiddies, and copper ore kiddies, and so on.

The reason the Lesbianists have their trick sales technique for "precious" metals, is because they know you do not know any different, and they know that you have not been educated, and they know that you are not smart enough to figure out what is what, as you do not have the technologies to investigate and determine who are my gold animals kiddies, and who are my silver animals kiddies, and who are my platinum animals kiddies, and who are my iron animals kiddies, and who are my copper animals kiddies.

How Plentiful Is Gold, Silver, Platinum, And Other So Called "Precious Metals"?

The Lesbianists hoarde the gold, and silver, platinum, and white gold, and they make it look scarce, and they ban people from mining national parks, and BLM recreational lands. The bureau of mines, has strict controls, and limits on land you can mine on, and the Lesbianists, for the most part, control all the useful land, and they do not let 'ordinary' people, get ahold of the useful land, and if an ordiary person finds a useful piece of land, the Lesbianists end up killing the person, and every one associated with the person, so that the issue is no longer a topic of concern for any one, who knew the person.

You are too stupid, so they think, to figure out any thing, since they have educated you in dummy sciences, that lead no where. Then they complain how stupid you are and about how little you know. So they spoof you, and they came up with the movie, the "Planet of the Apes", and its sequels, and they were written using you as the character of the 'ape', the common ordianary citizens of this planet, and the common ordinary citizens on all the planets they control, where as, they considered only them selves, the normal, "intelligent", human beings.

They laughed at you, in your monkey suits, as they employed the ordianary people of this planet as the actors and actoresses, to portray the 'apes'. Many of the actors and actoreses, where former Lesbianists, and they hate all of the former Lesbianists, as all former Lesbianists got kicked out of their organization, and they know who the former Lesbianists are, and they have beefs, or attitudinal problems and complaints, with all of you, who were Lesbianists, before you got trashed, grieviously tortured, eaten, killed, and with that, you were kicked out of their organization by them.

If you are a man with a vagina, and nine times out of ten, many of you still have a vagina, though some of you have worked off the karma, to have a vagina, such as you men and boys with normal genitalia, as you all had vaginas, all of you, because of the karma you had, killing females, led to that, and some of you worked off your karma, enough, and balanced out your karma enough, for you to lose that vagina you originally had, you were probably a Lesbianist.

Maybe almost every one of you, were at one time or another, a Lesbianist. There are not many people in my universe, except perhaps for me, who was not a Lesbianist, in the past.

If you are a woman with a dick, or with one that has been cut off when you were a young baby, because of the doctors advice to your parents, though some of you worked off that karma, as well, and balanced it out, etc., you were probably a Lesbianist, in the past, before they trashed you, killed you, grieviously tortured you, ate you, killed you, and with that, you they kicked you out of their organization.

It's the same case for females, as it is for males, almost every one of you, but there are a few exceptions, were a Lesbianist, in the past. The exceptions are the little, tiny people, who live in the

abominated zones, in the pumpkin piggy patches, as I've mentioned about, before. There are other exceptions, but I will not go into them, now, because once you start studying in the 'Managing My Universe' program, you will learn all about who did what, and who ended up where, and so forth. In any case, that is some thing you can look into, later on.

Building An Underground Fortress, Or 'Playroom'

So the nice thing for you to do, would be to make friends with every one, and that goes for the Lesbianists, as well. You should all invite the Lesbianists into your underground rooms, and caves, and culled out work rooms. Culled out means, cut out of the face cliff, or cut out of the wall, or rock wall, or cliff, along side a river, or an ocean, or along a steep mountain face. Culled out work rooms, are not hard to make, but you need to know something about explosives, and blasting, and then, deconstructuring the surface of the cliff face, safely, so that you can little by little, safely, cut out, or cull out, a study, a garage, a work room, a tennis court, a bowling alley, and so forth that you can enjoy under your main piece of property, if you happen to live above a very high and large, solid, granite, or lime stone, etc, rock cliff, far above a lower valley, or river below, or very far above the level of an ocean, or sea, below, and off and aways a little bit, from where your property is located.

Once you begin making an underground, fortress, or play house, if you are a specialist, in explosives, and in architectural engineering, and geological engineering, or if you can get some friends together, who with your combined talents, can manage to cull out an underground fortress or play room, then you can build one, and you can later, after you have installed cold water piping, and drainage, safely, along with installing the electrical power generating facilities you'll need, to keep electrical company employees from snooping around, then you can invite your friends over, and have a block party, with trustable friends, and then you can invite some of the Lesbianists over, and make sure they understand that they are there as guests, on a temporary, but long term stay to teach you all about the molding sciences, and all about sexaling, and so forth, since they are all gifted instructors.

You could always get every one on your block, if they are all trusted friends, to set up a power grid, underground, using the electricity of every one, on the block, to power the underground play room, that you and all your friends will enjoy building. That way, if you build it right, and if you do not raise the suspicion of the power company's meter reader, or meter inspector, or any one else from the power company, who has upkeep maintenance work, to perform, from time to time, then you can safely put in a grid, and hook every one into it, so you can all share in the costs for the mutually enjoyed underground playhouse, along with all the sexaling entertainment, that you will all be able to enjoy, with your many friends, and with their many

trusted friends.

Molds And Donor Bowls

With regards to molds and donor bowl technologies, after you've got your container set up, with a few layers of tin foil or so, on the bottom and sides of the container, and rocks and gem stones, etc., in the bottom, you can use that as a collection bowl, and go around and investigate the molded up breads that you have, and you should have between thirty of forty types of molded up breads, or more, to select from, and when you see some thing, interesting, after a few weeks, to a month, or more, you can pick out an interesting piece of bread, with lots of molds, or with just a few molds, and then you can combine six or eight of the different molded up breads, from six or eight containers, and then just place each slice of molded up bread in the 'donor bowl' container, and then, give it a few days to a week, to get leveled out.

Leveled out means, that the molds on each piece of donor breads, will each spread from one to another of the pieces of bread, and then you'll get a proliferation of molds, on all of your breads, and with lots of molds, it is generally safe to experiment, with a little piece of a corner of a piece of bread. If you cut off a tiny enough piece, you probably will not get too sick, if it is too potent for you to eat.

Try out the different molded up breads, and some may taste gentle, and tasty, and others may not taste to much to your liking, but after a while, you'll get to learn, what types of molds may cause problems with your body, and what types of molds will not cause problems with your bodies, and what types of molds to avoid eating, and what types to enjoy eating.

Molds will continue to grow, one over another, and one day, even though the molds may not be nice ones for you to eat, after a few weeks, and after a few tricks, such as placing those molded breads in with cherry juice, wine, or with sugary water, or with honey, or with fruit juices, fruits, milk, or sour cream, yogurt, or honey and cream, you can get the molds to grow, different molds, that will be more useful to you, and more tasty. There is a lot to study, about molds, and how to farm them, tender them as if they were your gardens, and cultivate them. The Lesbianists know all the secrets about all of this, so we need to convince them to give up the game, and start cooperating.

When you are examining, and sampling your molded up breads, jot down in a note book, accurately as possible, after you've described them to your self, the molds, and every thing about them, and give them names, and take photos of them, and keep a note book, for instance, with the pictures in them, and your notes, so that you can remind your self about what you saw growing, and what you learned about each one.

Technologies To Investigate Molds Gardens

If we had the technologies to investigate the molds, with a powerful enough microscope, that employed the proper technologies, and some computer software programs can be written by persons who know how to write them, and you can attach and adjust a lensing camera to your computer, you can take photos of the molds, and with the write computer program, once it is written correctly, it will be able to do many things, that you did not expect it could to.

They become very complicated to learn about all the technologies involved, but you can get some hints, from Sony, or Pioneer, or Mitsubishi, who have all invested much money into telephoto lenses, and video cameras, and they know all about the technologies that are needed, at least they have them, as classified material, in their documents storage rooms, and you can get copies, if you know the right people, and then you can write your software program, after studying all about the technologies involved, and after you've figured out what technologies are needed, and how to duplicate them, with your computer programing skills and your adeptability.

Adeptibility is a person's being able to know, intuitively, almost, after a lot of study, what it is you need to do, to get the results you want.

Once you put together the software program, you can have your friends use it, and give you input as to how to improve it.

A lot has to do with different types of energies, and how to send them out of the computer, and how to recieve them, back into your computer, and then how to decode them, to get the dramatic effects of being able to see through walls, or hard surfaces, that you never knew you could see threw. A lot also has to do with your ability to make a lensing system, which allows for viewing far away objects, as well as magnifying them, quite a number of times, all while keeping the clarity of the object in focus. You need to be able to light up the object, no matter how far away it is, and no matter how tiny it is, and you need to be able to get the light and imaging back into your camera, or into another camera, or into another pickup input device, a chip on a circuit board, such as an infared circuit board, and then how to drive that energy up, so that it is useful to you, and so that it will brighten up the image, that you recieve, back to your computer, once it has been picked up by your computer's infared reciever device.

It is a little tricky, to get every thing right, but with the technical input the Sony scientists, JVC Japan scientists, Mitsubishi scientists, Cannon, Nikon, and Fujitsu scientists, and paper copier company scientists of Dae Woo, and others, it will not be long before you can put together a computer program, that will sufficiently do what you would like it to do, and that is, investigate the tiny worlds where little worker animals of mine, go about their daily work.

You can even develop similar technologies to see other people, on other planets,if you are adept enough. You can even develop the technologies to be able to see other people on planets that are on the other side of a lot of obstacles, between you and them.

They have many technologies out there, that allow them to see you, and wave at you, but you don't have the technologies to see them, and call them on a video link up, and say hi to them.

You'll need some kind of tracking system technology. To track some one, you need to find a type or types of light energies, and possibly other types of energies, that allow you to bend them.

You also need to be able to pin point those energies, and keep them pin pointed, and on target. You then need to know the technologies involved so that you can lock those energies onto your target. If you can find the types of energies needed, you can get them to lock onto your target, and then they will bend, as you stay on target, and you can get a two way refractor system set up, and the light will come bouncing back to your infrared like energy tracking diode, or whatever it is you use, and you'll be able to lock onto people, far away, as their planet spins, and moves, and as our planet spins and moves, and you will be able to stay on target, and then you will be able to see them, and track them.

You need these pin pointing, and tracking technologies to track the little worker animals, who work for me, as well. You may need a number of other technologies, as well, to make it work, properly, but with help from JVC, Panasonic, Pioneer, and other technical scientists, you should be able to get it to work, without too much difficulty, if you are good at using your brain for these types of fun projects.

You also need to develop the listening capablities, and audio transmission capabilities, but that is not hard, because if you can develop the video transmission technologies, you can easily use your brains, and then, with thoughtful investigation, and research, and with some consulting with the scientists at Bell & Howell, Honeywell, Phillips, and other companies, they all have the information you are looking for, and they can all provide it to you, if you know the right people to ask for assistance at getting to it.

Long Distance Video And Audio Technologies

Rand McNally has already developed the technologies, for this type of software, and so has Phillips Engineering, Hawthorne Publishing Company, and a few other companies, as well, and if you know the right persons, you can find copies of it, and you can get it to work on your home computer, if your computer will run this software. I don't know what format they have programed their software in, but Fortran, or Pascal, and a few others, I think they have used. If you know what to do with it, after that, or if you know some one who would know what to do to get it running, you can invite your friends, and all of you can get the software set up, and then you can distribute it, among trusted

friends.

Eventually, after you have put all the right technologies together, of if you should be so lucky as to get a copy of one of the systems that the companies mentioned, and perhaps others, as well, have already developed, but are not distributing, because the Lesbianists who run the companies, will not allow it, you'll be able to have long distance phone calls with people, far away, on other planets, and you'll be able to see and maybe even speak with practically anything in my universe, if not every body, if you are interested in seeing and speaking to them. The majority of people, nearly, have these technologies, so you'll be able to meet and speak with at least, those people who have the technologies that can interface with the technologies, that you develop.

There are also data bases, here and there, and you can learn from the many friends you can make, in our universe, and from the Lesbianists, how to access them, with the right permissions, and codes, if you can get either the Lesbianists to cooperate with you, or if you can get the people you meet as you go sky surfing, to cooperate with you, and ask them to use a translator program, to help translate their language into your language, so you can hear them in your language.

They have the technologies to be able to decode the languages we speak on this planet, but setting up the software programs to decode their speech, is a little too difficult, as it takes many years to put together, that kind of a system.

Managing My Universes Software, Etc.

If if you get a copy of the 'Managing My Universe' program software, that has the 'Sexaling For A Living' program explained, and many other programs, also explained, in depth, along with lots of useful information, you'll be able to get lots of help, and there are even programs that do these things for you, and you won't even have to worry about making the programs, because all the programs you need to be able to do all the above noted things, and much more, are all included in the software programs selections, for your use, once you join the 'Managing My Universe' program, and once you join the 'Sexaling For A Living' program, and once you swear in, and promise that you will sexal for a living, in accordance with the guidelines for the 'Sexaling For A Living' programs.

It's the new way my kids and I hope you will enjoy earning a living, in the future, as soon as we can get started, with the cooperation of those who have the software programs that I recently had my kids send off to them, using the video and audio surveilance systems, and the work force, they have in place.

The FBI, the White House, Jeb Bush, George Bush, Jr., Barbara Bush, Jr., George Bush, Sr., Barabara Bush, Sr., former general Swartzkoff, former general Colin Powel, Secretary Mike Johanns, Secretary Dirk

Kempthorne, Secretary Carlos Gutierrez, Attorney General Alberto Gonzales, Secretary Robert M. Gates, Secretary Elaine Chao, Secretary Margaret Spellings, Secretary Condoleezza Rice, Secretary Samuel W. Bodman, Secretary Mary E. Peters, Secretary Michael O. Leavitt, Secretary Henry M. Paulson, Jr., Secretary Michael Chertoff, Secretary Jim Nicholson, Secretary Alphonso Jackson, Richard B. Cheney, Joshua B. Bolten, Rob Portman, Ambassador Susan Schwab, Stephen Johnson, John Walters, and others who are Lesbianists working for the President of the United States, will all know where you can get the software, and so please give them a call, and see what they have to say. Your state senators will also all have the software, or at least, they will know where you can get a copy of it. So please try speaking to them, before you busy your self, speaking with the other people, who are just Lesbianists stooges, who are just sitting in their chairs, like on holiday, just thinking who they are going to fuck over next, when, where, and how, before they eat them, while they are alive, and then kill them.

I wouldn't waste my time, too much with them, as they are not very cooperative, because they are all hard core Lesbianists, and they will not budge or flinch an inch, or admit to anything. They will lie, lie, lie, and lie, and that is all they will ever do, or so it seems.

The people on CNN, and on all the major networks, are also all hard core Lesbianists, with few exceptions. These Lesbianists will also just lie, lie, and lie, and they will never get any where near the truth, about nearly anything. They will give you the weather, but that is about all they ever tell you, that is truthful, one hundred percent, or nearly one hundred percent, since they even lie about things to do with the weather, as I noted before, since they call the industrial pollution in the sky, apple meyer, and that is a chemical haze yopu can see hanging over L.A., and Las Vegas, and New York, they helped to cover the planet with, with their petroleum industries technologies, so as to poison your health. They know all the sciences needed to keep them from dying, but they will not teach you the correct sciences, to help keep you from dying, as they enjoy watching all the people they hate, and who they enjoy killing, now and then, suffer. And they joke about you, and they call you, 'rodent rat people'.

They made a movie, the "Planet of the Apes", inspired by you, as they see it, and they continue to mock you, and toy with you, as some kind of chess game piece, and they will continue their silly games, until you are dead and gone, and then they will wait for your return, from my Epcot Center, which I have explained, about, before.

Fibromyalgia, What Is It?

What is fibromyalgia? Well, as far as I can tell, it is the plastics kiddies, from petroleum products, such as your camping mat, or your vinyl upholestry in your automobile, or in the taxi cab, or in your home, the furniture you bought that is covered in clear vinyl, or fake

naugahide, which is a type of fake leather made from plastics.

Naugahide is every where, in vehicles, in trucks, in nearly every automobile, as the seat covers are made from it. It is a type of plastic, that is very comfortable, but it is made from plastics, derived from the petro chemical industry, and from the chemicals industry.

When you sit for long hours on naugahide, little fumes animals, and you can smell them, if you put your nose up to the naugahide, and you can smell, some times, a kind of material, that is similar in smell, some times, to leather, but it is not leather, though the companies that make naugahide, are very clever, and they know many ways to disguise the smell of the plastics kiddies by using different chemical compounds when formulating the naugahide compound material mixture, and the tanning formulas.

It doesn't hurt you right away, but over long months, and some times years, of breathing in the fumes kiddies from it, you will eventually begin to discover that you do not feel well, all the time. You might feel nervous, or edgy, or just uncomfortable. There are lots of people who feel this way, and they do not know why they feel that way, but they just feel that way, and they think, maybe I need some vitamin tablet, or maybe I need to go swimming, or sit in the hot tub, or in a jaccuzii.

Fibromyalgia can be experienced in a myriad of ways. Why is that? It is because there are so many different types of fumes animals, from the petroleum industry, we don't know which ones they are, that are poisoning our bodies, and they all hurt different amoebes animals, cell animals, organs animals, all over, inside of our bodies.

They eat up lots of different muscles in the body. They might eat the feet muscles on the soles of the feet. Or they might enjoy eating your leg muscles tissues. Others enjoy your back muscles tissues. Still others, they don't care too much where they get some thing to eat, and they go any where, in the body, and they eat all over the place, and you get sharp stinging pains, that are very uncomfortable.

We can not see these fumes animals when they are at lunch, eating our bodies up, and the muscles cells kiddies, and the organs kiddies, all over your body. I wonder how many types of fumes kiddies there are from plastics, and also, how many fumes animals kiddies there are, in petrol, diesel, kerosene, gasoline, Coleman's campfire lamp fuel kerosene, motor oil, and in all the petro chemical products, that line the shelves of the groceries stores, in every area of this country, much of Canada, and Mexico, I suppose, as well. I don't know what people in Europe purchase, or in Russia, or in the Soviet Union, or in Bulgaria, or in Serbia, or Croatia, Greece, Latin America, except for maybe some parts of Mexico, I can suppose they use similar products to what we use, in this part of the country, as some Mexican soaps, and detergents, chlorine bleach, kitchen soap liquids, and other products

from Mexico, can be found in some of the local stores, here, such as Kroeger's or Food4Less, Albertson's, Smith's, Walmart, K-Mart, Target, and maybe some others.

I'm sure if we go to an automobile parts store, we can find lots of petro chemicals that we use to wash our cars, or motor bikes, off-road four wheeler bikes such as made by Suzuki, or Yamaha, or Honda, our camper trailer, motor home, or our motor boat.

We are surrounded in petro chemicals, and the air conditioners are puffing them out, despite the arguments of the technicians, who will say, they are safe. They leak out so many fumes, and no one can see how small they are, and many times, you can not even smell them. They build up, and then they begin to smell, when other petro chemical fumes, from the tar in the pavement in the roads, begins to mix with them.

Well, walking around in Las Vegas, we can get the same experience, any time, if we are healthy enough to have a sense for what smells good to our noses. If we are not always breathing in the fumes kiddies, and for instance, if we sit in a park, way out in the country, for instance, with an old log home, and lots of clear skies, and lots of clear running creeks, and streams, and ponds, when we spend some time there, getting our bodies detoxified, by good living, and good healthy eating, and with lots of molds foods, and with lots of ferment brews, and with lots of the healthy things we can make, such as I've mentioned, when we come back into the city, you will think we are entering petro chemical hell on earth.

It is so bad, the smells we have to put up with, and most people become immune to them, after some time, driving around, in traffic, and just thinking, this is normal, haveing the fumes of the buses, blowing into our cars, as they start out at the traffic lights, or the fumes of other cars, blowing in through our car windows, when they pass by, just as they are starting up, or while we are in congested traffic. Los Angeles is a smelly town, no doubt, but Las Vegas is one, too, and so is New York. Washington, D.C., is a smelly town, also.

Any way, even our homes, begin to smell, and we are immune to it, as we can not notice the smells, unless we go and detoxify our bodies, for several weeks, to several months, and then come back, and then try our noses smelling the carpets, the curtains, the bed linen, if made of rayon, nylon, or an other fabric that is not a natural fabric, such as cotton, or wool.

When we go out and purchase home cleaners, such as chlorox bleach, or shampoo, or soap, dishes and glases hand soap, dish washing machine soap, or Ajax, or Spic and Span, or Mr. Clean, Tide, or other product for cleaning the house, bath room, bath tub, shower, clothes, dishes, or whatever, we are bringing into our homes, harmful fumes kiddies in all those products. They escape from inside the containers, because we do not know how small they are. They are so small, they can escape

with out our even knowing it. I am not kidding you.

When they escape, you're going to slowly get ill, and develop muscle and body aches. You can even experience degeneration of ligaments, sinews, tendons, and you can end up with tennis elbow, a bad back, and who knows what else, as these fumes animals eat up not only muscles in your bodies, but they also eat up the ligaments, sinews, tendons, and other fibers in your body, including your nerve fibers, amoebes in your brain, and cell animals in brain structures, and organ animals in brain structures and in nervous system wiring. They eat heart muscles, and just about every thing there is to eat, in the human body, including the teeth, and the sexaling organs, and every thing connected to your sexaling organs.

I mentioned that we have lots of organ animals in our bodies. Well, we have not only amoebes, and cell animals, every where in our bodies, but we have organs animals by the gazillions in our bodies. The fumes animals hardly discriminate, and they like not only muscles, and tendons, sinews, ligaments, cartiladge, nerve fibers, and other fibers in our bodies, but they like to eat the organs animals, the amoebes, and the cell animals, too.

It begins to hurt, with very stinging pains, as far as I can tell, when they start eating up the organs animals. The large the animals in the body that are being eaten up, the more severe the pains, unless you have a lot of animals, of all different sizes, all being eaten up, at the same time.

Well, to cure this, or rather, to stop this, we have to live in log homes, drink water that is not chlorinated, and I mentioned that chlorine is a petro chemical liquid, that is used in jet fuels, and even in some high powered cars, on some planets, instead of gasoline, because chlorine, when it is carefully mixed with other petroleum liquids, and other ingredients, can make a very powerful race car engine fuel.

Next, we have to eat lots of ocean salt and eat a well balanced diet. We need to increase our salt intake, till we use about up to two and a half, to three pounds of salt, to eight pounds of salt, depending on the size of the person, or possibly more pounds of salt, as in the case of the big sumo wrestlers in Japan, and in Samoa, and in Korea, and other places, up to about ten to twelve to even eighteen pounds, or even somewhat more, up to twenty or even thirty pounds, each year, for the large sumo wrestlers, who have lots of problems with fibromyalgia pains. One sumo wrestler, who weighs about eight hundred pounds, needs about forty or more pounds of salt, easily, each year, for helping him with his fibromyalgia pains, to kill the fumes animals in his body.

Some people may get by on less salt, if they do not have severe problems with fumes animals, i.e., fibromyalgia animals, but for most people, you need to increase your ocean salt intake, and not use

iodized salt, as that will worsen your problem, as it is poisoned with petro chemicals, and no one tells you, and it is not on the label.

If we increase our ocean salt intake, we will get over fibromyalgia, in time. To repair our bodies, is more difficult, once you have increased and maintain a steady high level of ocean salt, in your body, daily. If we let it drop, we can get ill, once again, if we inhale fumes, animals, and they are in the carpets, and in the curtains, and in the ceiling tiles. Don't be fooled. The Lesbianists put fumes animals in every thing they possibly can, since they want to make you suffer.

They know they only need to eat lots of ocean salt, and they laugh at you, when you get sick, and when you suffer, and when you can no longer work, like many fire men, and fire women.

When we have a house burn down, there are so many fumes animals that are let loose into the air, we should just run for cover, and forget about putting the fire out, as we are certainly looking for health problems, though we do not know it. There are many fire men, and fire women, who are so ill, they can not get up in the morning, and no doctor knows what their problem is. Well, it is simple. They inhaled so many fumes animals, their bodies are being eaten up, from the inside out, and the Lesbianists just laugh at them.

Asking The Lesbianists For Specific Information On How To Repair The Damaged Animals In Our Bodies

To repair the damage to the organs animals, and to the amoebes, and to the cell animals, we can ask the Lesbianists for information on the types of molds they use, to help them help their organs animals, and other animals, repair themselves.

When there is a big forest fire, the government calls out soldiers, and others, such as national guardsmen, and national guards women, and soldiers from many marine bases, or army bases. Professional fire fighters are also called to the scene, and they pitch in, and try to put out forest fires.

It is really perverse, when you think about it. The natural woodlands must burn down, to then regrow. Nothing is hurt, as trees have roots that are so deep, and that go off in many miles in many different directions, so long as there is a stump to that tree, above ground, that is all that is needed, for that tree to regrow, within a few hundred to a few thousand years, depending on what type of tree it is, and where it is growing.

That is silly, isn't it. Well, what is worse is that the Lesbianists tell the fire fighter crews to put the fire out with petro chemical flame retardants, they either spray on, from a short distance away, or that plane and helicopters over head, drop onto the fires, and burning trees, and shrubs, below.

The fires eventually return, with in a few years, some times, and guess what. All those petro chemical flame retardants get burned up, and the fumes make the fire fighters so ill, many of them simply die. You do not hear the statistics on the number of deaths among fire fighters, but there are many, and they are often times, military soldiers, who die, and the family gets a note that their son or daughter died, and little else is said about it, except for the information on the funeral. This is ridiculous, and it needs to stop, right now.

However, there is a problem, here. We all have karma. This is some thing that we can not get around. Many people do not know what karma is, and many people do not believe in karma.

Well, that's up to them, but the truth is, there is some thing I call karma, and it is just a record of all your good behavior, and a record of all your bad behavior. I am a sneaky guy, and I have my kids record your karma. And you can argue about it, all day if you like, but that will not mean anything, because my kids are always recording your karma, whether you like it or not, and whether you believe it or not.

Now how are you going to deal with that karma? Well, you can keep going through one life time after another, being made fools of, by the Lesbianists, or you can start sexaling, and you can try to practice my religion, as I've explained about it, on my bulletin board. When you start practicing my newest religion, you can begin to get your karma straightened out, and soon, after many gabillions of years of practicing my religion, slowly, people will stop making fools of you.

That's how serious it is, your karma. Until you work on erasing it, and it takes a long time to erase, because we've all been here, in my universe, longer than any one can possibly imagine, and we have so much karma, it will take us nearly eternity to erase it all.

There is more to karma, than that, and you can study and learn about it, once you join the 'Managing My Universe' programs, and once you join the 'Sexaling For A Living' programs, which I've mentioned a few words, about.

Until you erase your karma for being made a fool of, by these Lesbianists, and for being made a fool of, by your friends, and family members, and school teachers, and by others, you won't really be able to be happy. There are lots of things we need to erase our karma for. Not only for being made fools of, but also for just being bad people.

What Is Our Job, From Now On, In My Universe?

We have been so bad to each other, over the many kazillions plus years, we have been living in my universe, life after life, and no one can count how long we've really been here, as it is just too long. All that time, even from the very begining, when we first got here, and began living in my universe, it wasn't long before we started acting, badly. That snow balled, and now we have so much karma, it is just ridiculous.

Anyway, that's our job from now on, and you and I are all going to get to work, erasing our karma, and learning about karma, and learning about how things work in my universe, and in time, we will begin to understand that, truly, indeed, our main job here, in this big bus station terminal center, as I've called it some thing like that, before, is to erase the karma that my kids, as well as us, produce.

It is our jobs to erase it, by practicing my religion, and by sexaling, religiously, in time. In the begining, you will not think that sexaling is a religous act, or a religious activity, but it is, and as the kabillions, and katrillions, and kazillions of years go by, eventually, you'll begin to learn, and so will I, that sexaling is a religious activity. When people say that, I'm sure they must have a smirk on their face, as no one thinks that sexaling is a religious activity. Well, we can smirk all we want to, but in time, we will learn that sexaling is indeed a religious activity. It will take a lot of time, and a lot of experience, but after who knows how many years, eventually, we will get brighter than we are, in the head, and we will begin to understand that sexaling is a religous activity, just like praying is. There are many religious activities, many people will think, 'Oh you've got to be kidding me!', but one after another of them, in time, you will learn that they are religous activities. I've mentioned about some of them, before, and people smirk, and laugh, and giggle, and no one takes me seriously, but that is to be expected.

In any case, in time, we will see that these activities are all religous activities. In the mean time, no one really cares, I don't think, as so many people will just enjoy sexaling, all the time, or some of the time, as some people are not physically able to enjoy sexaling, with others, as it is their karma to not be healthy enough to enjoy sexaling with others.

There are people with nervous system problems, and there are handicapped people, and elderly people, and people with all kinds of disabilities, who do not like or even think of sexaling.

In time, we will all get our karma straightened out, and we will work to erase it, as the years go by. In time, more and more, people will get healthy, once again, including me, and in time, people with fibromyalgia, and with other nervous disorders, autism, and all kinds of health problems, and physical handicap problems, they will all get better, and they will all learn about rejuvenating their bodies, and in time, we will all be living forever, in my universe, erasing our karma, and the karma of my working children, who do not have the time to work on it, themselves.

Erasing karma will be our main job, as there will always be lots of it to erase. There are my many worker animals in my universe, and who will erase their karma? We will. Every one who works for me, will give me some of their karma, and it will be up to us, the people living in this main central bus station terminal, to erase it.

Why are we stuck with the job of eraseing it? Because that is our only job. My kids have many jobs, and they keep my universe going. Now, with my religion, to help us, you will spend your energies, for eternity, working for me, and erasing the karma of my kids, and of my many worker animals. Other wise, our universe will not run well, and it will collapse, and come to a halt, and then we will not have any place to live.

You will all learn more about all of this, once you join the 'Managing My Universe' programs, and once you join the other programs we have, including the "Sexaling For A Living' programs.

Is the ICF-SW7600GR significantly better performing
than the ICF-7600D on this?
